whole story is wildly improbable. THE EXPLORER AT HOME. London, Sept. 10 .- Dr. Nansen, the Arctic explorer, arrived at Christiana, Norway, yesterday afternoon on board his vessel, the Fram, and was given a great national reception. The Fram was met by a small naval squadron, and a fleet of 70 passenger steamers, and escorted up the fjord. All along the shores the buildings and shipping were profusely decorated with flags and bunting, and as the explorer's vessel passed up the cannons of the warships boomed and the crowds gathered along the banks cheered. Dr. Nansen proceeded to the royal palace, where he was given a hearty welcome by King Oscar and the Crown Prince. In the evening a state banquet was given in his honor

THE IRISH CONVENTION. London, Sept. 10.-Mr. John Redmond, in addressing the National League at Dublin denounced the recent Irish convention held in that city as a sham. Not a single Parnellite, he said, was there, while the Healy followers werea bsent. London, Sept. 10 .- A report of an in-Chamberlain, Secretary of State for ferences among trades unionists should the Colonies, who is now in Aemrica, has been cabled and published here, wherein that gentleman says that the statement made in London dispatches, published in the United States, that his recent eulogy of Mr. T. Old Age Pensions for Municipal Employes, and Other Advantages Advocated.

Edinburgh, Sept. 10.-The British Trades Unions Congress today resumed its sessions. The National Union of Gas Workers and General Laborers of Great Britain and Ireland presented the following resolution: "That in the opinion of this congress, where grants of public money are given for educational purposes, there should be also public control; and that our present system of state education, based as it is on commercialism and being out of harmony with the economic forces which are working towards collectivism, does not supply the educational needs of the nation; and therefore it is imperative that our educational system should be com-pletely remodelled on such a basis as to secure the democratic principle of equality of opportunity, and by the introduction into every state school of the best results of educational science to make it possible for English children to obtain such training-physiintellectual and moral-as may tend to make them worthy citizens of a co-operative commonwealth. therefore instruct the Parliamentary committee to urge on the Government the need for introducing an amended resolution.'

After the motion had been amended so as to leave the Parliamentary committee a free hand to deal with future educational proposals, the measure was adopted in substance.

The National Municipal Labor Union ists of the United Kingdom wish their try was the same. He did not desire Parliamentary committee to consider to be disrespectful to the Irishmen in advisability of at once moving the America or elsewhere abroad, but he Government to bring in a bill making denied to them the right to dictate it compulsory for all municipal bodies

in the opinion of this Congress the terview with the Right Hon. Joseph time has arrived when political difcease to be a barrier in uniting us on the one broad platform of the workers' interests in the Imperial Legislature of this country, and we instruct the parliamentary committee to sub-mit the following questions to the

Spain Must Either Conquer or Aban-

don Cuba.

The Rebels Are More Than Holding Their Own.

London, Sept. 10 .- The Times pubishes a lengthy letter from its vana correspondent dealing with the state of affairs in Cuba, in the course

of which he says "Careful study for the past four months convinces me that, despite serious losses, the rebels are holding their own against the troops. The wealthy agricultural districts are completely under rebel control, and the whole sympathy of the islanders is with the rebels. Even Havana, which is more Spanish than any other town or district, is permeated with animosity towards Spanish rule, and is honeycombed with intriguers

on behalf of the rebellion. "It is quite false to call it a color struggle. In the fighting ranks of the insurgents, the proportion is 70 per cent of whites to 30 per cent of ne-

"Another fallacy of the rebel contention is that Spanish misrule originated the rebellion. The crisis in the sugar trade was much more formidable in fomenting the revolt. The struggle is prolonged by the facility with which the insurgents obtain ammunition and stores of all kinds from abroad, and from every town in Cuba. under the noses of the Spanish officails, with impunity, the seizure of contraband being most rare.

"It is now too late to compromise by granting reforms. The Cuban insurgents will now accept full autonomy as the price of yielding their arms. I say this advisedly, after a careful examination of the situation from all points of view. Spain will be com-pelled to conquer or to abandon the island. This irreconcilable attitude of the rebels is largely due to the wholesale execution of the rebels after summary trial. These drastic measures only increase the hatred of Spain without deterring recruits from join-

ing the rebellion.
"Amother reason is the hopeless prospect of any rehabilitation of Cuban credit, while the island is under Spanish dominion. Taxation must be heavily increased to pay the burdens of the war. Hence the people with vested interests prefer the risk and uncertainties of independence coupled with the earnest hope that at no dis tant date Cuba will become a state of the American Union."
