THE ROTARY CLUB

The Rotary Club today heard a very interesting address by Dr. Spangler on osteopathy. Dr. Spangler described osteopathy as non-operative surgery. The osteopath seeks to get the patient anatomically correct that he may be physiologically correct. The speaker has a few jokes at the expense of other schools of medical treatment, pointed out that the student in osteopathic college took up every study taken by a student of any of the great medical colleges. He himself had been in St. John for twenty-one years, and laughingly remarked that for some years he was not sure whether he would stay here or go to the penitentiary. His address was heartily applauded. President Peterson was in the chair. A representation of Chautauque briefly addressed the club and was very cordially greeted.

LABOR RESOLUTION RE BORDEN AND STOCK IN A PACKING CONCERN

Brantford, Ont., July 21.—The following resolution passed by the Brantford Trades and Labor Council has been forwarded to Premier Borden:

"Resolved, that we, the Brantford Trades and Labor Council, strongly protest against the demoralizing condition of affairs and the prostitution of the public life of Canada, and that Premier Borden and all members of the parliament who have stock in any of the combines or companies who have been guilty of charging excessive prices, be asked in all decency to resign office."

SIR GEORGE E. FOSTER ISSUES STATEMENT ON COAL SITUATION

Ottawa, July 21.—Sir George E. Foster, minister of trade and commerce, has issued the following statement on the coal situation:

"With the signing of the peace treaty, the United States fuel administration has automatically ceased to exist, and the production and distribution of coal in that country is now governed solely by the law of supply and demand. All wartime regulations, restrictions and embargoes have been cancelled.

"As has been previously intimated, the Canadian fuel control was dissolved on March 31 last. The coal supply of the nation, therefore, now depends on the individual efforts of the coal producers, the co-operation of the consumers in placing their orders for coal at once.

"The information at hand indicates that coal is not coming into the country in the same quantity as last year, or even as it did in normal pre-war years. This is for the first six months of this year, the Pennsylvania anthracite mines, on which Canada depends for a large part of her domestic coal, has produced only 38,800,000 net tons of coal as compared with 41,000,000 net tons during the same period last year, making a shortage of date of more than 10,000,000 net tons. Nor is there much hope that this shortage will be made up, for there is a serious scarcity of mine labor in the anthracite field due to the fact that many thousands of miners are leaving the United States for Europe. Up to the middle of June, 42,000 miners had already left the United States; and it is estimated that 1,000,000 people will eventually leave America before the movement subsides.

"With the strong demand for coal, and the lessened production, there is little room to hope that the price of anthracite at the mines will fall for many months. In fact, the indications are that the price will continue to advance as the fall and winter approach.

"It is not safe to assume that next winter will be a mild one, nor is it possible to forecast what the labor situation at the mines will be, or what the strain of the war period will have continuing against possible advances in the price of coal this coming winter. The government therefore urges all consumers to protect their fuel requirements by placing their orders at once. If it is possible to secure full requirements of anthracite at this time, it is suggested that bituminous coal, or other substitutes be acquired for use in the late fall and spring."

SEEK INFORMATION OF GRAVES OF NAVAL MEN BURIED BY RELATIVES

To assist the war graves commission in locating the graves of naval men who were buried by relatives during the war, in order that they as well as the graves of those buried by the naval authorities, may be suitably decorated an appeal has been made to the naval authorities, that they be furnished with a list of the names of those buried by relatives, and who were buried privately by relatives. This information is required in connection with the marking of graves by the Imperial War Graves Commission. This department is taking all necessary steps as regards the graves of those buried by the naval authorities, but in many cases burial was undertaken by relatives, and there is no information as to the locality of the graves. I am, therefore, to ask whether you will be good to cause inquiries to be made through the various branches of your organization. The following are the particulars required as regards each grave: Name of cemetery or burying ground.

a. As full particulars as are available regarding, etc.

b. Date of burial.

c. Religion.

d. Name of family to which graves have been marked, if at all.

e. Individual or body now taking care of graves.

f. Rough sketch of cemetery or burying place, showing location of graves of naval ranks and ratings.

DELIGHTFUL DAYS ALONG THE RIVER

Saturday and yesterday were ideal days along the river, and craft of all sorts were out. There is a new dancing pavilion at St. John's Point, and it is said that one is also to be erected in Westfield. One of the largest parties of the season was held at the pavilion at Public Landing Saturday evening. A party of fourteen ladies and gentlemen went up from West St. John and there were many others from up and down and across the river, with a sprinkling of yachtsmen.

The crew of the Marion H., provided a volunteer orchestra for an hour or two during the evening to the great delight of the dancers. The masquerade at the pavilion on last Thursday night attracted a large crowd. There was a great array of varied costumes and a jolly time. There is not accommodation enough in the homes and cottages at the Landing for all who seek to go for the week-end, and a number were reluctantly compelled to return to the city on Saturday afternoon.
