

## The Consideration of a Memorial

is with many today an important question

Of all ways for commemorating the lives of loved ones, none excels in charm, instructiveness and permanence

## A Memorial Window

### in Stained Glass

when carried out by competent artists. Through more than half a century's work in Canada in this special branch, the name McCAUSLAND has earned a prominence that is yearly increased by important commissions.

Not mere windows are the product of these studios, but works that possess invention and art of acknowledged excellence, that will be treasured more and more as years pass.

For such windows are, of themselves, imperishable. Mediaeval works, similarly produced and still extant, have proved that they will speak their message and preserve the names they honour long after monuments in other materials have crumbled to decay.

If you are interested in the erection of a memorial, we invite your comparison of our productions with the finest modern stained glass from any source; and, upon request, we will gladly furnish full information, with suggestions.

**Robert McCausland, Limited**

141-143 Spadina Avenue, Toronto
