

House of
Assembly Proceedings

The House met at 3 o'clock.

His Honor the Speaker informed the House that he had received a communication from his Excellency the Governor that he would receive the Address in Reply presently. The Speaker therefore left the Chair and with the members proceeded to Government House, and the Address in Reply was presented. Returning to the House the following business was proceeded with:—

Committee on Ways and Means was deferred.

Several members gave notices of questions.

ANSWERS TO QUESTIONS.

Mr. Brown asked Hon. the Prime Minister if the Government has begun negotiations with any person or persons regarding the sale or operation of the Newfoundland Railroad, also if he personally, or the Government, has been approached by any person, or persons, with a view to opening negotiations along these lines.

The Prime Minister in reply stated that the answer to the whole of the question was in the negative.

Mr. Warren asked Hon. the Minister of Posts and Telegraphs how many motor boats are to do the work of the When in Fortune Bay, Hermitage Bay and Bay d'Espoir, if any of these motor boats have already taken up the service, what amount is being paid them or to be paid them, and to lay upon the table of the House a copy of the notices or letters asking for tenders for the services.

In the absence of the Minister of Posts and Telegraphs through illness, the Prime Minister tabled the following reply:—On July 17th the Postmistress was instructed by wire "Ask tenders for Mail Service Garinish round to Belleoram after Portia arrives from St. John's. Also ask offers for motor boat Belleoram to Mr. Breton calling at all offices, Sagana and Brunette included."

In reply the postmistress stated an offer had been received for the Garinish route, or Fortune Bay proper, at \$75.00 per trip, and the Department has received an offer for the Belleoram-Hermitage route at \$60.00 per trip. There is already a motor ferry starting from Gaultois serving all offices in Bay d'Espoir and mails will be sent by that conveyance. At 25 monthly trips cost would be \$3,500.

Mr. Hickman asked Hon. the Minister of Justice if any inquiry is being held into the circumstances surrounding the accident at Wabana, in which Robert Yetman of Bryant's Cove lost his life and other workmen were injured. Will there be a report before the close of this session?

In reply the Minister of Justice stated two enquiries were proceeding, one by the Government Engineer, the other by the Registrar Magisterial Enquiry. He hoped to have both reports before the session closed.

Mr. Grimes asked the Minister of Public Works if any new appointments have been made in connection with his Department since he assumed office or are in contemplation of being made, and if so, what are the reasons therefor?

The Minister of Public Works stated in reply that only one new appointment had been made, that of Mr. Penney to the caretakerhip of the Post Office at Carboneau, in place of Mr. B. Quinn.

The Speaker reported that he had received the names of the Internal Economy Commission for this session and read the following names to the House:—The President of the Legislative Council, Hon. A. B. Morine and S. Milley, the Speaker of the House of Assembly, the Prime Minister, the Colonial Secretary and the Attorney General.

The House went into Committee on Supply and passed the whole of the remaining votes, rose and reported progress and asked leave to sit again.

Mr. Halford asked about the intention of the Government re the granting of timber licenses by public tender to the highest bidder. He thought the Act would have to be amended to permit of that procedure.

Sir John Crosbie in reply stated that Mr. Halford's contention was right, and the Government contemplated an amendment to the Act so as to enable them to put the new policy into force.

Mr. Halford also brought up the matter of cattle claims of people who had cattle killed on the railway track. He had a large number of such claims from people of Trinity Bay. He was in favour of a clause in the Manitoba Act of Sir Michael Cashin when he went to the country stating that these claims would be handled by the Government and taken out of the bands of the field N.S. Co. Of course now that the railway was owned by the Government he expected to see this policy brought into effect.

The Prime Minister stated that this matter had been engaging the attention of the Government and the conclusion arrived at was that it was a matter for the railway people to deal with and not the Government.

The House then went into Committee on the Printing Bill. Brief comments were made by Messrs. Hibbs, Brown, Hickman and Grimes. They supported the principle of the Bill, but Mr. Hickman protested against the creation of a new Department.

A HOST OF MIGHTY VALUES OFFERED DURING THIS JULY CLEARANCE
