### NOT EVEN A SCAR

is left where my little son cut his forehead so badly by running against a cross-cut saw," writes Mrs. T. G. Miller of Winona, Ont.

"I had never used Zam-Buk, but had heard how good it is for injuries, so I got some, and applied a dressing at once. It was quite wonderful the way it soothed the pain. I renewed the dressing twice a day for three days, by which time the cut was so much better the child was able to go without the bandage. From then I had no more trouble with the wound. It healed up very quickly, and not even a scar is left. Needless to say, I shall never be without Zam-Buk again."

Mothers should always keep Zam-Buk in the house, as nothing can take its place for cuts, scratches, bruises, burns and scalds. For rashes, eczema and all sores, blood-poisoning, ulcers, abscesses, boils, pimples, scalp sores, salt rheum and piles Zam-Buk is equally good. All dealers 50c. box.

### SHANTUNG AWARD UPHELD BY SENATE

Fourteen Republicans Swung Over to the Pro-Treaty Forces.

Washington, Oct. 16.—The long-debated Shantung amendment to the peace treaty, presented by Senator Lodge and approved by the Foreign Relations Committee, proposing to hand over to China instead of Japan the former German territory, finally was rejected in the Senate to-day with a majority of an even score against it.

In the vote of 35 to 55, fourteen Republicans swung over to the pro-treaty forces, while three Democrats lined up with those supporting the proposal. Of the senators absent, two Republicans were put on record as in favor of the amendment and one Republican and three Democrats as opposing it. The roll-call, which came at the end of another six and a half hours' sharp debate, in reality swept away

six amendments instead of each change in the treaty text which had been numbered separately by the committee in its decision to strike out the word "Japan" and substitute the word "China" throughout the sections relating to the Province of Shantung. By unanimous consent, however, the six changes were debated and voted on as one.

Only three of the committee's 45 amendments now remain to be acted on by the Senate, 36 previously having been rejected. Of those remaining one relates to American representation on the Reparation Commission and two to equalization of voting power in the League of Nations assembly.

After the vote was completed Senator Lodge announced that later he would move to strike out entirely the sections awarding the Shantung rights to Japan. Notice also was given by a number of the Republican senators who opposed the committee amendment that they would present reservations dissenting from the Shantung award.

The general prediction was that a vote on the remaining amendments would not be reached before the middle of next week.

### BULGARIA NEXT

Every Indication That Pact Will Be Disposed of Shortly in Paris, Oct. 16.—The Bulgarian delegation is now on its way back to Paris, and there is every indication that the Bulgarian treaty will be disposed of shortly. Only the Hungarian treaty explains to be negotiated by the Peace Conference as it is generally agreed that it will be impossible to hold the Supreme Council together for the Turkish treaty.

There is yet no government in Hungary with which the Peace Conference can deal, but the treaty draft is practically completed in Paris and should there be no recognized government in Budapest before December 1, arrangements will probably be made to have a few delegates remain in Paris to negotiate a treaty with Hungary whenever a satisfactory government is established in Budapest.

The Supreme Council and the Peace Conference will probably not end officially until the Hungarian treaty is concluded, but only a few members representing the various Governments will remain to complete the work. An entirely new set of delegates will probably be selected to negotiate the treaty with Turkey, when the allied and associated powers learn whether the United States will accept a mandate for Turkey or a part thereof, and are able to agree upon the disposition of the Turkish territory.
