On nesday, Classes in Geography, Analysis of Engh Language, Latin, Greek, Chemistry, Physiology, Rhetoric, and Logic from both Branches were examined in Lingley Hall.

On Wednesday forenoon the more public exercises connected with, or marking the close of the Term took place in the Hall. These are said to have been of a very interesting character-We have heard the French Dialogue, in which several of the Students from the Male Branch took part, and the compositions read by Miss Chandler and Miss Wood of Richibucto, Miss Chapman of Coverdale, Miss Evans of Sackville. Miss Weldon of Dorchester, and Miss Warner of Canada, spoken of with special commendation. At the close of these exercises the records of the various recitations of the Term were read by the several Teachers and Literary Rank was as signed accordingly to the Students. The following individuals secured the highes

The Commissioners state that the cost of railroads in this province has been enhanced by the price of labor, and of other commodities, ever since the operations of the Board commenced .-They state further that the roads cost less than roads of like description built elsewhere. The revenue of eight miles during the last year was  $\frac{1}{4}$ 120 2s.  $4\frac{1}{2}$ d., and the expenses (of which 1497 9s. 7 d. was occasioned by an accident to a locometive at the Three-mile House in March Last) were £3.012 6s. 9d.; leaving a nett profit of £1,107, 15s. 73d. Since the road has been opened, 81,407 passengers and 6,748 horses have been carried over it without the slightest injury. The road to Grand Lake, near Shultz's, (224 miles) was opened in the month of January .-The Commissionrs state that there is nothing to prevent the location and letting of the road to

Pictou during next summer. Chief Engineers Report.—This report is dated 31st January, 1857. It gives an account of the Mogress of the work during the past year, a the importation of at least one additional teach-

OF THE LUNATIC ASYLUM. HON MR. BELL-I beg leave to move that the house go into committee on bills. As aspersions have been cast upon my character, I deem it necessary to make a few explanations in my own vindication. Much has been said about the extraordinary outlay at the laying of the corner stone of the Lunatic Asylum. My arrangement was to have everything done in the simplest manner. I mentioned this to his Excellency, and I must do his Excellency the justice to say that he was willing to have it done in any way that I wished. It was afterwards thought desirathe display and expense which has been so much talked about arose out of that circumstance. I their labors would be submitted to the House. ourchased nothing, ordered nothing. I had nohing to do with the champagne, or anything e'se too much or too little was expended I had nothing to do with it. That is the plain, unvarhas been spoken of. I devoted £500 towards that

asylum-£300 of my own money, and £200 which was handed me by a friend. That sum now lies in the Province funds for the benefit of the institution. If the bonds were taken in my own name, it is no less my intention to devote the whole sum to the institution. Even the inerest of the money does not go into my own pocket. Whatever may be the fate of my own private fortunes, that sum remains sacred for the bject for which it was dedicated. I say further sir, that whatever became of me, my children, favor. were the sum ten times as much, would have when swindling is spoken of, such assertions are estimony to the truth of what I state. A swind-

The most of these are of the poorer class, quite unable to bear the expense of going abroad for their instruction. It is therefore very desirable to provide for it at home, by giving them at a cheap rate, or if need be, at the public expense, so much education as will enable them to read their Bibles, and carry on the ordinary business of life,—combining, as is done lilege without which liberty cannot exist, is offici elsewhere, instruction in some useful mechanical ally withdrawn, and fearful penalties enforced persuits-so as to make them useful members of against tresspassers. It is to lay the foundation of such an institution. on our own soil, as will produce these happy results, similar to those witnessed in other coun tries, that assistance has been now sought from the general funds of the country. There would seem to be little argument necessary to prove that the appropriation of a liberal grant is in accordance with the true spirit of humanity, of patriotism and of religion. Indeed it is pleasing to find that the object is so generally acceptable in this community, that voluntary contributions in various ways, have been readily proferred -And the like favourable feeling seems to be shared in by members of the Committee to whom the petition has been referred and by the House in general. Several of these gentlemen have visited the school now in operation in this city, and have expressed themselves greatly interested and pleased with the improvement already attained under disadvantageous circumstances. Such a grant, however, is required, as in conjunction with charitable subscriptions, will warrant the summary view of which is given in the annexed er, and the opening of an asylum in which pupils from every quarter of the Province, however poor, may be provided with comfortable board and lodging, and sufficient tuition. Some may be able to pay their own way, but the majority will require assistance.

