

## 6 PERSONS KILLED BY CANNIBALS

Children Among those Slain By Savages in New Hebrides.

(Associated Press.)  
Sydney, Australia, Sept. 29.—A steamer arriving from the New Hebrides Group, about 900 miles off the northeastern coast of Australia, has brought news of the murder of six persons by cannibals. The victims were a British trader named R. J. Bridges, and at least five children, whose bodies were found fearfully mutilated with axes and knives, and another child, who is missing, is believed to have been carried off by the cannibals and feasted upon. The murderers were thought to have come from a village on Malekula Island, where there are tribes of cannibals who are bound by native custom to kill and eat a human being in order to keep up their rank. The failure of the French and British punitive expeditions just before the outbreak of the European war to capture any of the perpetrators of similar crimes, and their immunity from punishment for two years past on account of the war, is thought recently to have emboldened the cannibals.

**INFANTILE PARALYSIS IN MEXICO.**  
(Associated Press.)  
Mexico City, Sept. 29.—Orders have been sent to the ports of entry of Mexico to enforce strictly the quarantine regulations against the spread of infantile paralysis. The regulation prohibits the entry into Mexico of children between five and fifteen years of age from sections of the United States where the disease is prevalent.

**For a Quick Pick-Up Luncheon** try that most delicious, nourishing, whole wheat food, **Triscuit**, the shredded wheat wafer-toast. It contains all the body-building material in the whole wheat grain, including the bran coat which promotes healthful and natural bowel movement. It is real whole wheat bread without yeast, baking powder or chemicals of any kind—an ideal food for children because it compels thorough mastication and ensures perfect digestion. A crisp, tasty "snack" for picnics or excursions. Toast in the oven and serve with butter, soft cheese or marmalades.  
Made in Canada

### MANUFACTURE SERUM

(Associated Press.)  
Manila, P. I., Sept. 29.—A plan to establish ten government plants for the manufacture of rinderpest serum, has been initiated by Adriano Rignandez, director of the bureau of agriculture. Funds have been secured and the plants will soon be in full operation. Rinderpest continues to be a serious problem for Philippine cattle owners but the bureau of agriculture is waging a vigorous campaign against the scourge. A requisition for serum has been sent to French Indo-China and this will enable the bureau to keep up its work until all ten serum manufacturing plants are in full swing. These plants are to be located in cattle centers in different parts of the islands.

An agreement has been signed between the city and an eastern Ontario syndicate under which a pulp mill will be established in Port Arthur.

## IRISH REGIMENTS REMAIN IRISH

Are Not Reinforced with Men Drafted from Other Units.

(Associated Press.)  
Dublin, Ireland, Sept. 29.—The charge that the Irish regiments, and particularly the Dublin Fusiliers, are being filled up from reserves of Englishmen and Scotchmen, is repudiated by the Colonel lately commanding the Dublin Fusiliers Battalion, recruited from the commercial young men. There are, he says, not twenty men in the battalion who are not Irish, and these had come in because they had Irish friends in it. Irishmen who had been serving in English regiments had applied for transfer to the Dublin and this may have given rise to the charge. Some English regiments have been recruited almost entirely from the Irish in England, notably the Tyneside Irish, which was officially called the Northumberland Fusiliers, in the list as the 318th London regiment. The casualty lists of Scottish Highland regiments show a large proportion of Irish names.

## NEWS FROM OVERSEAS

Items of More or Less Interest From Great Britain

**German After Wilson.**  
Illinois Staats Zeitung: A President who tenaciously resists the demands of his own people to protect them in their crushed rights and in their violated honor. President Wilson, however, who is not capable to resist the threats of that same England that depends for its very existence on the good-will of the American people, is already a danger for this Republic and a greater danger than any other menace of Aircraft.

**The Importance of Aircraft.**  
New York Sun: Mr. Claude Grahame-White has always been regarded as a dreamer of dreams; but we confess to a feeling of satisfaction when, remembering that Congress has appropriated \$13,000,000 for military aeronautics, we read his prediction that in the wars of the future great fleets of powerful aeroplanes may begin hostilities, "destroying government buildings, arsenals, factories and railways, paralyzing all communications and blotting out whole cities." He is no doubt right when he says that "disaster awaits a nation that ignores these warnings," for airplanes and instruments of war are plainly in the early stage of their evolution.

**The Future of the Empire**  
London Times: The far greater problem of the future of the Commonwealth will be upon us after the war. Its solution will be complicated by the nationalism of the French-Canadians and the South African Dutchmen, while it will have more than enough complications of its own. We see too few signs at present of that hardening of educated opinion in this country to a resolve that the solution shall be found which is, in our conviction, the essential first step. The way—once that initial impulse becomes general—is clearly to be seen, though its horizon is now very far away. The Imperial Conference should be summoned and should invite the parliaments and peoples of the Empire to send delegates to an Imperial Convention. This was how Canada, Australia, and South Africa prepared to meet the question of their own future at a time of crisis. It is the way for the Empire also, though here an intermediate stage, in which all Dominion Prime Ministers should become by virtue of their office members of the British War Council, is obviously desirable.

**What is Hughes' Foreign Policy?**  
Springfield Republican: With the Republican candidates supported by such grotesquely antagonistic elements as the pro-German New York Staats-Zeitung and the pro-British New York Tribune, by George Sylvester Viereck on the one hand, and Lyman Abbott and Robert Bacon on the other hand, by Dr. Hexamer, head of the German-American alliance at one end, and by Theodore Roosevelt at the other end, how is it possible for us to know what Mr. Hughes' policy would be on the various questions of the European war? Three Chinamen have been remanded to prison pending inquiries into the charge against them of having been found in possession of opium in Glasgow. All the accused were about 50 years of age and of respectable appearance. It was stated in Court that the shop in which they were arrested was similar to one raided a week ago. It is an old public-house, which is being fitted up with bunks to accommodate Chinese sailors. Constables found a quantity of opium in cake form and a number of small tins containing opium in a semi-liquid condition prepared for smoking.

