## WASHINGTON LETTER.

Negotiations on Hand for a  
 Change in the Immigra-  
 tion Laws.

### THE EXPULSION OF DR. GREGORY.

The Joint High Commission  
 —A Glut of Ice in Dawson  
 —The Gold Output

Washington, August 9, 1901.—Ne-  
 gotiations are on hand with Canada,  
 whereby it is hoped that a large part  
 of the immigrants that come into  
 this country from Europe by way of  
 Canada will be stopped at the border  
 and turned back in the Dominion,  
 where their labor is needed, and  
 kept out of the United States, where  
 it is not. The necessity for agreement  
 from this point of view, however, is  
 the fact that the Canadian immigra-  
 tion laws are much less strict than those  
 of the United States. Consequently,  
 thousands of immigrants, undesirable  
 from the point of view of this govern-  
 ment, enter Canada every year and promp-  
 tly depart to Montreal and other  
 interior points where they watch  
 their chance to slip across the bor-  
 der. The project for shutting them  
 out has been delayed for some time  
 because certain railroads were not  
 inclined to make essential conces-  
 sions. It is now proposed that Cana-  
 da shall practically adopt the im-  
 migration regulations of this country  
 in place of her lax laws. Canada is  
 in great want of laborers and is  
 therefore inclined to encourage con-  
 tract labor. The American prohibi-  
 tion of this class of labor, therefore, nat-  
 urally being omitted from the new Cana-  
 dian regulations, but in all other re-  
 spects it is expected the immigrant  
 laws of the two countries will be  
 made nearly identical. As a result of  
 continuous efforts exerted by Secre-  
 tary Gage, the transportation com-  
 panies, it is now believed, will acqui-  
 esce in the Treasury's demand to de-  
 port at their own expense any immi-  
 grants brought by them to Canada,  
 as well as to the United States, who  
 may be excluded under the law. Mr.  
 Taylor, Assistant Secretary of the  
 Treasury, who has charge of the mat-  
 ter, says that he believes a satisfac-  
 tory agreement will be reached not  
 only with the Canadian officials, but  
 also with the transportation com-  
 panies having terminals in Canada. At  
 present, the Treasury is expelling  
 other expeditors to check the flood  
 of prohibited aliens into this country  
 have failed. When Mr. Taylor was  
 asked if trains would be stopped for  
 inspection just before crossing the  
 line, he said that they probably  
 would, but it would not delay them  
 to any practical extent.

United States Consul Morris, at  
 Windsor, Ontario, has complained to  
 the State Department of the ex-  
 pansion from that city of Dr. Alvin T.  
 Gregory, one of the special officers of  
 the Treasury Department, who was  
 on duty here to keep watch on smug-  
 gling. Gregory was expelled from Cana-  
 da on a charge of loitering on the  
 streets, but it is understood that his  
 real reason was because he was  
 injuring the trade of the local mer-  
 chants by "spotting" women who  
 cross the river from Detroit and buy  
 contraband articles as silk and  
 lace, and then systematically and  
 artificially arrange their purchases  
 beneath their skirts and return to  
 Detroit without paying duties to the  
 United States. The Treasury officials  
 have long been aware that smug-  
 gling was being carried on here on  
 an extensive scale, and Gregory was  
 having invariably been the offenders,  
 it has been found extremely hard to  
 trap them. So large has the American  
 trade become that the large stores  
 have special dressing rooms for their  
 American patrons, where the goods  
 to be smuggled can be arranged at  
 leisure. Some idea of the extent to  
 which this smuggling is carried on  
 can be gathered from the fact that  
 Detroit patronage alone is estimated  
 to be worth at least half a million  
 dollars a year. In addition to this,  
 the United States Treasury officials  
 have to keep a close watch on Win-  
 ditor to prevent the smuggling of val-  
 uable goods shipped from foreign coun-  
 tries. Medical instruments, manu-  
 factured in Germany, are frequently  
 shipped in bond from New York to  
 Windsor, where a favorable oppor-  
 tunity is waited to send them across  
 the line. The same plan is followed  
 with the coal tar products, opium,  
 and other goods. Gregory, in order  
 to detect offenders, was compelled to  
 wait outside the shops until the wom-  
 en emerged with their purchases. He  
 then followed them across on the  
 ferry and when the boat reached De-  
 troit the smugglers were taken into  
 the custom house and searched. The  
 Windsor merchants noticed their  
 American trade was decreasing of  
 late and blamed it to the vigilance of  
 Gregory. Hence his expulsion.

