Six Million Dollar Thief Runs Wild in Canada

National Pillager Steals Enough Every Year to Double the Pensions of 19,000 Disabled Soldiers

Robson Black, secretary of the Canadian Forestry Association, sends out a little folder entitled "Your Enemy's Photograph" in which is a picture of the enemy of every man, woman and child in New Brunswick—the picture of a forest fire. Says Mr. Black:

His name is the Forst Fire Fiend. He lives by pillage. What he thieves in one year would pay the premiums on \$1,000 life insurance for 300,000 Canadians at 25 years of age.

It would almost double the pensions on 19,000 disabled soldiers. The thefts of this enemy from the storehouse of our wood supplies run from four to six millions and worse per year.

By every December he has left you and your family a little poorer than you would have been without his presence.

Canada is the only country on earth that thinks it can afford million dollar bonfires in war time.

Every man who feels with fire in or near a forest, betrays his country. You are not the owners of the forests and fields. We are trustees.

Sir George Foster said a good thing: "You are drawing the blood of a future generation in Canada when you misuse the forest resources of the country."

Keep this clear: Timber is a crop. Most of our timber is to be found where no other crop can possibly grow. A forest fire therefore usually means that a large area of land has been stripped of its only possible crop. The land lies waste. Nobody gains. The nation is that much poorer.

Canada has not one tree too many for present and future needs. We owe just one quarter of the timber possessed by the United States. Since pioneer days the Fire Fiend has robbed us of two-thirds of our inheritance. On what remains the most careful economy will be necessary to meet the increasing requirements of the population. Forest protection then is just a matter of good citizenship.

FORESTRY BATTALION GIVES VALUABLE POST-WAR TRAINING

That the American lumbermen are leaving nothing to chance in their bid for the control of the European post-bellum lumber market is emphasized by the fact that they are subjecting their lumber experts to a rigorous examination for the purpose of selecting only men of exceptional ability and men who will be best adapted to investigate the market for American woods in Europe after the war.

Not satisfied that all the best available men in the country have taken the examination just held, the bureau of foreign and domestic commerce has announced that a second examination will be held on November 22, which shows with what thoroughness they are going into this matter. Two or three exceptionally well fitted experts passed the first examination, but the board composed of some of the foremost lumbermen in the country, and prominent government officials, decided that it was not possible to fill satisfactorily all the positions, and that no appointments would be made until after the second examination, so that when the selection has been finally made, they should be and probably will be, men of exceptional ability, and men who will discover a market in Europe for American goods.

As previously pointed out by the Canadian Forestry Battalion, it is plainly the duty of every lumberman and millman to see that Canada gets her share of this billion dollars worth of trade, but while Canada's business competitors have to plan and pay for this information through the channel of the Canadian Forestry Battalion, which will be composed of the best brains and most skilled men in the Province of New Brunswick, can get it free. Yet it is only by the active support and enthusiasm of the Foresters that can accomplish this every lumberman, millowner and man by getting right in touch with things as they actually are in Europe and so at one and the same time do a greater service to the Empire, themselves and the province of New Brunswick.

Full particulars can be obtained from the various recruiting officers throughout the province, Campbellton, Newcastle, Chatham, Bathurst, Moncton, St. John, Fredericton, St. Stephen, etc. or from the headquarters of the Unit, The Armouries, Sussex, N. B. Lieut. R. M. Murray, one of our active sons, our recruiting officer at Chatham, N. B., and he will be glad to answer all mail enquiries.

It is a pleasure to answer all mail enquiries. Transportation supplied from place of enlistment to headquarters. Pay and allowance start from date of passing the medical examination.

WE INSIST UPON TWO

"We have been sent a marked copy of The Christian Science Monitor containing an appreciation of Lord—whoever he may decide to be—Sir Hugh Graham. While we are not disagreeing with the compliments tendered to the noble lord in this article, we must dissent from the statement originally made by a New York writer that Sir Hugh Graham is the first accession to the peerage who was born in Canada. Just what conspiracy there may be on foot to deprive Lord Beaverbrook of his title to having been born at Maple, Ont., four miles from Richmond Hill, north of Toronto, we do not know. But we hasten to reassert Lord Beaverbrook's right to this distinction. No man who is grabbed by the fates to enter the House of Lords can afford to disclaim his Canadian birthplace if he has one. Among such a galaxy of titled hypermen a noble lord's prospects are none too easy of recognition if he is deprived of his birthright in his own birthplace. So far as Canada is concerned it makes no difference; though we should prefer to keep our lords in this country so as not to have them quite spoiled by their titles. It is a matter for congratulation that Sir Hugh Graham is not likely to pull up stakes from Montreal just because he has a title."

"CHARLEY'S AUNT" the play that has been written and talked about more than any other Comedy production ever launched in the Amusement field, will be presented at the Opera House on Saturday, April 2nd, at 8.15 p. m.

The piece is full of extraordinary surprises and clean fun, that keeps its audience in a constantly expectant attitude and almost continuous laughter. It is, in fact, a farce quite out of the ordinary, and furnishes more thrills and tense moments than one can realize as emanating from a single evening's entertainment.

It is a clean play presented by an admirable company of Comedians and Comedienne, and played with a rep'tility that threatens to break the speed limit, and it is filled to the brim with logical tricks and swift-moving surprises that keep the interest of the auditor at concert pitch throughout the enactment. In short, it is a charming farce charmingly presented, and as full of laughs as the small boy is of ice cream after coming home from a church festival.

The United Producing Company, are now the owners of the Canadian rights of the play and their company which operates at the Opera House is the same as is booked in all the leading cities of both Eastern and Western Canada.

The same production broke all records at the Opera House, Fredericton, N. B., a few weeks ago.

The official report of the recruiting results in the province for the week ending Saturday, March 24, as issued last night by Lieutenant-Colonel J. L. McAvity, chief recruiting officer, show 97 recruits including the following:

- 165th Battalion 1
Field Artillery draft 3
Canadian Engineers 1
Forestry Company 1
65th Field Battery 1
Home service 4
