Toronto University could no longer be continued
a mere nursery of sectarianism, a rival institution must be created; to accomplish this object.
Dr. Strachan set to work with his small energy.
Shameless fictions about the "infidel" character
of the Toronto University, on its present footing,
were invented, and circulated through the extensive and efficient machinery of a clerical club,
known as the "Church Society." Money began to pour in for the purpose of creating a fund
for the support of a new sectarian University,
according to the principles of Dr. Strachan's
present profession of faith: which he has tound to
pay much better than his cast-off Presbyterianism. The Church newspaper blasphemously declared, in a very solemn way, that the contribertions to the "Church University" fund formed a
