A VERY FINE TRIP.

Judge Bell and Family Take in the Sights in the Old Country.

Judge Bell returned on Saturday after seeing Mrs. Bell, Miss Bell, Miss Margaret Bell and Dr. Chas. Bell safely installed in pleasant quarters in Vienna. The Judge looked well after his trip. Mr. Bell and his family left on the 8th of August and sailed on the 10th. The voyage across the ocean was just as pleasant a trip as it was possible to have. Liverpool, London, Warwick Castle, Stratford-on-Avon and Oxford were visited by the ramily party, a day being spent in each place. At Oxford there are 23 colleges, each a university in itself and housed in a magnificent stone building. After a week in London, the party crossed to Rotterdam, spent a day at Cologne, went up the Rhine to Mayence, then to Passan on the Danube. Wurzbug and Nurenburg each received a day's attention and then the boat was taken down the Danube passing through the most beautiful of scenery. The Judge waited four days till he had his family comfortably located in Vienna where they will spend the winter and he then returned home. The doctor will spend the winter with his mother and sisters and on their return to Canada in the spring he will go to London and Paris to take a course in the hospitals.

"There is a very fine feeling for Canadians in England and even on the continent," said the Judge. "I was surprised to find Members of Western City Lodge are specially requested to attend their lodge this evening as business of great importance is

"There is a very fine feeling for Canadians in England and even on the continent," said the Judge. "I was surprised to find that the English speaking residents of Vienna knew as much about the Canadian contingents as the people of England. The Canadian contingent made Canada more known than anything else possibly could. A contrast to ten years ago was quite noticable. The knowle ge the English people now have of Canada, her wealth and resources, what she is and her prospects, is to

sources, what she is and her prospects, is to say the least surprising. The merchants all understand the preterential tariff also and feel that Cauada has acted liberally and generously towards Great Britain."

This Traveller Says There Can be no Doubt of it.

"I find the same feeling from one end of the country to the other," said a well-known traveller to The Planet. "I have been west to the Pacific coast, stopping at Winnipeg, Calgary, Edmonton and many other intermediate points. I have been down in Quebec. was there the two nights Sir Charles Tupper and Hugh John spoke in Montreal. And of course I have been through Ontario, but there is no need of telling you about that, because the feeling of discontent with the Laurier Government you find right here in Chatham is the same everywhere. Out west there is little doubt the Op-Out west there is little doubt the Opposition will make a clean sweep from Lake Superior to the Pacific Ocean. There is not so much politics out there as in the east. The people vote as they feel like it, and there can be no argument over it they are disappointed and angry. You can concede the west solidly against the Government. That's my sizing up of it.

"But it was Quebec that surprised" Andrew Heyward, agent for the Queen City Oil Co., is having the oil delivered in tanks this morning, as the company has put out a handsome wagon. Merchants will appreciate the change, as it will mean a saving to them, and should mean a reduction in the price of oil.

"I'd like to see him do it. If he gets down there are holding the grandest kind of meetings, while many of the large number may be expected. Capt. Cornettet exercised plenty of patience this morning and was ten minutes at leaving. He had to check up old-time Liberal workers are sulking. One of them told me there had been one of them told me there had been a very unfair distribution of government pap. Take hay, he said, One man made \$200,000 out of a contract, He gobbied it all. At sunset last night the year 5661 in the Hebrew calendar began.

'As for Ontario, there is a tremendous change of opinion. Hugh John is a power. He has the old man's address and good humor, and it goes address and good humor, and it goes a long way. Say, at Whitby I saw a funny sight. After the speeches the chairman asked any of those who wishel to shake hands with the leaders to come forward. Old men and old women went forward and actually bugged and kissed Hugh Lohn for his hugged and kissed Hugh John for his father's sake,' and some of them shed tears. It was the greatest thing I ever saw, but it represents the feeling in the presence." ing in the province.

SHOCKED ALL ROUND. At the corner of Victoria avenue and Head street the dead end of an old te ephone wire crossed the electric light wires and then eached to the roof of the Methodut church. The result was that the whole roof of the church was charged with electricity. The boys of the neighborhood discovered that boys of the neighborhood discovered that they could get quite a shock by touching the water pipes that run from the evetroughs Last evening a number of youths assembled and were shocking themselves by electricity and also the people in the church by the noise they made. Some of the officials sent the boys home. This morning Supt, Jones had the wire removed. While he was engaged at the work John A. Walker and Wm. Ball passed and they were shocked too when they heard of how the boys acted but more so when they touched the water pipes.
