

**How Weather Changes Bring Death to Roofing**

The life of Roofing is Saturation and Coating. Yet this vital part is sorely neglected by nearly every Roofing maker. The Basis of most Roofing, except Brantford, is wood pulp, jute or cotton-cloth—all short-fibred. When it passes through "Saturatory Process," it does not become actually saturated—merely coated. This "Coating" is of refuse and quickly evaporates—wears off—exposing foundation to savage weather. It absorbs water and moisture, and becomes brittle, cracks, rots and finally crumbles. But the Foundation of Brantford Crystal Roofing is a heavy, evenly condensed sheet of long-fibred pure Wool, saturated with Asphalt, which is forced into every fibre—not merely dipped. It is heavily coated with time-defying, fire-resisting Rock Crystals, which require no painting. This special Coating cannot evaporate and protects insides. Brantford is indestructible, pliable, tight, water, weather, spark, acid, alkali, smoke, fire-proof.

**Brantford Roofing**

cannot absorb moisture, freeze and crack in cold weather, or become sticky and lifeless in hot weather. Brantford Crystal Roofing is not the kind all manufacturers care to make, because it costs extra money, yet it costs you no more than short-life Roofing. Roofing Book and Brantford Samples are free from dealer or us. Brantford Asphalt Roofing, Nos. 1, 2, 3. Brantford Rubber Roofing, Nos. 1, 2, 3. Brantford Crystal Roofing, one grade (heavy). Mohawk Roofing, one grade only.

## Doctor's Book Free

To any man who will mail me this coupon I will send free (closely sealed) my finely illustrated book regarding the cause and cure of diseases. This book is written in plain language, explains many secrets you should know. It tells how you can cure yourself in the privacy of your own home without the use of drugs. Don't spend another cent on doctors' and worthless medicines. Nature's remedy cures to stay cured. You should know about it. If you suffer from weakness of any kind, rheumatism, lame back, sciatica, lumbago, debility, drains, loss of power or stomach, kidney, liver or bowel troubles, you must not fail to get this book. Don't wait another minute. Dear Sir:—I purchased one of your best Belts several years ago for a lame back and I can truthfully say that the first time I wore it my back felt stronger, and in a short time I was completely cured. This was over five years ago, and I have had no return of the trouble since. I have recommended your Belt to others, and will always be pleased to tell anyone the benefit I received from it.—ARTHUR MCKAY, Shoal Lake, Man.

Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for their case, and they can

### PAY WHEN CURED

Cut out this coupon now and mail it. I'll send the book without delay, absolutely free. Call if you can.

**Dr. M. D. McLaughlin, 112 Yonge St., Toronto, Can.**

Dear Sir:—Please forward me one of your Books, as advertised.

Consultation free. Office hours: 9 a. m. to 6 p. m. Wednesday and Saturday till 8.30 p. m.

part cloth, just as Mr. Golding has. I have tried the all-muslin front and find that on cold or stormy days, when the frames had to be down, the chickens huddled together to keep warm and did not hustle around as they ought. It was very cold in the coop, and the birds froze their comb in the day time. For best results I prefer as much cloth as glass, making each about one-eighth the front of the coop.

For a temporary coop, lasting two winters and one summer, I built a frame 10 x 30, with posts for corners and in the middle; then 2 x 4 scantlings around the top, and enough across to hold the wire up, and barbed wire all across the top, close enough to keep the straw from falling through; also from one end to the other the back and east end. Then we threshed our straw on it and put a door in one end and window and muslin in front, and we had as good, warm and dry coop as one could wish for. Another cheap temporary coop can be made of baled straw, and the straw sold in the spring.

LEON B. LOSEY.

#### HOME PRESERVATION OF EGGS

Dealers in eggs, when they wish to hold them for a time, make no use of preservatives, but simply place them in cold storage. This method is not practicable in the home, however. "Many methods of packing and preserving eggs for home use have been tried," to quote from an Ames, Iowa, bulletin on the subject, "such as packing in salt, oats or bran; covering them with paraffine, vaseline, butter, or lard; storing on shelves and in racks in cool places; and immersion in salt brine, salicylic acid, water-glass, or lime-water." Of all those mentioned, only two, the use of water-glass and of lime-water, have been effective in keeping eggs for several months. Water-glass is the better preservative of the two, eggs having been kept in a solution of this chemical for three years.

"Water-glass (soluble silicate of sodium) is a pale yellow, odorless, syrupy liquid, costing usually from 60 to 90 cents per gallon. For use, stir one part of water-glass, by measure, in 11 parts of boiled water, either hot or cold, but must be cool before using."

