VALUABLE ADVICE
TO RHEUMATICS

Eat meat sparingly and take very little sugar. Avoid damp feet, drink water abundantly, and always rely on Polson's Nerviline as an absolute relievar of rheumatic pains. Being five times stronger than other remedies, its power over pain is simply beyond belief. Buy a large 25 cent bottle to-day, test it, and see if this is not so. Folson's Nerviline always cures rheumatism.

The Dominion Parliament will be called for the despatch of busi-ness the first day of February. Six beacons have been establish-

ed in Canning river to show the channel to the village of Canning

UNNORSHATTO SUFFER FROM ANTHAMA
This distressing complaint can be perfectly cured by inhaling Catarrhozone a
vegetable antiseptic that destroy the
germs which cause the disease. Catarrhozone is inhaled at the mouth from
a convenient pocket inhaler, and after
permeating the minutest air cells, is exhaled slowly through the no trils. It
stops the cough, makes breathing regular
and erradicates the Asthma so thoroughly from the system that it never returns.
Dont suffer from Asthma, use Catarrhozone, it will speedly cure you. Large
outfit, \$1.00. Small size, 25 cents. Druggist or by mail from Polson & Co., Kingstop, Ont.

ston, Ont.

The president of the Licensed Victuallers' Association, L. A. Wilson, anys that the decision of the Prev. Council is a "white elephant" on the hands of the politician. Hs said, "In the majority of the electors want prohibition the licensed victuallers will accept the decision without a murmu and will not ask compensation, but a long as prohibition is claimed by a mere minority we will oppose it with all our strength"

Make a note of it, when you are leaving home to buy "The D. & L." Men thol Plaster. It is guaranteed to curthe worst case of backache, headache, stitches. Avoid everything said to be just as good. Get the genuine made by Davis & Lawrence Ce., Ltd.

SUGAR BEET INDUSTRY

Through the energy of Augustine Callaghan, P. E. I., Registry Officer. Callaghan, P. E. I., Registry Officer, the adaptability of the soil of our neighbors across the gulf for profitable growing sugar beet seems about to be fully proven. He had twenty four packages of seeds sown at differen points last spring on the Island, and as a result has had shipped to Prof Shutt, a slyst of the Ottawa Experimental Farm, for the purpose of having tested the per centage of sugar which they contain. Several of the beets grown from the seed were 15 inches in length by 14 inches in circumference. Should the analysis prove to be all that is expected, a wealth company will erect a beet sugar factory, and prosecute the industry of manufacturing sugar. The factory will employ 300 hands and the farm travelled the seed of the beet, which would yield about \$100 an acre. Great credit is due to the intelligent energy and perseverance of Mr. Callaghan, whose efforts in this direction are well worth noting, because, should he succeed, a similarindustry night be tried in Cape Breton parts of the soil of which are, doubtless, suited for the growing of sugar beet.—C B. paper. the adaptability of the soil of ou
