THOSE ADVERTISING RATES

We feel surprised and pained tha the Banner should become the innocent victim of every smooth-tongued patent medicine representative who wanders through the country looking for yes dent freshness, with which to do busi-ness. It is such victims that make these vendors rich. We are grieved that the Banner in this respect showed its deplorable gullibility. The fact having become public it will now behoove its friends to keep a sharp watch out for hayfork peddlars and pea shell manipulators. It is just such shell manipulators. sweet innocence as the Banner displayed when it swallowed all those two patent medicine agents told it that they (the hay fork and shell men) are looking

It will no doubt be surprised to kno that the Planet never quoted any such rates, as stated. It is the custom of advertising contractors to pick out th leading paper in a district, and when they are making contracts with the lesser fry try to get lower rates by claiming they are above those charges by it. The Banner was no doubt taken in in this way. Smooth tengued agents for the sake of beating it down pointed to this great and widely read mediun as the only proper regulator of adver-tising prices in Western Ontario, and talked figures which the Banner appears to have swallowed. It has ou perfect permission to do so and keep on doing so, but that does not make the figures correct, and the cases men-tioned by the Banner either originated in its own brain or in those of the glib tongued agents. We would have given credit to the latter, for they are usually men of originality and in telligence, had not that factitious intel view with James Clancy, M. P., show that there is also some creative geniu in our esteemed but unreliable contem porary. As for the city rates, we are not surprised at the Banner feeling annoyed. We would, too, if we were doing work at less than cost. But when a newspaper starts in to get a the legitimate charges of another jour nal. The Planet simply asks its regular advertising rates, and proposes doin so. It is not our fault if the Banne is losing money.

DISHONORABLE JOURNALISTIC

The Banner's assertion that James Clancy, M. P., did make certain re-marks which it published, puts it in an awkward position. Supposing Mr. Clancy did make the statements, what must be thought of a newspaper which will hang around and get a man's pri-vate opinion unwittingly and then rush off and use it? That is not journalism No reputable paper would tolerate such a practice. A reporter who would get into a social chat with a man and then what he says would find himself very soon "up on the carpet." When a press representative is sent to interview a man on some particular sub ect that man knows he is being interbe thought of a paper which bobs up gainst an acquaintance in the rotunds publishes something that acquaintance declares he never said. Now, it is a case of Mr. Clancy's word against the Bunner's. Which can the public take? a newspaper would descend to reconversation would it stick to the false-hoods afterwards? We think Mr. Clancy need not bother his head any in the news Lord Charles B resford. more about the matter; the public will

OUR FOREIGN APPLE TRADE.

G. W. Hunt, of the Ottawa Fruit and Produce Exchange, states that the basest reports received by him regard-ing the shipments of apples from the

Well Made Makes Well

Hood's Sarsaparilla is prepared by ex-perienced pharmacists of today, who have brought to the production of this great medicine the best results of medical re-search. Ho d's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly in-tended by Nature herself for the allevia-tion of human ills. It purifies and en-riches the blood, tones the stomach and digestive organs and creates an appetite; directive organs and creates an appetite; digestive organs and creates an appetite; it absolutely cures all scrotula cruptions, hoils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tirred feeling, giving: strength and energy in place of weakness' and languor. It wards off medaria; typhold fever, and by purifying the blood it keeps the whole system healthy.

the last week in December 4,000 barrels were exported; of these 2,300 were from Canadian points. In the same week last year 13,000 barrels werê exported from America, Up to the pres-cut time this year 900,000 barrels have been exported from America. Three-fourths of these were from Canada. At this time last year 600,000 barrels had been exported, one-third of which were from Canada. Apples in the United States this year are in good demand. Only last week a Toronto firm made a sale of 15,000 barrels to a Buffalo deal-er. This is the largest sale of apples ever made in Canada by any one firm. The old country market as reported

from Liverpools shows that apples there are retaining their value. The latest reports are: Baldwins, 18 to 24 shillings per barrel; Spy, 17 to 22 shillings. Other red brands are selling at 16 to 18 shillings. This is an average of five shillings higher than last year. Apples in Ottawa are ranging at the same rate as last season. The prices trun from \$2.75 to \$3.50 per bbl. Good stock is hard to get, as the best qualities are scarce this secson.

Although the council-elect has tak en office we hope it was not a case of "ring in the new."

