BISHOP DE PENCIER

Congregation of Holy Trinity Cathedral, New Westminster, Presents Address

New Westminster, Aug. 2.-The Right Reverend Bishop de Pencier, of New Westminster and Kootenay, Sunday paid his first visit in his new capacity to this city. At Holy Trinity cathedral previous to the morning service the fol wing address was presented to him by the congregation of the cathedral:
"Right Reverend Sir,—On behalf of the Cathedral Parish of the Holy Trin-ity, New Westminster, we desire to to the see city of your diocese. We are pleased that you are holding rences are, however, promising enough tutes your first episcopal act, within the walls of the cathedral church, the walls of the cathedral church, Prince Rupert, Aug. 2.—The first part of the work of local improvement in section one will be carried out under the contract system. This has been decided upon by the city council. A motion of Ald. Hilditch that it be done motion of Ald. Hilditch that it be done to the council of Ald. Hilditch that it be done motion of Ald. Hilditch that it be done to the church which existed before the nation itself; but in a new field.

The foundations were well and faith thoroughly prospected, in fact, most of it could only be prospected with the aid of a balloon. Good looking float in the history of the British nation or of the church which existed before the nation itself; but in a new field.

The foundations were well and faith the cathedral church, which stands on what has been hallowed ground for the past fifty years is but a short time in the history of the British nation or of the cathedral church, which stands on what has been hallowed ground for the past fifty years is but a short time in the history of the British nation or of the cathedral church, which stands on what has been hallowed ground for the past fifty years is but a short time in the history of the British nation or of the church which existed before the nation itself; but in a new field.

The foundations were well and faithby day labor found no seconder. It is proposed to try to have the contracts split up so as to allow small contractors to take a section if possible and rush the work to completion as soon as rush the work to completion as soon as possible.

The question of which system to adopt, that of day labor or the contract system, was very fully discussed at the council board for two evenings before a settled policy was agreed upon. Ald, Lynch expressed the view that the day labor system would lend the see of Norwich; half a mile to a mile in width, which and Queensborough, as our Rayal City of the province—better down snow slides sweep both sides of the valley at a number of points. The grade on the three miles of glacier is 700 feet to the mile."

The duestion of which system to adopt, that of day labor or the contract of the capital city of the province—the capital city of the province—between the nucleus of the church which has spread, under the wise guidance of our fathers in God, and under your leadership the church will go on from strength to strength.

The duestion of which system to discoveries. Farther down snow slides of the valley at a number of points. The grade on the three miles of glacier is 700 feet to the miles of glacier is 700 feet to the mile."

The above substantiates the opinion two and by that time there would be used to the procuring of a temporary supply of water to cover the necessities of the valey at a number of points. The grade on the three miles of glacier is 700 feet to the miles of points. The grade on the three miles of glacier is 700 feet to the miles of the procuring of a temporary supply of water to cover the necessities of the valey at a number of points. The grade on the three miles of glacier is 700 feet to the miles of the procuring of a temporary supply of water to cover the necessities of the valey of water to cover the necessities of the valey of water to cover the necessities of the valey of water to cover the ne itself to abuses in the way of graft, and we pray that you may be spared Ald. Hilditch on the other hand, con-tended that the contract system was Westminster to which you have been ly, that it would probably be found

ship of our cordial and loval welcome." In reply to the address, the bishop

"Mr. Rector and Wardens of the Cathe streets in section one to the proper thedral Church of the Holy Trinity: grade and bringing it to a sub-grade. GUGGENHEIMS CONTROL THE NUGGET MINE

Will Buy Claims in Sheep Creek Camp-Mill to Be Erected

Seattle, Wash., Aug. 4.-That the visit of M. Robert Guggenheim to Vancouver, B. C., last week, ostensibly to meet Jacob H. Schiff, the big New York banker, was only a "blind" to cover up the acquisition of the Nugget gold mine, near Nelson, B. C., by the Guggenheims, became known in local financial circles yesterday when the first payment on 285,000 shares of stock in the mine, which is more than a majority, was made by young Guggenheim. The payment was for \$25,000, and was made to A. H. Gracey, president of the company. Mr. Gracev came down from Nelson and completed the deal with Mr. Guggenheim while the latter

was ostensibly waiting for Mr. Schiff to arrive at Vancouver,

The Nugget is one of the most valuable mines in the Sheep Creek district in British Columbia, and it is reported that the Guggenheims are to float a \$10,000,000 company and buy up all the claims in that district. It is Gates in Poe Lock Are Slightly understood that the option price on the 285,000 shares, on which the first payment of \$25,000 was made yesterday, was on the basis of \$3.50 per share Considerable stock has been snat

up by Guggenheim agents on the Vancouver exchange during the past week. When interviewed Guggenheim adnitted that when all negotiations for Canadian locks, occurred yesterday other properties on Sheep creek were 15 from \$300,000 to a half million dollars 211@ 22 for a mill in that district, and to increase the output of the Nugget mine
