MOND NICKEL.

Mond Nickel Company is about to issue £250,000 5 per cent. first mortgage debentures at par for the new enlarged smelting works at Coniston, Ontario, and other purposes.

CANADIAN COAL & COKE COMPANY.

The shareholders of the Pacific Pass Coal Fields, at a special general meeting, ratified the by-law passed by the directors for acquiring securities of the Canadian Coal & Coke Company, and for selling to that company securities of Pacific Pass Coal Fields.

The question of the consolidation in the Canadian Coal & Coke Company, Limited, of the control of the large coal properties in the west at Lethbridge, Pincher, Edmonton, and Yellowhead Pass, on the G. T. P., was fully considered and discussed.

The meeting, by a majority of more than two-thirds of all the shares represented, confirmed the by-law, thus approving the consolidation as in the best interests of all parties concerned.

The consolidated companies will control four of the finest coal properties in Western Canada, developed and equipped under the direct supervision of Mr. Charles Fergie, M.E., an engineer of experience and high standing.

The combined capacity of the mines will be about equal to that of the Dominion Coal Company, and their location will permit of the western market being supplied with the shortest haul.
