Canadian Government.

OTTAWA, Oct. 26.-Notwithstanding recent rumors to the contrary, the naval station at Esquimault, B. C., will shortly pass into the control of the Canadian Government. The Imperial authorities, after having arranged nearly two years ago to hand over the dry dock and station at Esquimault to the Dominion, experienced some doubt as to whether the Canadian Government was in a position to maintain the efficiency of the establishment there as a naval base, but during his recent visit to England, the Minister of Marine gave the necessary assurances, with the result that the transfer is to be made without further delay,

LIOUOR SEIZED AT PORTLAND,

PORTLAND, Me., Oct. 26.—Liquors valued at \$2,000 were seized today from seven express companies, in fact from nearly all the express companies in this the steerage. The liquors included many varieties delivery teams. From the Forest City sas City showed an increase of 36 per Express Company six hundred dollars' worth was taken.

NOTHER KLOND KE

Inspector Tells o

VANCOUVER, Oct. 26 .- News of the discovery of what may prove to be another Klondike on an unnamed branch ributary of the Findlay River, was brought to Vancouver by Inspector A. E. C. McDonell of the Royal Northwest Mounted Police. The find consists of rich placer ground and was discovered by four Canadian prospectors headed by Charles Perry, over a year ago. With the melting of the snow and the ice last spring, operations were resumed. Free, coarse nugget gold, much of it running \$100 to the pan, was being taken out early in the season when Perry was met by the first outsiders he had seen in two years.
"Our party ended the season's work f what is known as the fourth cabin 4 Distinct Family Machines. on the Government telegraph line, 100 miles north of Halezton. Then we lescended via an old trail to Hazelton, paddled down the Skeena and embark During the past five months our party built an eight foot regulation pack trail from Fort Graham on the Findlay River, to the point where we struck the telegraph line, a distance of 180 miles. Side hills were graded and bridges now extend across all difficult "This military highway will soon be

a big factor in opening up a vast re-gion lying several hundred miles north of the route of the Grand Trunk Pacific. It starts at Edmonton, Alta. From this point a first class wagon road extends to Fort John on the Peace River, a distance of 500 miles. Two years were occcupied in building the trail from Fort St. John to Fort Graham, a distance of 280 miles. At St John the trail ascends the Half Way River, crosses the Rockles via Laurier pass, and then heads for Fort Graham. The Half-way River valley is over thirty miles long and some day wil attract thousands of settlers. There is not one settler in the country. Hay grows to a height of three feet, and farther west good feeding ground ex-ists. At Fort Graham this season we left the Findlay River and headed across en undulating and wooded country via an old indian trail which we cut out and improved. The Omenica River is crossed and then we strike Bear Lake. From this last mentioned point we ascend the Bear River to the Skeena and follow the south bank of the latter river to the telegraph line. Next season we hope to complete the 400 mile gap separating the fourth cabin from Atlin, It is intended to utilize the old cattle train to Telegraph Creek, and thence by the old Mackenzie and Mann pack trail to Nilen, ninety miles south of Atlin. I made a reconnoisance of most of this route late last season. From Atlin, later, there is a winter trail to Tagish Lake, hooking up there with the Dawson winter road. In all, the distance from Edmonton to Dawson is 1.780 miles, a route which will be available

TESTED A BAR SIMILAR TO ONE USED IN BRIDGE

for prospectors or military patrols,

Ouebec Commission Securing Practical Evidence at the Phoenix Co.'s Plant.

PHILADELPHIA, Pa., Oct. 28.-In the presence of Henry Holgate, J. G. Kenny and Professor John Galbraith, members of the Canadian Government's Quebec Bridge Commission, a steel eye bar thirty-five feet long, fourteen inches wide and two inches thick, was subjected to a strain of 882 tons in the testing department of the Phoenix Iron Company at Phoenixville yester-day. The bar was similar to those used in the structure of the bridge. With 28 square inches of surface the strain was 63,000 pounds to the square inch.

PICTOU CONSERVATIVES FIGHT OVER NOMINATION

HALIFAX, N. S., Oct. 25.- The nor ination of Sir Hibbert Tupper in Pictou is likely to cause serious dissension in the party. A. C. Bell, ex M. P., who was turned down by the conventon which was dominated by faction who ly. He has been the standard bearer of the party for thirty-years and ha many loyal friends who resent his shabby treatment. It transpires that Bell made a bitter speech at the con-vention upbraiding his party for in-gratitude, and pointing out absurdity of notinitating a man living four thousand miles away, dramatically exclaiming, "As well might you have gone to Hong Kong to get a candidate." It is stated that Mr. Bell has a letter from Sir Hibbert stating that he would not accept a nomination unless tendered with Bell's full consent.

PAYS VISIT TO CORNISH

CORNISH, N. H., Oct. 27.-Sir Wilfrid Laurier, premier of Carada, and Lady Laurier, who have been visiting in the New York colony here, returned by special car to Ottawa, tonight. Sir Wilfrid and Lady Laurier arrived from Canada at Windsor, Vt., Saturday afternoon and were met at the station by General James E. Willard, formerly wife, who drove them in an auto to their home, High Court, at Cornish. DANFORTH, Me., Oct. 26.—The mys-

tery surrounding the death of Harold Whitney, the North Bancroft boy disappeared on September 24th while hunting, and whose body was found Wednesday in the Mattawamkeas river, was solved by the autopsy at the coroner's inquest today. At the inquest Dr. L. M. Porter, who with another physician performed the autopsy made public for the first time that the body was in good condition and they could discover no visible means of death, also that there was no water in drowned. Every organ of the body was examined carefully. The jury rendered a verdict that the cauta and were taken from the offices and week's clearing house business in Kan- death was unknown. The body has been buried. Ever since Whitney discent over the corresponding week last appeared there has been a susticion of foul play.