"Slake three pounds of good quick-lime in a small amount of water, then add the milk lime thus formed to three gallons of water. Keep the mixture well stirred for a day, then allow the lime to settle, and use only the clear liquid."

#### KIND OF EGGS TO PRESERVE.

No eggs that float, or that are dirty, stale, cracked, or thin-shelled, should be used. Only those that are fresh, clean, unwashed and sound are suitable, infertile eggs being preferred.

Vessels for liquid must not be of metal, or corrosion will take place, but those of either earthenware, glass or wood are suitable. Six-gallon earthenware jars, with covers, holding from 20 to 24 dozen eggs each, are very convenient. Whatever vessels are used should be first carefully scalded and made sweet.

The preferable method is to fill the vessel used half-full of the liquid, and, as eggs are laid, they are carefully placed therein. There should be at least two inches of preservative above the eggs always. Keep in a cool cellar. The cost is less than one cent per dozen for the water-glass method, and, if lime is used, very much less than that, even. There should be no attempt to keep eggs over year, but until that time, preserved as described above, they can be used for nearly all purposes in place of strictly-fresh eggs.

Prof. Shutt, of Ottawa, differs somewhat from the American experts quoted above. He prefers the lime-water mixture, and uses but 2 pounds of quick-lime to 5 gallons of water. On the other hand, Prof. Graham, O. A. C., Guelph, favors the water-glass method. In co-operative experiments, he says more people succeed with water-glass than with lime-water. He would dilute American water-glass with only seven times its bulk of water, but the English water-glass, which is much thicker, requires about twelve times its bulk of water added.

\* \* \*

In 1904 Canada exported 5,780,316 dozen eggs, of which 5,679,048 dozen went to Great Britain, and the balance to cities near the border. Last year

## THROW AWAY ALL YOUR FEARS

**Backache, Gravel and Rheumatism Vanish Before Dodd's Kidney Pills.**

**Proved Once Again in the Case of Mrs. Fred Krieger, Who Suffered From the Worst Forms of Kidney Disease.**

PALMER RAPIDS, Ont., May 30 (Special).—The thousands of Canadian who live in daily terror of those terrible forms of Kidney Disease known as Backache, Gravel and Rheumatism, will be deeply interested in the story of Mrs. Fred Krieger, of this place.

"I was for years a great sufferer from Kidney Disease, Gravel, Rheumatism and Backache," Mrs. Krieger states. "It all started through a cold, but I got so my head ached, I was nervous, my limbs were heavy, I had a dragging sensation across my loins, and I was totally unfit to do anything."

"Reading about wonderful cures by Dodd's Kidney Pills led me to buy some. After using a few I found they were doing me good and this encouraged me to continue their use. Eight boxes made me well."

"I have been able to do my own work ever since and to-day I am completely cured. Dodd's Kidney Pills gave me health and I feel like a new woman."

If you keep your Kidneys strong and healthy you can never have Backache, Rheumatism or Gravel. Dodd's Kidney Pills never fail to make the Kidneys strong and well.

the exports were only 558,132 dozen, a decrease of 5,222,184 dozen. Last year Canada imported 1,146,041 dozen eggs from the United States—about 200,000 dozen more than imported in 1904. For the eggs Canada bought in 1904 the United States received \$90,000, and last year \$230,000. The average price paid per dozen last year was almost double that paid in 1904. The changed conditions are due more to an immense increase in the consumption of eggs rather than to a decline in the industry.

## Sleep was Impossible

**ALMOST DRIVEN TO DESPAIR UNTIL CURED WITH USE OF**

### DR. CHASE'S NERVE FOOD

No symptom of nervous prostration is more to be dreaded than the inability to sleep. Man can exist for considerable time without food, but without sleep, and the restoration which it brings, he soon becomes a mental and physical wreck.

When you cannot sleep and rest look to the nervous system and remember that lasting cure can only be obtained from such treatment as Dr. Chase's Nerve Food, which naturally and gradually restores the exhausted nerves to health and vigor.

Mr. Wm. Graham, Atwood, Ont., writes:—"My wife had been ill for some time with nervous prostration and we had two of the best doctors we could get, but neither of them did her any good. She gradually became worse and worse, could not sleep and lost energy and interest in life. She was almost giving up in despair when a friend advised the use of Dr. Chase's Nerve Food."

"From the first box my wife used we noticed an improvement and after using six boxes she is completely cured and as well as she ever was, eats well, sleeps well and feels fully restored. I cannot say too much in praise of this valuable medicine for I believe my wife owes her life to its use."

Every dose of Dr. Chase's Nerve Food goes to the formation of so much rich, red blood and is therefore certain to do you good.

50 cts. a box, 6 for \$2.50, all dealers; or Edmanson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.
