THE CARFTARER.

Mr. Elliott and Mr. Coffee objected to the appointment of Mr. Sharpe by the committee, without the Council being consulted.

The appointment was confirmed after some desultory conversation.

MR. BELL'S RESIGNATION.

Mr. Bell's RESIGNATION.

Mr. Horsman moved the acceptance of Mr. Bell's resignation, as that gentleman had informed him, prior to his departure for Europe, that it was not his intention to sit again in the Council.

Mr. Elliott seconded the motion, which

This matter, brought up by Mr. Richard Mitchell, was laid over.

THE RAILWAY BY LAW

THE RAILWAY BY LAW.

Mr. Hogg, that the report of the Railway Committee, presented in May last, be adopted.—Carried.

The Council adjourned shortly after midnight.

The Diamond Diggings.

The following are extracts from a letter just received by a Guelph resident from one of his relatives who went from Canada to the South African Diamond Canada to the South African Diamond Fields in the fall of 1871. After sinking a large sum in digging for diamonds, with comparatively little success, he went into business as a diamond broker;

and he now writes:

Do Tour's Pan,

Diamond Fields, South Africa,

May 4, 1873.

"Since I wrote I have been doing very

well, in fact making more money than l expected, but my expenses have been very heavy. I have had two or three partners, but have never got one to make as much as I did, so have given that game up. I got a horse, a good one, for which I paid \$100. It costs about \$10 a week to keep. Previous to that, it cost me from \$5 to \$7.50 a week to keep. Previous to that, it cost me from \$5 to \$7.50 a week for each bright to the New Rush. Since the beginning of the year I have made, I reckon, \$1,90 and \$1,00 and my losses have been few. You must know that fael diamonds. I have some times sold \$5,000 worth in a day, but it is not often as large as that. I buy on my own account also when I get the chance, and have done well sometimes, but have made no great shots. I sell anything for anyone on commission, and so manage to rub along. Since I started my expenses have been \$40 awed, never heless I am saving a little and hope to save more. It seems often to me a lot of mony that I make, and spend too, but living is expensive here. Its vastly different to home. Government officials get paid very badly here, but business men all of course come here to make money. In time, if the gold fields turn out well, I shall go up, and start business. Anyhow, if things go on wall here I shall stick hore, simply taking a run down to Capa Town at Christma. There are lots of fellows here wno cannot get a living, and who abuse the place at one of shall shall stick hore, simply taking a run down to Capa Town at Christma. There are lots of fellows here wno cannot get a living, and who abuse the place at one of shall shall shall be ready to the ready of the shall shall be ready to the river, there are digging and others lower down the Vaal river. If purity and the ready of the point of the as much as I did, so have given that game up. I got a horse, a good one, for which I paid \$100. It costs about \$10

DRINKING WATER .- Those reformer who finish their lectures by an exhortaas you choose; it can't hurt you," are Country Gentleman on this subject : ing spirits, ale, cider, coffee and water. The last is thought a necessary, but to drink much is a habit. People who drink in a moderation never perspire as much as those who drink more. The more that is drunk, the more water passes away, or the system would suffer. As it is, the strain affects it. The skin, the kidneys, bowels, and lungs are all drawn app. The result is, as may be expected. exhaustion. For this reason the man who drinks much water, particularly during the summer and in the hottest weather, is less able to endure fatigue. The water is of no benefit to him—that is, the excess. It must pass away, and this requires an effort of the system which is the sweating process. Had he not used the excess of water, he would not have been there for the system to expel. It is a habit to drink water so much; a false thirst is created. We should drink only what is needed. The habit of drinking more will soon be overcome, and the person, will feel much stronger, and more capable of bearing fatigue. In winter, little fluid is needed beyond what our food nourishes; in summer some more, but not much."

BE WISE TO-DAY.—'Tis madness to drink in a moderation never perspire as

BE WISE To-DAY.—'Tis madness to neglect a cough or cold, however slight. Consumption may follow, and though Dr Wistar's Balsam of Wild Cherry has frequently cured this much dreaded disease, it also inversally cures the primary disease of the throat, lungs and chest, where other remedies fail.

Mr. Howard said that the Finance Committee had not sufficient funds in hand for this purpose, and we could damage a little while longer as we were. He objected to supplemental estimates.

Mr. Elliott said it was the unanimous recommendation of the Committee. The stalls were all rented, and dealers were sometimes obliged to obstruct the pathway by putting their stuff on the ground. The expenditure would probably, not reach \$500, but it was better to provide sufficient.

Mr. Chagwick said he was on the committee, but did not know that so large a sum was to be asked.

Mr. Heffernan raised another point—had the Council a right to violate their own by law by erecting wooden buildings within the fire limits?

After some further discussions, the motion was lost.

Mr. Elliott and Mr. Coffse objected to have a lost.

Mr. Elliott and Mr. Coffse objected to correct the Green Pair. Boxwork—saturals pefore Guelph.
