

Farm Housework and Goodyear Belts

JUST as indispensable to the household power as to the efficient operation of the great tractors and threshing outfits in the field is the belt that transmits the energy of the stationary engine to the new time-saving and labor-saving machines used by the farmer's wife. Made of the same stock, and with the same care, as the big free-swinging Goodyear Extra Power on the thresher, the Goodyear Extra Power Belt on the churn, or the washing machine, or the lighting plant, reveals the same qualities of economy.

A Goodyear Belt needs no breaking in. Whatever the service in which it is employed, it goes straight to work. It requires no belt dressing. Cold and damp do not affect it, for a Goodyear Extra Power Belt is waterproof. Flexible and friction surfaced, it holds the pulleys at high speeds or low, on light drives or heavy, with the same sure grip and full delivery of power.

Noting its reliable work, day in and day out, many a farm wife recognizes the truth in her husband's remark that a Goodyear Extra Power Belt is "the best help on the farm." The housewife, as well as the farmer, finds much of value and interest in the Goodyear Farm Book. A letter to the Goodyear Tire & Rubber Co. of Canada, Limited, Toronto, Ont., will bring a copy.
