NEW LAMP BURNS
94% AIR
Beats Electric or Gas

A new oil lamp that gives an amaz-
ingly brilliant, soft, white light, even
better than gas or electricity, has been
tested by the U. S. Government and
35 leading universities and found to be
superior to 10 ordinary oil lamps.
It burns without odor, smoke or noise
no pumping up, is simple, clean safe
Burns 4 p c air and 6 p c common kero-
sene (coal oil).
The inventor, J. M. Johnston, 248
Craig St. W., Montreal, is offering to
send a lamp on 10 days' FREE trial, or
even to give one FREE to the first user
in each locality who will help him in-
troduce it. Write him today for full
particulars. Also ask him to explain
how you can get the agency, and with-
out experience or money make \$250 to
\$500 per month.

100 Men Wanted
\$8 to \$10 Per Day
We want 100 men quick, who are
mechanically inclined, to qualify to hold
positions at above wage, as auto me-
chanics, engineers electrical experts,
truck drivers, chauffeurs, salesmen, tire
welders, and battery men. We guarantee
to train you until our Free Employment
Department places you in a position.
Write quick for Free Catalogue.
Hemphill Auto & Tractor Schools,
163 King St. W. TORONTO.

Wanted
Applications for the position of
salesmen will be received by the
Fuller Brush Co., Ltd., Applicants
must be over 25 years of age.
Married men preferred. Exper-
ience not necessary. Opportu-
nity for advancement. Apply
stating age etc., to

3-3 Moncton, N. B.

SO NERVOUS SHE COULD NOT SLEEP

A Quebec Woman Found Rel-
ief and wants others to know.

Mrs. Donald M. McLeod, Springhill,
Que., was a victim of great nervousness
until she found the right remedy, and is
now anxious that others shall profit by
her experience. Mrs. McLeod says:—
"Some years ago I became run down and
grew so nervous that my life was a bur-
den to myself and all around me. Every
night I would wake up with a choking
feeling, numb all over and my heart beat-
ing at an alarming rate. I would jump
up and walk the floor and declare I was
dying. Then I would have sinking spells
and all day long would be so dizzy that
I would stagger like a drunken person.
I was afraid to be left alone, and my con-
dition was terrible. I was then taken to
the Sherbrook hospital, but the treat-
ment there did me no good and I came
back home so weak that I could hardly
cross the floor. I could not take care of
my children, and my mother did so.
Everybody thought I was dying, and I
just waiting and wondering when the end
would come. At this stage my attention
was directed to Dr. Williams' Pink Pills,
and I got a supply at once. By the time
I had used five boxes I felt much better,
could eat better, and sleep better, and
felt almost like a new woman. I contin-
ued the pills for some time further, and
am now a strong and healthy woman. I ad-
vise all run-down women to try Dr. Wil-
liams' Pink Pills as I am sure they will do
for others what they have done for me."

The new sales tax will not increase the
price of Dr. Williams' Pink Pills, as the
company pays the tax.
You can get these pills from
any dealer in medicine or by mail
postpaid, at 50¢ a box, from the Dr.
Williams Medicine Co., Brockville,
Ont.

PARLIAMENT OPENS FEBRUARY 28 th.

Ottawa, Jan. 14—Parliament will
open on Thursday February 28.
Announcement of the date of the
opening was made by Premier King
at the close of a cabinet meeting
this evening. The date is almost
a month later than that of
last year; when Parliament assem-
bled on January 31. In contrast to
last year; when the opening was
on a Wednesday the time-honored
custom of meeting on Thursday
will be observed this year. After
the opening ceremonies and
the delivery of the Speech from
the Throne adjournment will prob-
ably follow until Monday when the
real business will commence.
The session this year will be im-
portant. Not only will important
questions such as redistribution
and the banking system be again
before the House, but the pro-
ceedings of parliament will be of
special interest in their bear-
ing on the political situation.

Foot Saved in 4 Days!

"Nothing but Zam-Buk could have
done it," says Mrs. A. Berryman, 150,
John Street, North, Hamilton, in
describing how her right foot, crushed
by a wagon wheel, was healed. "The
flesh was terribly bruised, blackened and
inflamed, and I fainted away with pain.
When it was quite impossible for me to
move about, my husband's mother got
me to try Zam-Buk. It was surprising!
"Within TWO DAYS all swelling
and discoloration had disappeared and
pain was banished. In FOUR DAYS,
through this timely use of Zam-Buk, I
could get about as usual; the injured
foot was thoroughly healed."

Zam-Buk is the powerful antiseptic
healer which quickly frees the skin of
corruption and disease and grows new
healthy tissue. No common ointment
or salve can possibly compare with
Zam-Buk. Get a box to-day! 50¢ all
dealers or FREE SAMPLE for 1c.
postage from Zam-Buk Co., Toronto.

