Lord Cecil had to be content. If the world knew of Lady Gladys' engagement to him, it would keep other suitors away when the family went to town.

Coronation of George IV.

The ceremony in Westminister IV. on July 19, 1821, lasted from eleven o'clock to four, and was suceeded by a still more splendid display in Westminister Hall, which wore a new aspect. Two tiers of galleries, supported by twenty iron pillars, were crowded by the fortunate persons admitted to witness the spectacle. Six dinner tables, each fifty-six feet long, accompdated the numerous guests who had the honour of being bidden to the banquet. Iwenty-eight magnificent lustres, each containing sixty wax candles, were suspended by chains of gold from the roof. The King's throne was placed immediately under the south window of the Hall, and six gilt gothic elbowchairs were prepared for the other members of the Royal Family. The first course was ushered in with a magnificent procession, in which Lord Howard, of Effingham as Deputy Earl Marshal, the Duke of Wellington as Lord High Constable, and Lord Anglesea, as Lord High Steward, rode on horseback. The course being served, the entrance was again cleared. and young Dymoke, hereditary Champion of England, mounted on a horse corrowed from Astley's Theatre, rode into the Hall, threw down his gauntlet, and delivered his challenge. These and other ceremonies being completed, the company proceeded to the discussion of the princely banquet which had been served up to them. One hundred and sixty tureens of soup, one hundred and sixty dishes of fish, one hundred and sixty hot joints. and more than three thousand other dishes had been prepared for the company, while more than eight hundred dozens of wine and one hundred gallons of punch were provided at

the magnificent feast. At night time London was ablaze with brilliant illuminations; fireworks were displayed in all the parks, and fireballoons cast additional brightness on the versal revel, in which, it is computed, five hundred thousand people shar ed in some way or another; and
