

1909-1919 A Remarkable Decade of OilPull Performance

THIS ten year OilPull record merits the thorough consideration of every tractor buyer in Canada.

It provides a basis for judgment of tractor values—founded on facts—that is worth many dollars to any prospective purchaser of a tractor.

At the start of the tractor industry over ten years ago the first OilPull tractors were built, and for ten years these pioneer machines, such as "Old Number One" in South Dakota, Nos. 6 and 8 in North Dakota, No. 9 in Kansas, No. 11 in Michigan, and others, have built up a record of dependability, economy and long life that is unequaled in the tractor industry.

The big feature of this OilPull ten year record is that it is based—not on the work of one or two machines that might prove exceptional values, or on a few years' performance—but upon the work of hundreds of these first OilPulls extending over a period of many years. This record proves beyond question that long life and constant, dependable service is the rule and not the exception with OilPull tractors.

In these ten years OilPull tractors have not only proved their remarkable ability to work steadily and constantly hour after hour, day after day, but they have also established the OilPull unbeatable record of economy. Economy of operation—being real kerosene burners and the only tractors guaranteed in writing by the makers to burn kerosene under all conditions. Economy of upkeep—there being hundreds of cases like that of the first OilPull built, still in use, whose owner declares that in ten years his repair bills have not exceeded \$200.

This is the kind of a tractor that the Canadian farmer demands today—one that he can be sure will give him dependable, constant service—one that he can be sure will cost him least to operate—one that he can be sure will serve him not one year or two years, but year after year for many years, and give him the greatest return on his investment.

There are four sizes of OilPull tractors—12-20, 16-30, 20-40 and 30-60 H. P., with a nation wide service within reach of your telephone anywhere. Catalog on request.

Bill's Sugar and Syrup Wasn't Up To Much

That's what his neighbors said, they were right too, but there were reasons, this sap was not fresh enough or clean enough, his boiling outfit was out-of-date and he scortched the whole batch. He did a lot of hard work with poor results. It is all a question of proper outfit. With a

GRIMM CHAMPION Outfit

In your maple grove you are sure of making the best possible syrup and sugar. Do it cleanly and quickly and get more money out of it. Scrap your old outfit and make something worth while out of your sugar bush. We can help you a lot if you write us.
