What the Voters Say.

Upon my word of honour, said a voter from the town.

The end of this October will be a time of great renown.

I will see the great Sir Robert back to power once again.

Then Newfoundland for Newfoundlanders will his policy contain.

Upon my word of honour, said a voter from the town.

But you see the Tory candidates down here the other day?

They were led by Mr. Howley, "Pullett" is his other name.

I wonder that he is abroad while there's a scarcity of game.

Upon my word of honour, said a voter from the town.

Through the States of North America 'tis been my lot to rove.

I've seen many politicians, the small as well as large.

But I've never seen a worse one than the man they call "de barge".

Upon my word of honour, said a voter from the town.

I saw that young man Higgins in his office bright and gay.

I wonder just what brought him there, there's something in the wind.

But I am for the Liberals, my faith to them is joined.

Upon my word of honour, said a voter from the town.

Do you notice the proportions of that immense stock pile.

If you do then it will serve you to learn to some extent for your right.

Of the Kent, Ryan, Dwyer ballots that we'll pile up over here.

Upon my word of honour, said a voter from the town.

In all the eastern settlements we're booming Liberal stock.

We might be sitting in our homes and not bothering if we choose.

For we know we have the district for "BOND CAN'T LOSE!" B. B. B.

A WELL-KNOWN MAN.

MINARD'S LINIMENT CO., Limited.

Dear Sirs—We can recommend your MINARD'S LINIMENT for Rheumatism and Sprains, as I have used it for both with excellent results.

obile Man"

Will You Vote?

Will you vote for "Wiggles" Higgins, Who is after place and greed? A pawn, as every voter knows Is run by Mr. Reid.

Will you vote for "Pullett" Howley Who from Placentia "ran"? Afraid to face the music, For he knew his day was done.

Will you vote for Harry Bartlett, A tool for the other two? Will you vote for Graball Tories Or to the Liberals be true?

Won't you vote for Kent, the noble And the honest, and the brave, Who fights against the Tories Your dear fatherland to save?

From the grasp of Tory Graballs, From the lust of Tory greed; Like Morris and his henchmen, Who once sold your land to Reid.

Won't you vote for Kent, the valiant Who has always borne your view; And you'll vote for Dwyer and Ryan, For Sir Robert Bond "Can't Lose!"

CHICAGO MURDERER

Confesses to killing 16 people at various times.

After being arrested for murder of a Tango teacher.

The police began their gruesome investigation of the almost unparalleled confession recently of Henry Spencer that he is the murderer of sixteen persons.

Following his arrest recently for the murder of Mrs. Mildred Allison Roxroat, the Tango instructor, at Wheaton, Illinois, a week ago, which was made at the home of a woman who had notified the police of his coming, detectives went to Spencer's room where they found the rattle gun case which the Tango teacher had taken with her on her fatal trip to Wayne. She was lured there on the pretext that she was to instruct a class in the dance. In it was part of her clothing and not far away the revolver with which Spencer ended her life.

Spencer, in his confession, has asserted that he had sent the following to their graves, and told repeatedly the manner of their going:

One of two farmers shot near Zion City, Ill., in the Spring of 1903. Peter Niedermeier, one of the car-barn hands, who afterwards was hanged, killed the other he said. Obtained \$560.

Policeman Timothy Devron and Charles Pennell shot in August, 1902, when they surprised Spencer and a man named Murphy breaking into a house. Murphy now dead.

Fannie Thompson, body found January 1, 1908, gagged and bound in bed in Michigan Avenue rooming house. Robbed of diamonds worth \$12,000.

Former wife, at Belle Isle, Mich., beaten to death and body burned.

Former New York widow, name forgotten.

Former wife, near Fort Montgomery, N.Y., beaten to death in house. Robbed of \$300 and diamonds worth \$500. Former maid to Helen Gould.

Aged man in Washington Park last spring, shot and body thrown in lake. Got \$200 in cash.

Two girls at Paw Lake, Michigan, in May or June. Beaten, and bodies thrown in water.

Girl at Delavan Lake, Wis., in June. Killed with hammer and body thrown in lake.

Woman in house Notre Country Hospital; used hammer and burned clothes. Got \$140 and rings.

Woman in house at Fulton and Halsted streets about eight months ago. Used hammer and burned clothing. Robbed house.

Saloon keeper on Van Buren street, near Aberdeen, shot man and wounded wife while robbing saloon.

Man shot and killed in alley under south side elevated railroad about a year ago.

Mrs. Mildred Allison, Roxroat, shot near Wayne, Sept. 25, and body placed on railroad track.

Ida Oliver, killed with hammer Nov. 9, 1912. Body thrown into drainage canal and recovered May 29.

