

HIS MAJESTY KING EDWARD VII ORDERS AN

ANGELUS PLAYER-PIANO

Sir Herbert Marshall, Sons & Rose, piano manufacturers of London, England, and representatives for the Angelus, have received an order from His Majesty for a piano containing an Angelus.

This fact is significant, for nearly all the leading makes of American player actions are offered for sale in England, and this honor is but another tribute to the instrument that, through sheer merit alone, has always held the highest place in the world of modern music-giving instruments.

The Angelus with its exclusive devices, the Melodant and the Phrasing lever, is sold in Canada only as the interior part of the

Gourlay-Angelus Pianos and Angelus-Pianos

Write for illustrated booklet containing full information about these wonderful expression devices.
