The Last Word in Tire Chain Value and Efficiency

**Dreadnaught**  
Tire Chains

although lower in price than some others, are made to a quality standard that cannot be excelled, regardless of price. The electrically welded cross-sections, after being inspected and tested, are carefully bone-hardened, resulting in links of a Diamond Hard Surface and tough inner core, thus ensuring a maximum of strength and wear. The rim chain is galvanized and cross chains copper plated to prevent rust.

Dreadnaught Tire Chains are Guaranteed as to quality of material and workmanship, and to give at least the same service as the highest priced chain on the market.

**ABLE TO LEAVE HOSPITAL.**  
Leonard McElhinney, who has been confined to the General Public Hospital for some time as the result of an accident, was able to go to his home yesterday.

**TO BE ANALYZED**  
Chief Finley, of the Fredericton police force and also sub-inspector under the prohibition law in the city today. He brought a quantity of beer, recently seized in Fredericton, to be analyzed.

**MRS. ELLEN J. GILLEN.**  
The death of Ellen J., wife of James Gillen, 10 Kitchener street, occurred early this morning. She is survived by her husband, three sons, six daughters, two brothers and one sister, all of this city. The brothers are John and Michael Cullinan and the sister is Miss Alice Cullinan.

**FINE OF \$400.**  
As a result of a recent seizure of liquor on the Royal Mail Steam Packet liner Carquet by customs officials, a fine of \$400 was imposed against the steamer prior to her sailing for the West Indies. No arrests were made in connection with the seizure, although an official and a man sailed just across the road had a struggle, but the latter got away. Sixty-five bottles of liquor were confiscated.

**NOVEMBER RASPBERRIES.**  
Frank Hann brought to the Times office a box of wild raspberries, fully ripe and very luscious looking, picked by him this morning just across the road from his summer home at Sandy Point, on the Kennebecasis above Millidgeville. Stems of raspberries, fresh leaves and great clusters of ripe berries and some green ones came to the Times office this morning. They were picked by Harry Reynolds at George Anthony's farm at Red Head. And this is the first of November.

**THEFT OF GOODS IS ADMITTED**

Large Quantity Recovered in House and Barn—Taken from Freight Sheds.

The week-end police harvest was unusually small this week, the police court sheet this morning containing the names of only six. Harry A. Dryden was charged with stealing goods from the sheds of the C. P. R., N. B. R. and Eastern Steamship Lines, Inc. He pleaded guilty and was remanded for sentence.

No evidence was taken but according to the railway investigators and the city detectives, goods to the value of \$300 from the C. P. R., \$250 from the C. N. R., and \$50 from the Eastern Steamship Lines, have been recovered and returned to their owners by Inspector H. Catlow, Investigator O. F. Gellieau, and Constable C. F. Costello, of the C. P. R., and City Detective Biddiscombe. The investigation has been in progress for some time as goods consigned to local firms and to outside points also have been reported missing from the sheds in this city. In consequence of information received, Inspector Catlow, of the C. P. R., laid information on Saturday morning and a warrant was issued. In the afternoon the inspector, accompanied by Investigator Gellieau, Constable Costello and Detective Biddiscombe went to the place where the accused, a teamster for the express company, was boarding at 157 Metcalf street and there say they found underneath the bed and in other parts of the room and in the barn several hundred dollars worth of goods.

Other goods have not been recovered and the following are now in the possession of the detective department: Two cases of lobsters, from the Eastern Steamship Company; one case of fancy armlets, from the C. P. R., and consigned to Vassie & Co. of this city; one case of electric irons, from the C. P. R. and consigned to the Eastern Electric Company; two boys' oilskin coats and several pairs of men and boys' boots, from the C. N. R. sheds; five quarts of fruit syrups and a quantity of cigars from the C. P. R. sheds; several tire pumps, tire chains, spark plugs, insulators, patches, locks, and other automobile accessories from the C. N. R. sheds; four dozen pairs of cotton gloves, part of a parcel of gloves from the C. P. R. sheds and billed to Halifax.

The police patrol was utilized to transport the goods recovered.

The accused was employed as an express teamster and in that capacity had access to the sheds.

Adelaide Stange of Montreal was arrested by C. N. R. Policeman Ross on charge of lying and lurking in the Union Station on Sunday. He was remanded.

Four drunks were arrested during the week end and three of them pleaded guilty and were remanded. One who was allowed out on deposit failed to appear this morning.

