

"I do express the hope that, by possessing and controlling such a book as this Encyclopaedia Britannica, Cambridge may become, more than it has ever been in the past, an inspiring centre of world-wide intellectual life and able to carry out not only its national but also its international function."

The late S. H. Butcher, Pres. of the British Academy, M.P. for the University of Cambridge.

## THE

### 29 Volumes

And is being dispatched to Subscribers will now receive sets, fresh from the printer preliminary announcement of the Encyclopaedia Britannica was published. This need be advisable, however, that printing still be found in immediate application as Christmas present.

### The Spirit of Christmas

THE principal motive with most a Christmas present is to give some same time "distinctive," and the gift of something suitable to give. The new Encyclopaedia Britannica, while more than filling every ordinary special appropriateness as a Christmas season when men and women may be satisfied of ideals, aspirations and traditions, property of the whole of mankind. Being in all Christian countries, it typifies the vital of human interests disregard the and being established in commemorative curried ages ago it expresses the debt of

The Encyclopaedia Britannica is language in which an attempt has been and elucidate in an adequate manner the and life of our common humanity. Its structure so broad in its foundations and as to ignore no sphere of human activity purport in the evolution of the race.

Drawing its contributors from the 11th edition is based on the essential character and origin of the main factors of progress, and in freely applying the his department of knowledge, there has been express the present in terms of the past finds its roots.

### The Encyclopaedia Britannica in the Home

THE Encyclopaedia Britannica is so obviously a gift the usefulness of which will be shared by its possessor with others, young and old, that it is impossible to think of it in the light of a Christmas present without a thought of its general utility in the household. The amount of service which it can render under such circumstances is clearly only limited by the extent of the desire of the members of the family for information.

### For the Mere Pleasure of Reading

BUT perhaps the chief merit of the book as a household treasure is that, from merely referring to it, its possessor is led to read its articles for the pleasure they afford. He soon finds that the vast fund of knowledge accumulated in this book by the leading authorities in every branch of human achievement has all the interest of a real contribution to literature. So universal is its appeal that anyone who has the slightest interest in the facts or the romance of nature or of life is bound eventually to become engrossed in its contents. These light and incredibly thin volumes picked up out of idle curiosity are laid aside with reluctance, and the casual enquirer is unconsciously transformed into the systematic student.

### Application For The New India Paper Prospectus, 164 Pages Post-Free Upon Request

This new binding for the India paper volumes has all the merits of previous styles as well as the following:

1. **Greater Durability.** The covers are rendered perfectly flexible by a lining of calfskin, and will therefore not crease or crack, as the customary cardboard lining has been dispensed with.
2. **Greater Pliancy.** The volumes are as flexible and "give" as though the covers were removed and only the India paper contents remained. They may be folded into four without risk of damage.
3. **Greater Portability.** The new Encyclopaedia Britannica is designed and recognized as a book not merely for reference but for reading. It is no small advantage of the new format that an odd volume of the work can be doubled like a magazine and slipped into the coat pocket, or into a travelling bag, ready to occupy an idle half-hour.
4. **Greater Charm.** The velvety surface offered by the natural nap of the skin of the cover is gratifying alike to the eye and the touch. It would be difficult to find a material more pleasing in respect of colour or texture than this mole-grey leather. It has all the distinction of a binding de luxe, for it is at once unusual and appropriate. (It is sold only with a bookcase, which is included in the price.)

The reduction in weight and bulk effected by the use of India paper has been exemplified by the publishers of the new Encyclopaedia Britannica in the preparation of a new prospectus in which the book is described with a fidelity and at a length attainable within a reasonable compass in no other way. In format this prospectus is a replica of the India paper impression, and it has thus been possible not only to reproduce a large number of extracts from typical articles exactly as they appear in the original work, but to demonstrate in the prospectus itself, which consists of 164 pages of printed matter, together with numerous selected plates, maps, cuts, etc., the convenience and compactness of the India Paper Format.

### First Payment \$5.00

The entire set of 29 volumes will be dispatched promptly on receipt.

The 11th edition of the Encyclopaedia Britannica offers a complete exposition of knowledge, a fresh survey of what is known, a full and accurate inventory of essential things—of everything that can reasonably be expected to interest a member of a civilized community.

It contains 40,000 articles (by 1500 contributors), 28,150 pages, 44,000,000 words, and the value of the text is increased by 7,000 line drawings and 150 full page plates as well as 160 plate maps and 400 text maps specially prepared from the most modern sources to accompany the articles which they illustrate. Its contents, besides being arranged alphabetically, are indexed in a separate volume (the 29th) containing 500,000 references.

The 11th edition is unprecedented in

1. **Its simultaneous production as a whole** at a greatly increased outlay (\$1,150,000) instead of volume by volume over a period of years as heretofore, all 28 volumes of text being thus of practically even date.

2. **Its wholly novel format**—India paper, flexibly bound—whereby a reduction in weight of 8 pounds to 3 pounds, and in thickness of 2¾ inches to 1 inch, was effected without sacrifice of legibility or strength.

3. **Its endorsement by the University of Cambridge**, by whom the copyright of the Encyclopaedia Britannica, after passing from one publisher to another during 140 years, is now controlled, and the imprimatur of whose press the work now bears.

4. **The price** at which it may be acquired (\$4.50 a volume, 1000 pages) is \$3.00 a volume, in the cheapest style, less than the price (\$7.50 a volume) at which the 9th edition was sold in this country and in England. To the latter figure, however, of \$7.50 (which may be regarded as the normal, the standard, charge) the price of the new edition will eventually be raised.

**NOTICE**—The Velvet Suede Binding can only be produced in limited quantities. Therefore, any one wishing the Encyclopaedia Britannica in this style of binding, either for himself or as a Christmas gift, should order at once. Delivery can take place at any time, but orders should be placed at the earliest possible moment.
