It will pecause he was also the agent make the steamer as safe as the rail-

The compass stations are being placed at all points along the U.S. coast, at the entrances of important harbours, and elsewhere. The stations will pick up by wireless the signals from ships desirous of knowing their bearings, and by comparing notes on the strength, direction and characteristics of the call, they will quickly be able to send back the exact direction and distance of the ship from the station. The direction on being charted shows the precise location of the vessel, and she can pick up the location of her port or correct her reckonings.

Greater in importance is the U. S Navy's system for guiding ships safely through foggy, stormy, or wind-ing channels. The inventor of it works along lines rather after those devised by the British Admiralty in the last years of the war.

The guiding of a ship in fog or dirty weather can be effected by means of a cable, a coil of wire and ill has always been the prothe Imperial Government cable lies approximately down the centre of the ch non on the Fort Point." Oh, how sweet and clean is the hair - what a delicate fragrance lingers - how invigorated is the scalp. all the dullness and fatigue gone - and what a sense of comfort and restfulness throughout - for there is no soap so satisfying for a shampoo as the pure, hygienic

Golden Transparent

TT is well known that most women dislike to shampoo their own hair. With ordinary soaps it is such a task to work up a lather, while it is even harder to rinse the sticky, greasy, undissolved soap from the hair. And the free caustics in many cheap soaps and shampoo powders bite into the scalp and injure the hair.

But a shampoo with JAP ROSE—the golden transparent soap—is ease and luxury itself. Just moisten the hair and scalp and dip the pure, golden transparent cake in the water. Then just a very little rubbing, and almost instantly, thousands of pure, pearly bubbles cleanse hygienically every strand of the hair—every pore of the skin. The oil and dust and dirt are cut out and removed as by magic, without the slightest injury to the hair or scalp. After that, a dash or two of water, and the hair is left perfectly clean, and healthy and fluffy.

For, even in cold, hard water JAP ROSE is quickly and absolutely soluble. There being no sediment, the bubbles are easily and completely washed away.

Made of pure oils of the finest grade and chemically pure glycerine, all scientifically blended by experts, JAP ROSE soap is not only pleasant and easy to use, but is also soothing and beneficial to the hair and skin

Try a shampoo with JAP ROSE soap today! Roses in the cheeks, fluffiness in the hair, fragrant cleanliness everywhere — that's JAP ROSE You'll Like It!