**NO LICENSES**

**IN EFFECT TODAY**

That is Situation in Relation to Vendorships in New Brunswick.

According to the strict interpretation of the prohibition act the province is today bone dry. The current licenses to vendors expired yesterday and none for the new period have as yet been issued. According to information received at the office of Rev. W. D. Wilson, the chief inspector, this morning, Mr. Wilson is not in the province and did not make any arrangements for issuing the new licenses before his departure. He is expected back tomorrow.

In the meantime the licensed vendors that were in a quandry. One called up Inspector Hopkins to ask what he was to do and was advised to fill prescriptions in the urgent cases. The vendor replied that all the cases were likely to be urgent. Inspector McAlinsh, who was in the city this morning, said that according to the letter of the law, any vendor who filled a prescription today would be liable to a large sum of money in anticipation of having his license renewed and did not get a new license would be in somewhat of a peculiar position.

**TWO SUBMARINES ARE COMING**

St. John Firm Buys the Niobe and Two Under Sea Craft in Halifax.

One of the most interesting deals recently consummated in Eastern Canada was announced this morning by Joseph A. Garson, managing director of the New Brunswick Rolling Mills. It includes the purchase of H. M. S. Niobe and two submarines, the C. C. 1 and the C. C. 2, now at H. M. S. dockyard at Halifax. The submarines will be towed here next week and docked at the rolling mill wharf where they will be dismantled. It is not yet certain what will be done with the Niobe. The deal is said to involve a large sum of money. The Niobe, which originally cost \$6,000,000, has the following dimensions: length, 485 ft.; breadth, 69 ft.; depth of hold, 22 ft.; 7 in. depth forward, 24 ft.; 8 in. depth aft, 26 ft.; 8 in. She is 6,803 tons deadweight and 11,000 tons gross weight. She was built in 1895 and launched in 1897.

Frank O. Garson, vice-president of the company will leave soon for Europe in connection with the matter. He was very instrumental in closing the transaction. This enterprising company is being congratulated on its energy and enterprise.

**DEATH DUE TO NATURAL CAUSES**

N. S. Case in Which Williamson Brothers of St. John Were Held as Material Witnesses.

The inquest into the death of George Chisholm of Oxford, N. S., who was found dead in the automobile of William and Robert Williamson of this city will be concluded this afternoon at Great Village, a small town six miles from Londonderry, N. S. The only additional evidence to be presented to the coroner will be the report of the autopsy made at Halifax at the instigation of the attorney-general of Nova Scotia. Some minor bruises on the body of Mr. Chisholm caused a suspicion of foul play and the Messrs. Williamson were held as material witnesses and taken to Toronto. The fact that Chisholm was found dead in the car by hunters in the early morning and that the Williamson brothers were nowhere in sight was also a factor. The Williamson brothers, however, went on the stand and explained that when Chisholm died their car was stalled and they had come in the early dawn to call the nearest authorities. This was corroborated by people nearby.

The Williamson brothers also said that a little before his death Chisholm had complained of being ill and they said that he was very blue about the mouth and face. This evidence, however, about the autopsy mentioned with the result that the report shows that Chisholm died from natural causes, the immediate cause of death being heart failure.

J. MacMillan Treisman, who was in Truro in the interest of the Messrs. Williamson, returned home this morning.

**WINNIPEG CHURCH WANTS REV. H. R. NOBLES AS PASTOR**

The Port Arthur News-Chronicle of Oct. 21 says:—Rev. Harry R. Nobles, pastor of the First Baptist Church, Port Arthur, is in receipt of a request to consider a proposition from the First Baptist Church in Winnipeg and correspondence is proceeding. Mr. Nobles has been in Port Arthur since coming here from Toronto. The Winnipeg church, which has expressed a desire to have him as pastor is one of the leading Baptist churches in the Dominion. Its pulpit has been occupied by such renowned ministers as the late Rev. Alexander Grant, Rev. John MacNeill and Rev. Dr. A. N. Marshall. In the forward movement it was first among all Baptist churches outside of Toronto.

It is not yet known whether Rev. Mr. Nobles will accept the Winnipeg call. Many friends in New Brunswick will be glad to know in how high esteem he is held. He is a native of Sussex, and a son of J. W. Nobles, who now represents a Montreal house in these provinces. The young man is a graduate of McMaster University, and was for ten years pastor of the Christie street Baptist church in Toronto. Later he went overseas as chaplain for three years, and on his return became pastor of the church in Port Arthur.
