RESTRICTIONS ON IMPORTS.
LONDON, Feb. 19. Andrew Bonar Law, Chancellor of the Exchequer, stated in the House of Commons this afternoon that the British Government has decided upon very drastic restrictions on imports. The new measures, he added, would effect the Allies of Britain and the British Dominions. The statement regarding the steps to be taken, he said, would be made on Thursday. This statement was to have been made by Premier Lloyd George to-day, but the delivery of his speech was postponed because of the unexpected delay in the completion of the necessary negotiations with the Dominions, Allies and neutral countries.

BRITISH GAINS.
NEW YORK, Feb. 19. With the British Armies in the field. The German army of Crown Prince Rupprecht received several sharp raps on the knuckles during the last thirty-six hours, following Saturday's engagement in the Miraumont region, the British having advanced further and this despite fogs, the thawing of frozen ground, and the resultant seas of mud. Officers are quite satisfied with the result. They asserted to-day the British lines now overlook Miraumont at several points. Violent counter attacks by Germans north of the Ancre yesterday at noon were bloodily repulsed. North of Armentieres British raiders penetrated 250 yards into the German second line of trenches killing 69 men. Many dugouts were cleaned out by bombs. Other minor raids yesterday and last night were also successful.

THE NEW LOAN.
LONDON, Feb. 19. "I am glad, however, the Chancellor said to be able to say the loan succeeded to a greater extent than I expected, but not greater than I hoped. I hope what I have just said will not encourage exaggerated estimates which might create that strange condition which I consider the amazing financial efforts of this country might be minimized when the actual figures are known. When I was asked what amount of money I considered necessary to make the loan a success, I stated a figure which was larger than I expected, but not than I hoped."

That figure was six hundred million pounds. Without taking into account the direct contributions from the banks which it is desirable to avoid that figure already has been exceeded. The excess certainly will amount to one hundred million pounds.

NEW BRITISH DEVICE.
NEW YORK, Feb. 19. An Associated Press despatch from Baltimore to-day says the Donaldson Liner Lakonia from Glasgow, provided with a new smoke device of the British Admiralty to render shipping immune from submarine attacks, arrived at this port yesterday. The ship also carried a three inch gun, mounted astern, and several trained gunners to man it. According to one of the gunners to-day the new device was perfected by British chemists and scientists and can generate enough smoke in several minutes to mask the vessel from the enemy's view for several hours. The Lakonia encountered no enemy craft on the trip to this port, but she was twice chased for several hours on her last outward bound voyage, first by a German ship thought to have been the commerce raider Vineta, and again by a submarine in the Bay of Biscay. The Lakonia escaped both times by superior speed.

IN MESOPOTAMIA.
LONDON, Feb. 19. British troops on the left bank of the Tigris river in Iraq took the offensive on Saturday afternoon against the Turkish positions at Sannayat, says the British official statement issued to-day. They occupied two Turkish front lines on a frontage of 350 yards and 540 yards respectively. The Turks launched two heavy counter attacks and forced back the British right wing to the original line. The British left wing repulsed the Turkish counter attack, but when night came the troops were withdrawn from their newly-won positions. On the south bank of the Tigris, west of Shumran Bend, further progress has been made.

GERARD ATTACKED.
AMSTERDAM, Feb. 19. Count von Reventlow, devotes a leading editorial in the Berlin Tages Zeitung to-day to an attack on former American Ambassador Gerard, whom he accuses of having used his official position deliberately, to transmit important war information to the Entente by way of America. "Many incidents," he writes, "have continually pointed to the theory that the uncontrolled cables service and letter service to the United States permitted to the American Embassy has also been an uncontrolled method of communication with London and Paris."

This was best illustrated in the events which led up to the capture and execution of Sir Roger Casement. Thus London learned in good time of the enterprise to the Irish coast and his capture followed. American Ambassador Gerard and his personnel were the ones who delivered the honorable Irishman to the hangman. An attack in a morning newspaper is appended, and the article closes with an expression of hearty thankfulness that Gerard has left Berlin.

PROGRESS BY MEXICAL'S FORCES.
WASHINGTON, Feb. 19. Reports of progress by President Menocal's forces against the insurgent forces in Cuba increased the hopes of administration officials to-day that peace may be re-established on the Island without American intervention. It has been made plain that the full moral support of the United States government will be given to Menocal in administration circles it was said late to-day that no additional steps were in contemplation for the present.

SUB. PRISONERS AT COPENHAGEN.
LONDON, Feb. 19. Capt. Jacobsen, of the Norwegian ship Thor II, with his wife and daughter were taken aboard a German submarine after the sinking of his vessel two weeks ago, arrived at Copenhagen to-day, says a despatch from the Danish capital to the Exchange Telegraph Co. The captain and his family spent eight days on board the submarine. In the course of that time the U-boat sank two British steamers and a trawler. One of the steamers, according to the captain was loaded with ammunition. As it was sunk without warning, the explosion was both so sudden and violent that the submarine was severely injured.

