## PELLOWS' HYPOPHOSPHITES.

TRAVELLERS IN PURSUIT OF HEALTH may pursue the following pages with profit, as they treat of a remedy for such diseases as originate from **Debility of the Blood, Brain, Muscles and Nervous System.** A remedy composed of ingredients which enter, the composition of the *healthy human body*, which imparts vitality and strength to the **Blood, Brain and Nerves.**

Fellows' Compound Syrup of Hypophosphites was brought about during the illness of the inventor from Tubercular Consumption after numerous experiments, based upon the fact that *to thoroughly cure exhaustive diseases the Blood must be sound, the Brain healthy, and the Nervous System possessed of a full amount of Vitality.* Finding the remedy to make a cure of his own case, he introduced it to the Faculty of Medicine, and it is now largely prescribed with the most salutary results, and is used successfully in the following diseases.