It is hoped that the humble beginning that has gramme of the Buchanan administration, which and expand into a large Institution, capable of to no essential modification unless some unforeembracing not only those of this afflicted class seen contingency should occur: who belong to Nova Scotia, but many from the neighboring colonies, in none of which is there sovereignty to the territories. Wherever they control the Government, as in Austria and Spain, that priv but are limited for power to the range of their spiritual despotism, which, to that effect, is strained to the utmost. For instance, the Courier of St. Hyacinthe has just fallen under Episcopal censure and proscription, for having endeavoured to do justice to both sides in the Chiniquy controversy. Having published at great length the sermon and pastoral letter of the Bishop, he inserted afterwards a reply of Father Chiniquy .-Upon which his Lordship, in his magnanimity has sent to the editor an order to stop his paper, protesting against the "publication in his diocese of such writings," and enjoined by circular upon his people the duty to stop the paper also, on acount of his "anti-Catholic tendancies." But poor Courier, to vent upon him his spite, and not proscribe also from his diocese the Herald and other influential papers, which have published the replies of Father Chiniquy earlier and at more than principle, is the rule that guides clerical despotism .- Montreal Witness

Wesleyan Bazaar. St. John's, Nfld. THE LADIES' connected with the Wesleyan Society and congregation in St. John's, purpose (D. V.) holding a BAZAAR, early in the ensuing Autumn, for the purpose of raising funds for the completion of the Church now in course of erection.

By means of this advertisement the ladies of St. John's would appeal for help to those friends in the Provinces who may be willing to co-operate with them in the great work for our Divine master in which they are engaged:—the erection of a commodious and suitable Sanctuary for the worship of Almighty God—and they earnestly hope that this appeal may not be unavailing, but that the hearts of very many may be disposed to aid in the accomplishment of an object so desirable—and one which they fervently pray will bring great glory to God. Contributions may be forwarded by the 1st of August—(directed to the Rev. T. Harris, St. John's Newfid,) to the Wesleyan Office.

Aperient Pills. THE great popularity acquired by these Pills during the I Twelve years they have been offered for sale in this Piovince is a convincing proof of their value, as no undue means of increasing their sale have been resorted to, by puffing advertisements—no certificates published respecting them.

These Pells are confidently recommended for Billious Complaints, or morbid action of the Liver, Dyspepsia, Costiveness, Headache, want of Appetite, Giddiness, and the numerous symptoms indicative of derangement of the digrestive organs Also as general Family Aperient They do not contain Calomei nor any mineral preparation, are effectual, yet so gentle in their operation, that they may be taken at any time, with perfect safety, by persons of both sexes; nor do they, as do many Pills, necessitate, the constant use of Purgative medicine, the ingredients of which they are composed effectually obviating this common difficulty.

# Sands' Sarsaparilla

INVESTIGATION and experiment have demonstrated that upon the condition of the blood, depends the health of the body. Consequently, when disease in the shape of Serolula, Erysipelas, Ulcers, Cutaneous eruptions, Liver Complaint, &c. appear, it is at once evident that the secretive functions have become in rt, and impurities have been engendered in the blood which are working their way to the surface. SANDS' SARSAPA-RILLA is expressly prepared to remedy such cases and should be at one resorted to It will gently stimulate the functions of the stomach and bowels, to regular and healthy action, and without nausea or purging expeit therefrom all deleterious accumulations, purify the blood, equalize the circulation, promote sers-piration, improve the appetite, impart tone and vigor to the system, and gradually but surely extripate the disease, causing all unsightly excrescences to disappear, and leaving the skin perfectly smooth and flexible.