WAR OFFICE ANNOUNCEMENT.
PARIS, Feb. 19. The following announcement was made by the war office to-day: "Patrols were active in the regions of Barnhauptledaut. The night was calm elsewhere." On Saturday night a Zeppelin flew over the French coast in the department of Pas de Calais as far as the environs of Boulogne and dropped a number of bombs without result.

LAST WEEK OF CONGRESS.
WASHINGTON, Feb. 19. Congress to-day started the last week of the session with the general legislative situation somewhat as follows: In the Senate the Espionage and Anti-Conspiracy Bill was up for final action. Next the Revenue Bill and Naval Bill carrying \$553,000,000 will be pushed. Most of the legisla-

tive congestion exists in the Senate. In the House the Danish West Indies Bill was up for passage to-day and the Army Bill carrying \$27,000,000 probably will be passed to-morrow and sent to Senate. Other measures which are to be pressed in the House immediately, according to present plans, are the sundry civil and general deficiency appropriation bills and the military academy bill.

SUCCESSFUL RAID.
LONDON, Feb. 19. We carried out a successful raid this morning east of Souchez, says the official report from British headquarters in France to-night. A hostile mine shaft was blown up and several occupied dugouts destroyed. We took a few prisoners. Beyond the usual artillery activity on both sides there is nothing further to report.

MEXICO.
MEXICO CITY, Feb. 19. The Government of Ecuador, according to reports received here, has proposed to Latin-American countries that a meeting be held at Montevideo to decide on an answer to the Mexican note proposing cessation of shipments of supplies to European belligerents.

PART CARGO CONFISCATED.
LONDON, Feb. 19. A despatch from Amsterdam states that the Hamburg Prize Court has confiscated as contraband half the cargo of the Dutch steamer Batavier II, captured by a German submarine while bound from Rotterdam to London last September.

U-BOAT REPORTED SUNK.
NEW YORK, Feb. 19. In a 40-minute battle between a German U-boat and the French line steamer Guyane, off the coast of France, Jan. 22, the submarine was sunk, according to officers of the freighter which arrived here to-day from Bordeaux.

CANADIAN WHEAT CROP.
OTTAWA, Feb. 19. The latest Government figures place the Canadian wheat crop at 220,000,000 bushels, or 45 millions higher than the original estimate.

CREW MISSING.
LONDON, Feb. 19. Eleven of the crew of the British steamer Romsdalen, reported sunk yesterday, are missing.

INDIA'S RESOURCES.
LONDON, Feb. 19. (Via Renter's Ottawa Agency.)—A special despatch from Delhi says it is anticipated that the operations of the new department formed un-

THE FAIR. The C. L. March Co., Ltd. Cor. Water & Springdale Sts.

der Sir Thomas Pelland, the great authority on Indian industries, to mobilize the industrial and national resources of India, will greatly increase the present output of munitions and war equipment. Gifts from Indian Princes and communities continue to flow in a generous stream. The Maharaja Bikanar has raised three extra companies of Camel Corps. The Government has intimated that the export of food stuffs, except essential commodities from the United Kingdom to India, will shortly be prohibited. The railway services of India have been greatly curtailed in order to save the wearing of rolling stock. Coal economies are being practiced by the state, by the Viceroy and by all private individuals; indeed the absence of extravagance in domestic life is becoming a marked feature.

THE SUBMARINE CAMPAIGN.
BALTIMORE, Feb. 19. Lord Marmaduke Furness, Earl of Granley, and head of the Furness Withy Line of steamers, on an inspection trip to the Baltimore shipping terminals to-day, declared that Germany's new submarine policy is having no more effect upon English shipping than her old policy had. Onrown line, he said, has lost thirty five ships during the war, but we are replacing them two to one. When the war is over our facilities will have more than doubled. He said the war would never finish until the Allies had achieved victory. The Allied Powers had fully agreed upon that. Fifty per cent. of his ships, he said, had been requisitioned by the British Government for Secret Service work and for food and troops transportation.

HITT AND RUNN—This is An Iron Bound, Copper Riveted Cinch—Everything Is Furnished, Even to the Undertaking!

AND FOR ONE DOLLAR DOWN AND ONE WEEK YOU'LL FURNISH EVERYTHING—?
FROM DOORMAT TO SKYLIGHT
AND A MAHOGANY CHIFFONADE AND BIRDSENE DRESSER AND SUCH?
UH-HUH! AND A BATH MAT AND FLOOR MOP
BUT OH SIR—IF FATE BEFELL ME AND I PASS AWAY BEFORE ALL PAYMENTS IS SETTLED?
THEN—WE FURNISH YOU AN EMPTY BOX AND AN EMPTY LOT TO PUT IT

...soot to wipe away; no more smart away; no more wood to clean up; no more coal dust; no more reason why the draught may be, clouds of dust and settle on the furniture.
Eliminates Hard Work.
This range and you will live better and you will live better because the use of this range eliminates the drudgery of cleaning up the stove, the coal, ashes and the chopping, as well as the cleaning up a lot of dirt. All for the cook it makes necessary for her to stand over from two to three hours
