

Space: the final frontier

Are any pro-space fanatics lurking among the UNB student body? The first fall meeting of the Fredericton L5 Society is at 7:30 to 9:30 p.m., Tuesday, September 20 in the National Exhibition Center. The National Exhibition Center is downtown at the corner of Queen and Carleton Streets.

The international L5 society is a pro-space group seeking to organize a campaign to return men and women to an active role in exploring and industrializing the space frontier. The L5 Society engages in public education through newspaper, radio, and television productions, and personal contact at conventions, mall displays, lectures and public meetings.

In Canada individual members of the L5 Society also lobby federal, provincial, and municipal levels of government to fund and further promote space activities. Currently the international L5 Society has 10,000 members and has doubled in size approximately every year since its founding in September, 1975.
