TROOPS PREPARING TO WINTER AT SEOUL.

Possiet, Oct. 17.-It is reported that 1,700 Japanese are at Gensan, and that Korean troops aggregating 800 occupied Kanga, Pukon and Penyan. A defachment of Cossacks were overpowered and disarmed by the Pukon troops. It is reported that the Japanese intend wintering at Scoul, but defensive works are being constructed at Gensan and also at Kampin, from which latter place the governor and other officials fled before it was occupied by the Japanese.

PART OF RUSSIAN ARMY RETREATS.

Tokio, Oct. 19 .- (4 p. m.) - Manchurian headquarters. telegraphing yesterday, says that the Russians retreated from Bensihu to Kaiotai pass. The Russians facing the right army are diminishing, but active. The enemy facing the centre army was repulsed in several night attacks on October 17th. An artillery duel is progressing to-day. The report says: The enemy is fortifying his positions on our front.

The American state department will be to transmit through its embassy at St. Petersburg the profest of Japan against the use of Chinese costumes by Russian troops. It is charged that on October 4th infantrymen in the Russian Third Regiment of sharpshooters, wearing Chinese uniforms, attacked the Japanese force at Mukden road and that others similarly clad approached the Japanese lines and attempted a surprise.

ANNUAL GATHERING OF WORTHY SOCIETY

Review of Work of S. P. C. A. for the Year-Addresses by Prominent Citizens.

The eighth annual meeting of the Society for the Prevention of Cruelty to Miller. Animals, which was held on Tuesday at the city hall, was largely attended. Among those present were Mayor Barnard, President Dallain, Secretary Kitto, Mr. Justice Martin, C E Cameron, United States Consul Smith, Rev. E. G. Miller, Harold Robertson, C. E. Redfern, H. D. Helmcker and Miss A. D. Cameron J. South, provincial secretary of the S. P. C. A., was also in attendance. The principal business was the consideration of the secretary's report. An interesting discussion followed. An optimistic feeling was evident throughout. In fact several afterwards predicted that 1904-05 PREPARATIONS FOR would prove the most prosperous in th

annals of the society.

Mayor Barnard, when called to the chair, expressed sympathy with the objects of the society. It was now closing the seventh year since organization. During the past year considerable good work had been accomplished, no fewer than 137 cases having been investigated and the necessary relief given. In many instances convictions had been secured He was, however, sorry that the society was not receiving better financial support. No more worthy object could be conceived. He thought that many more subscriptions would be obtained if a thorough canvas was instituted. He desired to see the membership doubled.

The secretary was called upon for his

annual report, which was read.

The report appeals for better support, pointing out that in the past it has been of the most meagre description. Last year the subscribers were 365, and the sum subscribed was \$540. This year the subscribers are 250 and the sum sub-scribed is \$428. The balance in hand marks the close of a prosperous

If people knew of this condition he was sure there would be a liberal response. He was sorry also to see that the attendance of the male sex had fallen off in comparison with last year.