For some days many of the inhabitants of the island of Colonsay were perturbed by a huge object, which they imagined was a submarine, floating some miles out from the coast. The mysterious object was thrown ashore one day, and lay on the rocks at the north end of the island. It proved to be a big whale of the "furrowed" species, measuring about seventy-eight feet in length. Colonsay is an island in the Hebrides, with a population of about 500. There is also a Little Colonsay, off the west coast of Mull, which boasts of two inhabitants. The Arbroath mill and factory owners have again considered the request of the operatives for an increase of 10 per cent. in wages, and have made an amended offer of a bonus of 2s per week to all earning 20s and over per week, and a bonus of 1s per week to all earning 20s per week. Since the war began the masters have, in addition to the foregoing offer, granted two bonuses of 1s each and an advance in wages of 5 per cent.

According to the second annual report of the General Board of Control for Scotland, of January this year, exclusive of insane persons maintained at home by their natural guardians, there were in Scotland 19,108 insane persons, of whom the authorities had official cognizance including inmates of training schools for imbecile children.

An inmate of the Ennisorthy Lunatic Asylum named Sullivan caused a good deal of commotion recently by escaping in his pyjamas at midnight. A window left open enabled him to elude the guards and he made his way to an outbuilding where the livery of the coachman was kept. Donning this he found in the pockets a key to the stable, and harnessing the horse to the market cart he boldly drove off into the country. The matter was duly reported, and the attendants, assisted by the local police, organized a search in the surrounding districts. This was at its height when a telegram marked "Collect" was received from the fugitive who generously gave particulars of his whereabouts. Discovering no money in the stolen clothes, his freedom had proved irksome, and the telegram was to notify the officials that "he would return very shortly." They did not await his convenience, however, as he was a dangerous fellow. Instead they notified the police to bring him back to Ennisorthy, which was done.

W. J. Grattan, London, Eng., and P. C. Watson, formerly of Wycliffe College, Toronto, were ordained deacons by the Bishop of Kingston. A deputation from the town of Barrie waited upon Major-General Logie at Camp Borden to see if troops could be quartered there this winter.

**Look and Feel Clean, Sweet and Fresh Every Day**

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning, before breakfast, drink a glass of real hot water with a teaspoonful of Limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gives one a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pro-internal sanitation.

## CONSERVATIVE SHOES

Not Every Man wants the latest style in a shoe. We have the very latest models, of course, but for men who are constantly wearing the same style of shoe year after year, we show some splendid conservative styles, and splendid values.

Black or tan leathers, broad toes, low heels and broad shanks. Ideal shoe for the man of affairs.

Come here, Mr. Business Man, with any sort of shoe troubles you have. We're shoe experts.

## Temperance Beverages

Radnor Water, Cronmiller's Ginger Ale, Schwepp's Ginger Ale, Lime Juice, Unfermented Grape Juice, Carling's Ale, Porter and Lager.

**J. S. Hamilton & Co.**

44 - 46 DALHOUSIE STREET, BRANTFORD

J. E. Butler and Sons' planing mill at Vittoria was burned. John Bridgeman, an old resident of St. Mary's died suddenly. Dunnville carried by-laws to take Hydro power, to spend \$53,000 for an electric plant, and to extend the gas franchise for ten years.

## SUBSCRIPTION PRICES of BRANTFORD NEWSPAPERS TO BE ADVANCED

Commencing October 1st. next, the subscription rates of the Brantford Daily Courier and the Brantford Daily Expositor will be advanced as follows:

Single Copies - - - - - 2 cents  
Delivered in Brantford - 35c per month (\$4.00 per annum in advance)  
By Mail to Outside Points \$3.00 per annum

These increases have been necessitated by the tremendous advance in the cost of white paper, labor, metal, and in all other commodities incidental to the production of a newspaper. For over 25 years the subscription prices of the two Brantford papers have remained unchanged, while during that period the price of most other things have doubled and quadrupled. During recent years The Courier and Expositor have actually been sold to the agents and boys, and to the subscriber, when delivery charges are added, for less than the cost of the white paper alone, to say nothing of the hundred and one other charges of which each copy should bear a share. Recently the situation has become so serious that the above advances, commencing October 1st, have become imperative.

### Even Advanced Rate is Low by Comparison

Even these advanced rates are much lower than those charged by the papers in London, Belleville, Guelph and many other Canadian cities and many publications which for years have charged the prices the Brantford papers now propose, have announced advances considerably beyond these figures during the last few months.

Subscribers may renew their subscriptions for a period not longer than one year at the present rates, if payment is made before October 1st, but no renewals will be accepted at the old rate after October 1st.

## AUSTRIAN SPY TAKEN IN RO

Carried Dynamite Hidden Walking Sticks and Umbrellas.

(Associated Press.)

Rome, Sept. 29.—An Austrian named Larence and two Italian have been condemned to be shot the back by the Ancona court martial for complicity in the attempt to the port of Genoa. With this spy, it seems, were connected explosions in munition factories Milan and elsewhere, aggregating damages a total of several millions of dollars.

The Austrian, who was at head of the plot, sought out criminals, gaining an ascendancy over them so that he could control
