TEACHERS' SALARIES.

Woodstock Sentinel-Review... That Woodstock is so near the foot of the list in the matter of public school salaries cannot be a source of pride to any of us. But it is not merely a question of sentiment. It is a question of efficiency as well. We cannot expect to keep up our end in competition with other places unless we are willing to pay the price. The tendency of the best teachers will be to go where the rewards are the greatest.

A PROBLEM

St. John Telegraph... Further delay in bringing down the Budget is now predicted, and it is expected that negotiations will be continued behind the scenes with the idea of ascertaining whether a sufficient number of Liberal Unionists can be retained through tariff concessions to allow the Government to carry on. Uncertainty as to coming events appears to grow in Ottawa as Budget day approaches. The Government does not want an election, and the Liberal party appears not anxious to have one; but the difficulties attending compromise and the state of popular

opinion in regard to the tariff may render an appeal to the people unavoidable before another session.

HOMER

On the closing day of the Easter holidays a very interesting exhibit of the pupils' work was given at the school here. A large number of parents and friends was present.

The newly formed parents and teacher association is very much appreciated in this section and cannot fail to increase the interest of the parents in the work of the school.

We are glad to learn that Rev. Mr. Honey is recovering rapidly from his serious operation.

The annual meeting of the Bible Society will be held in the Methodist Church next Thursday. The illustrated lecture given on that occasion by Rev. Mr. Hassard will be very interesting.

The reports given at the Vestry meeting of St. George's Church were very encouraging. The congregation besides paying off the whole of the \$2,000 mortgage during the year, have wiped off a deficit from 1918 in the current account and replaced it by a considerable balance. Mr. John Secord and Mr. Elmer Cudney were elected wardens, Mr. Lampard treasurer, and Mr. Norman Counsell lay delegate.

The young people of St. George's Church are busy practising for an entertainment which they expect to give in the near future.

An event of importance in the history of our neighborhood will be the consecration of St. George's Church by the Bishop. This will take place at half-past three next Sunday afternoon. The Rev. Canon Broughall, of St. Catharines, will be the special preacher.

Mrs. Allan recently presented a beautiful stained glass window to St. George's Church in memory of her husband. It was unveiled and dedicated on Easter Day.

CARPENTERS SILENT

Just what action the members of the local Carpenters Union will take on May 1st is doubtful but it is rumored that they will ask an increase in wages and a shorter working day.

A Journal reporter tried to verify this report this morning but although a number of carpenters were asked as to whether there was any truth in the rumor or not none of them would make any statement either way.

At meetings of the council each member of the League represented on the council shall have one vote, and may have not more than one representative.

(This embodies that part of the original article three designating the original members of the council. The paragraph providing for increase in the membership of the council is new.)

ARTICLE FIVE

Except where otherwise expressly provided in this covenant, decisions at any meeting of the assembly or of the council shall require the agreement of a fall the members of the League represented at the meeting.

The first meeting of the assembly and the first meeting of the council shall be summoned by the President of the United States of America.

(The first paragraph requiring unanimous agreement in both assembly and council except where otherwise provided is new. The other two paragraphs originally were included in article four.)

ARTICLE SIX

enforcement by common action of international obligations.

The council, taking account of the geographical situation and circumstances of each state, shall formulate plans for such reduction for the consideration and action for the several Governments.

Such plans shall be subject to reconsideration and revision at least every ten years.

After these plans shall have been adopted by the several Governments, limits of armaments therein fixed shall not be exceeded without the concurrence of the council.

The members of the League agree that the manufacture by private enterprise of munitions and implements of war is open to grave objections. The council shall advise how the evil effects attendant upon such manufacture can be prevented, due regard being had to the necessities of those members of the League which are not able to manufacture the munitions and implements of war necessary for their safety.

The members of the League undertake to interchange full and frank information as to the scale of their armaments, their military and naval programmes and the condition of such of their industries as are adaptable to warlike purposes.

(This covers the ground of original article eight, but is rewritten to make it clearer that armament reduction plans must be adopted by the nations affected before they become effective.)

ARTICLE NINE

A permanent commission shall be constituted to advise the council on the execution of the provisions of articles one and eight and on military and naval questions generally. (Unchanged except for the insertion of the words "article one.")

ARTICLE TEN

The members of the League undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the League. In case of any such aggression or in case of any threat or danger of such aggression, the council shall advise upon the means by which this obligation shall be fulfilled. (Virtually unchanged.)

ARTICLE ELEVEN

Any war or threat of war, whether immediately affecting any of the members of the League or not, is hereby declared a matter of concern to the whole League, and the League shall take any action that may be deemed wise and effectual to safeguard the peace of nations. In case any such emergency should arise, the secretary-general shall, on the request of any member of the League, forthwith summon a meeting of the council.

It is also declared to be the fundamental right of each member of the League to bring to the attention of the assembly or of the council any circumstances whatever affecting international relations which threaten to disturb either the peace or the good understanding between nations upon which peace depends.

(In the original it was provided that the "high contracting parties reserve the right to take any action," etc., where the revised draft reads, "The League shall take any action.")

ARTICLE TWELVE

The members of the League agree that if there should arise between them any dispute likely to lead to a rupture, they will submit the matter

The cleanliness of the sealed package appeals to the daintiness of a woman.

She knows that it protects the contents from dust, dirt, odors and moisture.

She will be doubly pleased with our new waxed board package—which we have adopted after several years of testing—because it is stronger, more secure and more completely air-tight; altogether the best container for tea that has yet been devised.

Human Electricity

The brain corresponds to the electric dynamo from which mental impulses or the human electrical current is constantly being propelled to every tissue cell in man the distribution of nerves to all organs and tissues have their origin in the brain, if there is a normal flow of mental current expressed in function this is health.

If one or more of the bones in the spinal column is subluxated or forced out of normal position by some concussion of external forces either by a blow, fall or strain, pressure on the nerve emitting at this displacement will shut off the life force thus causing disease.

Come and have a talk; let us explain. Consultation and spinal analysis free.