There are evidences that in case the  
 negotiations for the restoration of  
 the work of the joint high commis-  
 sion prove successful, the British  
 government may consider the advis-  
 ability of naming Lord Pauncefoot to  
 succeed the late Lord Herschell  
 as the deputation representing  
 British and Canadian interests. The  
 commission deals with the many bor-  
 der controversies long existing be-  
 tween the United States and Canada,  
 and the Canadian officials have nat-  
 urally felt that they had a more di-  
 rect interest in its work than the  
 imperial authorities. But in order  
 to give an imperial aspect to the  
 commission, Lord Herschell was nam-  
 ed to co-operate with the Canadian

authorities. Since his death no one  
 has been named to succeed him, and  
 the matter is still in abeyance owing  
 to the doubt as to whether the work  
 will be resumed. The recent tendency  
 has been toward settling the several  
 controversies through the usual diplo-  
 matic channels, instead of by the  
 commission. In case Lord Pauncefoot  
 is designated on the commission he  
 will combine the functions of an  
 ambassador in close and constant  
 communication with the authorities  
 here, and will have the advantage of  
 participation in the work of the  
 commission.

United States Consul McCook, at  
 Dawson, Alaska, has reported to the  
 United States that there is a  
 glut of ice at that city, it now retail-  
 ing at two cents a pound, as against  
 less than half a cent in most places  
 in the United States. Most people  
 will wonder what Alaska does pro-  
 duce if it doesn't produce ice. Daw-  
 son, proceeds the Consul, is improving  
 rapidly. The gold output probably  
 will fall short of the estimate made  
 earlier in the year, and he believes  
 \$20,000,000 to be a fair estimate of  
 this year's product. By orders from  
 the country under its jurisdiction has  
 been thrown open to prospectors, no  
 claims being reserved for the Crown,  
 as formerly, and the royalty on the  
 gross output of the mines has been  
 reduced from 10 to 5 per cent.

The following pensions have been  
 granted: Original—Peter Brosseau,  
 Rossburn, Russell, Manitoba, 86; J.  
 Showles, Port Elgin, 88; W. Par-  
 ker, Prescott, Ontario, 88; Increase  
 T. Boyd, Montreal, 810.

### ST. JAMES' S. S. PICNIC

A Pleasant Day Spent by the  
 Scholars at Victoria Park.

The annual picnic under the aus-  
 pices of St. James' Sunday school,  
 was held at Victoria Park on Tues-  
 day afternoon and evening. The af-  
 fair was to have taken place at the  
 Street Railway Company's park, but  
 on account of the cars not running,  
 owing to a break at the power  
 house, the children were given their  
 outing at the park. A large number  
 of scholars and older members of  
 the congregation were present and  
 spent an enjoyable time in races,  
 football, and baseball games. Hulme's  
 family orchestra were present and  
 discoursed sweet music which added  
 to the enjoyment of those present.  
 A game of baseball between the  
 ladies and gentlemen resulted in a  
 victory for the fair sex by a score  
 of 11 to 10.

Between five and six o'clock lunch  
 was served on the grass in picnic  
 style. Everything that is good was  
 furnished for the children and the  
 happy expression on their faces show-  
 ed that they appreciated the efforts  
 of the older people to entertain them.

Following is a list of the winners  
 in the races:  
 Girls' race under 6 years—Reva  
 Horsman, Helen Richardson.  
 Girls' race under 8 years—Flor-