The Spanish evacuation of Havan dramatic affair. In the palace was a dramatic attair. In the periods the Spanish governor met the new United Spates military governor at noon on January 1. The Spaniard wore no they had been foes, he respected them as gentlemen. Then as the clock struck twelve the Governor declared that in conformity with the orders of his king be transferred the island to the United States. The Spaniard walked prompt-ly to the wharf, weeping and embarked on a ship that was ready to sail for Spain. Now the Cubans, who fought for independence, are wondering where

Irish newspapers are at present estowing a good deal of credit upon the Green Isle because it has produced British army. These are Lord Wolsley, the commander in-chief; Lord Roberts, a pound?" enquired Hurte, looking, the commander in-chief; Lord Roberts, a pound? It is not the commander of the comm the commander of the forces in Ireiand; Sir William White, commanding the forces in India, and Sir Herbert out authority, would it falsify that are, besides, Gen. O'Connor, the only conversation! And if it falsified the officer who has risen from the ranks,

LIBERALS LOSING GROUND

Montreal Gazette. The judicial recount of the ballots in the Missisquoi by election has reduced Dr. Cotton's majority to thirteen. In Dr. Cotton's majority to infreed. In May, 1897, Mr. McCorkill, whose retirement to the Legislative Council created the vacancy, had a majority of 405. The outcome speaks more emphatically of the change of opinion as regards Liberalism in this province, than even the result of the Beaubartest where the Conservathan even the result of the Bessians nois by-contest, where the Conserva-tive was elected. It will add to the feeling of confidence created among Conservatives by recent events. They know that what was in effect a strikknow that what was in effect a striking moral victory was gained against
the full influence of two Liberal administrations, that at Ottawa and that
at Quebec, that of Mr. Tarte na well
as that of Mr. Marchand. And more,
what is a moral victory might have
been a material one, but for the illegal trick of wrongly printing the
ballot papers, by which Dr. Comeau's
name was put in the wrong space,
with the result that those of his supporters who would not scrutinize the
paper with more than ordinary closepaper with more than ordinary close ness might readily vote against in-stead of for him. There were other ir-regularities, due to the stupidity of

ALL HEADACHES from whatever cause cured in half an hour by HOFFMAN'S HEADACHE POWDERS 10 cents and 25 cents at all druggista

improper instruction of the deputy returning officers, from which both candidates suffered, and Dr. Cotton most, but they were those to which the public has become accustomed, and do not intentions. necessarily indicate wrong intentions on the part of those responsible. To defy the plain provisions of the law in the printing of the ballot is a graver matter that cannot be excused on any ground, and that has every appearance of a trick deliberately planned in the hope of helping the Government can-didate, whose political friends had con-trol of the election machinery.

LONDON POLICE DON'T USE TELE-

Lloyd's Weekly.

There is just now a great cry against the Metropolitan police because they have not adopted telephonic communication; but a chief superintendent of one of the busiest districts pointed out, yesterday, to a Lloyd's representative, me excellent reasons for not introduing the telephone in police stations. In the first place, the police of London possess the most perfect telegraphic system in the world. The Wheatstone instruments are so simple to man-ipulate that any constable can send a message which the new Stelles recordmessage with the heavites as fast as it comes over the wires, so there can be no possibility of mistake as to its meaning. The superintendent pointed out that if, as the telephone advocates wish, the instruments now used were replaced by telephones, only one station at a time could be communicated with. Now, by a marvellous switch arrangement a message can be sent from one station to any other station singly, without interference or communication with others on the circuit, or it can be sent to two, four, forty, or any number at the same miment. The advantage of this in circulating the description of a wanted criminal is evident, and one the telephone could not give. Another objection to the telephone for police business is the fact ar receives and type-writes as fast a give. Another objection to the telephone for police business is the fact
of speaking the message. Even in a
police-station it is not advisable for a
word to drop that ought not to
heard, and some messages caught by
an eavesdropper might lead to serious
trouble. Another point is that the
telephone might lead to a lot of vexatious questions over the wire by outsiders, giving endless trouble for nothing. Altogether, the police prefer their
telegraphic arrangements as they exist, and are quite satisfied with the
improvement inaugurated by the new
"recorder."

THE NAME AND NOT THE POETRY COUNTED.

Exchange.

An English newspaper tells a good story of a practical joke played upon Mr. Labouchere by Bret Harte. Dressgeorations and was plainly dressed.

Some Cutan officers were present. With these the Spanish governor shook hands warmly, declaring that although they had been found harmonically the state of the spanish governor should be the spanish governor sho tramp, Bret Harte visited the office of Truth, and asked to see Mr. Labou chere. He was shown into the inne office of the member for Northampton to whom he said that he had a poer he would be pleased to sell, and aske Mr. Labouchere to look it over. Mr as would be pleased to sell, and asked Mr. Labouchere to look it over. Mr. Labouchere refused to glance at the production, but, upon Bret's earnestly pleading his immediate need of money, Mr. Labouchere hastily examined the manuscript. Then he returned it with the remark, "I canjou use this trash!" (But." exclaimed. There with nquired Mr. Labouchere. a pound? It is not wort paper that it is written leclared Mr. Labouchere, "If v iand; Sir William White, commanding the forces in India, and Sir Herbert Kitchener, whose brilliant exploits in the Soudan have won for him the title of Lord Kitchener, of Khartoum. There are, besides, Gen. O'Connor, the only officer who has risen from the ranks, officer who has risen from the ranks, the control of the as a portion of the disquise moved, and Mr. Labouchere beheld a club companion whom he had known for many years.