ZAM-BUK
For Healing!

SWEARS STEWART GODWIN CONFESSED TO MURDER OF MRS. CLARA WHITESIDE

St. John; N.B.; Jan 15—That
Stewart Godwin the 16 year old
mentally deficient youth; who has
been held for investigation since
the discovery on Christmas night
of the murder of Mrs. Clara White-
side at her little home in East St.
John; had confessed that he struck
the woman the blows on the head
which caused her death; was the
testimony given here last night
by Detective Patrick Biddecombe
and County Constable Howard Short

COOPERATE PULP- WOOD MARKETING

In all the concern expressed
for the so-called rights of farmers
and settlers to dispose of their
pulpwood how and where they
please no practical proposal has
been offered which might really
benefit farmers and land owners
with pulpwood for sale. May I
therefore offer the suggestion that
the farmers and settlers in each of
the provinces could very readily
insure themselves of a stable mar-
ket for their wood and obtain a
good fair price for it if they
would adopt the cooperative market-
ing plan.
Farmers with pulpwood for sale
are not very numerous in any of
the provinces. It would be a com-
paratively simple matter for them
to organize in each province a
cooperative selling agency to dis-
pose of their pulpwood. Under
such an arrangement the pulp mills
would have only one seller in each
province to deal with and he
would have control of the entire
pulpwood cut for each season. This
would guard against over-cutting as
the requirements of the mills could
be ascertained in advance and
would also ensure that the farmer
would obtain a fair price for his
wood. It would probably be neces-
sary to employ a sub-agent or buy-
er for each separate county who
would report to a central or gen-
eral agent just how much wood was
being cut in his particular county
each season. The chief agent would
then have control of the sale of
the entire cut of the province and
there would be no one to break the
price or do any under-selling. A
fair stable market would thus ob-
tain and instead of the farmer sell-
ing his wood as he now does to
the value of the labor employed in
numerous instances for just about
cutting and hauling he would reap
the trees that either he or his
predecessors have been pro-
tecting for forty to a hundred and
fifty years as well as a fair return
for his labor.

A small commission say
possibly up to 25 cents per cord;
recompense the agents and provide
for contingent expenses. This
charge would be compensated for
many times over by the increased
price the farmer would receive for
his pulpwood.

This method of selling would
also help to conserve the wood
supply as it would avoid wasteful
cutting while the enhanced price
the owner obtained for his wood
would give him a better idea of
its real value and lead him to take
greater precaution to protect his
woodlot from fire and to practice
other conservation measure.

It is unnecessary to say that
the actual application of an em-
bargo on the exportation of pulp-
wood which; by the way; I am
positive will be brought into effect
during the present year; despite
the efforts of the American interests
and the machinations of some of
our own politicians to prevent it
as it is a measure that should have
been adopted long before this.

Let those who express so much

concern for the farmer wood-owner
as well as the farmer himself; con-
sider this proposal with the end in
view that the necessary steps may
be taken to give it effect. I stand
ready to contribute my share.
FRANK J. D. BARNJUM

Here and There

The total elevator capacity of
Port Arthur and Fort William will
reach 65,000,000 bushels by Sep-
tember of this year. By the end
of 1924 the elevator capacity is ex-
pected to reach seventy millions.

Immigration returns of the Can-
adian Government for the first
five months of the present year
show a one hundred per cent in-
crease in immigration from the
British Isles over the figures for
the same period of last year.

The 1923 apple crop of the Okan-
agan Valley will amount to 4,620
cars according to the estimate of
W. T. Hunter, district horticultur-
ist. This is an increase of 20 per
cent over last year and a record
for the district. The apple crop
for Kootenay and boundary dis-
tricts will approximate 380,000
boxes.

A new high record of pro-
duction was established by Cana-
dian newsprint mills during May
with 110,552 tons, an increase
of nearly 10,000 tons over the month
of April and 15,750 over May of
last year. The daily production in
May was 4,084 tons, the highest in
the history of the Canadian indus-
try.

Following the opening of the
Banff-Windermere Motor Highway,
Lieutenant Governor Nichol of
British Columbia and Randolph
Bruce were honored by the Koot-
enay Indians who made them an
honorary chief and full chieftain
of their tribe respectively. The In-
dian celebrations were held at In-
vermere in the beautiful Windermere
Valley.

Several new air stations are to be
opened in Ontario and Quebec in
the near future for the purpose of
extending the forest area to be pat-
rolled by airplanes. A base is to
be established at Ramsay Lake near
Sudbury, and from this point all
Ontario work will radiate; opera-
tions being carried on at Orient
Bay, Kem Lake and at least two
other substations not yet announced.