The man who claims this almost unbelievable record is a Chicago product. He does not know his real name and first he remembers he was in the home for the Friendless, located within a block of the scene of his arrest last night. He has spent half of his 32 years in the State Penitentiary at Joliet. He was sentenced twice for wholesale robbery and was returned twice following violation of paroles.

He is shot, weighs about 145 pounds, wears glasses and has the appearance of a clerk, whose life has known little excitement. He has been a devout worshipper at the prayer meetings of the Immanuel Baptist Church, and attended the wedding of his pastor's daughter three nights before he accompanied Mrs. Roxroat down a lonely stretch of railroad track near Wayne, grasped her by the neck and placed a revolver to her head.

Twice Proven Cure for Nerves

Irritable, Hysterical, Sleepless, Dr. Chase's Nerve Food Restores Health.

There is a message in this letter for thousands of women who are suffering from broken-down nervous systems. Sleepless nights, much irritability over little things, spells of dizziness and nervous sick headaches are among the symptoms.

You must realize the nature of your ailment until nervous prostration comes upon you. But in whatever stage you find yourself, Dr. Chase's Nerve Food is ready to help you.

Mrs. W. J. May, 38 Annette street, Toronto, writes: "Some years ago I suffered from nervous trouble, and took Dr. Chase's Nerve Food, which completely cured me. About six months ago I received a shock which again shattered my nervous system to such an extent that I was irritable and hysterical, and could not sleep nights. I began to use the Nerve Food again and was not disappointed. Improvement was apparent from the first box, and now I am entirely well."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers.

The Quickest, Simplest Cough Cure

Easily and Cheaply Made at Home. Saves You \$2.

This recipe makes 16 ounces of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, croup, sore lungs, asthma, throat troubles, etc.

Mix two cups of granulated sugar with one cup of warm water and stir for two minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a 16-ounce bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two, or three hours.

There is one of the oldest and best-known remedial agents for the throat membrane, a compound of Norway white pine extract, and is rich in galeol and all the other natural, healing elements. Other preparations will not work in this formula.

The prompt results from this recipe have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully. A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pine Co., Toronto, Ont.

Grimes All Right

Special to Evening Telegram.

CLARKE'S BEACH, Last Night.

Warren's supporters are sick to day, and admit his defeat, as several places which they thought solid gave Grimes splendid receptions. At a meeting held in the school house in North River last evening, Patrick Morrissey presided. Grimes spoke for nearly two hours amidst great enthusiasm. When the meeting closed, the cheers that rang through the building for Coaker, Bond and Grimes showed that the people are determined to stand by the Liberal-Union Party and Clean Government. Conservative estimate give Grimes two hundred majority.

Stafford's Liniment is the kind of a Liniment you should always have in your home. For sale by N. Coady, Flower Hill—oct22,tf

Tobacco.

Tobacco is a weed which is raised at great care and expense in the night-riding portions of the United States and elsewhere, and is totally consumed by fire later on, there being no insurance.

In fact, three-quarters of the arson in the world is committed upon tobacco. Every day a \$1,000,000 of tobacco goes up in smoke, and yet no effort is made to treat it with asbestos or to make it fireproof in any particular.

Many substitutes for tobacco are often used, such as rope, cabbage, excelsior, tar paper, jute bagging and twine, but unfortunately the substitutes burn as readily as the tobacco.

In fact, this is even more unfortunate than the inflammability of tobacco itself.

Tobacco is grown in the warm sunshine and consists of large bunches of flat, broad leaves which absorb the said sunshine and convert it into nicotine, a deadly poison which is said to kill a man at forty paces if it is cured to. When the tobacco is ripe it is chopped off and dried in bunnets, after which it is made into cigars, torches, fumigators, plug cut, cigarettes, snuff and other contagious articles.

Tobacco was first used by the Indians and was discovered by Sir Walter Raleigh, who made seagulls out of it and used them to divert his mind from his sickness on his way back to England. When Sir Walter lighted up his first cigar in England and set off blowing double rings of dense smoke through his mouth and nose and ears his servant threw a pail of water over him and called out the fire department. This method of breaking the cigar habit is not in vogue to-day.

Tobacco can be smoked, chewed, inhaled or eaten with equally distressing effects upon those who do not use it. Most boys begin the use of tobacco at the age of ten and continue until their fathers discover the fact—after which they discontinue the custom until they are too large to thrash. Tobacco readily becomes a habit and fastens talons of steel upon its victims, who will sometimes sell their vote or their everlasting friendship for a good cigar.

There are many kinds of tobacco. Some kinds will remove the lining of the throat neatly in a few minutes, while other kinds cost a king's ransom and smoke like rarified velvet. Some tobacco when smoked, will attract the attention of the health department four blocks away, while other kinds when made into cigars sell for \$1 apiece, and make kings contented with their jobs.

The United States could save a million dollars a day by refraining from tobacco. This would be glorious if we could be convinced that the million would not be spent for gasoline or cabaret dinners.