If the Canadian pre-war exports
of flour are considered as 100, the
Dominion's average export total
between 1921 and 1923 can be con-
sidered as 207. Comparatively,
pre-war exports of the United
States being rated at 100, its present
export is at the rate of 147.
This indicates that Canada has
more than doubled her export trade
in flour while the United States
has increased its trade by 47 per
cent. Before the war Canada ex-
ported 3,832,000 barrels, while at
present her exports average 7,885,
000 barrels a year.—Journal of
Commerce.

Mr. Georges Delrue, one of the
most important personages of
France arrived in Montreal by the
S.S. "Minnesota" to take up resi-
dence at St. Johns, Que. Georges
is two and a half years old and has
spent most of his life with his grand
parents in Tourcoin, a small town
on the border line of Belgium and
France. The journey from the old
homestead, via Antwerp, Georges
made alone but never out of sight
of the watchful eyes of the officials
and servants of the company.

Major General Lord Lovett, a
passenger on the Canadian Pacific
liner "Montcalm," and delegate to
the British Empire Forestry Con-
ference, Ottawa, said in connection
with his investigations into Cana-
dian forestry methods and applied
science, "England has but a small
forest area in comparison to Cana-
da, nevertheless, her forests were
depleted two-thirds to meet the
"emergencies of the War, and now
we are determined to recover this
loss by practical reforestation. We
have been working at this for the
last three years and expect to make
a completion of our work in an-
other year."

general political situation. He
urged on the Premier the necessity
for retrenchment, a balanced bud-
get, fiscal reform, a representative
at Washington, changes in electoral
system and the re-organization of
the government necessary to carry
out these policies.

A Message from a Woman who Loves to Bake

"In Baking good things for my family such
as Bread, Rolls and Buns, I have found a
vast difference in flours.
"In the Raisin Bread Baking contests I
noticed that the prize winning loaf was in
every case made with one flour
—Robin Hood.
"I tried it, found it dependable and
easy to bake with and now my bakings
are always even in texture, light and
flaky, and I require less flour to the
"baking."

To practice Economy and Bake
Better Bread always use

FLOUR

A Word for the Under-Privileged Boy

THE Rotary Club of Montreal,
like its sister organizations
throughout the continent, is an effi-
cient and effective organization
working for the good of the commu-
nity in which it exists. It has par-
ticularly devoted its attention to
work among the class of boys that
fall under the term "under-privileg-
ed." In every great city there are
thousands of such lads facing life
under grievous handicaps imposed
by poverty, or by the more dreadful
combination of poverty and such
physical or moral surroundings as
would be a menace to the strongest.
The task of brightening the lives
of these lads and of giving them a
fair chance to become good citizens
is a grateful one, and the Rotary
Club of Montreal has done a splendid
work in this connection. It has
interested itself in a very practical
way in the Boys Home at Shawbridge
in the Laurentian Mountains, and has
done a great deal for boys through-
out the city and district.

The Shawbridge Boys Home is the
particular care of E. W. Beatty,
President of the Canadian Pacific
Railway, who is also president of
the Home. He has always taken a
great interest in the under-privileg-
ed boy, and it was natural, when the
Rotary Clubs held their convention
in Montreal recently, that he should
be asked to address them on that
phase of their work.

"Perhaps the saddest thing in the
world," said Mr. Beatty, "is the sub-
normal boy, or one whose standard
of health is low, and no work is
greater or more inspiring than that
which helps to place the handicapped
boy where he can face the world on
fairly equal terms with the more
fortunate."
Mr. Beatty went on to quote an
eminent English educationalist who,
although not prejudiced against
parents as a class, stated with truth
that many parents are not appreci-
ative of the problems of their
children, and, not being capable of
grappling with their difficulties, do
not supply the inspiration that tends
to make them the kind of citizens
they should grow up to be. "The

best educated man is the man who
has a knowledge of living through
contact with those whose problems
he shares and whose conditions he
understands.... I presume there is
no more effectual means of stimula-
ting the interest of a boy than the
careers and achievements of men of
whom he has heard but of whose
personal qualities he knows
nothing", and the speaker deplored
the fact that biographies and other
stories which might influence the
boy for good are so written that the
human side is left out. He added
that the boy "must be taught that
the great personal freedom we
enjoy under our form of democracy
carries with it the responsibility of
being and doing our very best. He
must learn that there is no virtue
without temptation and that the
sacredness of righteousness is large-
ly constituted in the effect of the
individual or nation to attain it."
"This," he said, "is not a work that
can be initiated by parliament or
made effective by legislation. It
requires the personal interest and
the friendly contact of the man who
can compel the respect and regard
of the boy."
