THE WERKLY BRITISH COLONIST.

And Victoria Chronicle.

VICTORIA, VANCOUVER ISLAND. SATURDAY, JULY 18, 1868

try lies off the great routes of trade

and travel; and we may also learn a

lesson from this fact of the growing

necessity for consolidation. From

Sydney via London they heard of the

attempted assassination of Prince Al-

fred on the 12th of March in 64 days.

Yet the news travelled a long route:

by steamer to Port du Galle, Aden and

Alexandria, thence by telegraph to

London and San Francisco, and thence

by sail to Henolulu. The news passed

of the globe, yet reached the Islands

in less time than a sailing vessel could

WEEKLY BRITISH COLONIST PUBLISHED EVERY SATURDAY. HIGGINS, LONG & CO.

seek the charms of Western civili-

zation after centuries of isolation, and

desire participation in its glories and

achievements. For this great change.

destined in the end to work a com-

plete revolution, we must thank Califor-

denying the fact, for it becomes more

and Japan can only be conquered and

revolutionized through the Pacific.

How earnestly then should every Eng-

lishman work to get this Colony con-

nected with Canada, that she may at

once enter upon the greatness of her

brilliant future. It reflects severely

upon our sluggishness that all people

on the Pacific Texcept ourselves are

working in the right direction. Is it

wise or patriotic to stand by with our

hands in pocket and see others no

better off than ourselves, rob us of this

great prize? It was not once so with

Englishmen.-The annihilation of time

illustrated by the Wm. Wilson, which

arrived at Honolulu from Sydney on 16th

ultimo. On the same day they received

intelligence of important events from

distant and widely spread portions of

the globe, showing that those nations

go direct from Sydney .- Earthquakes are quite lively again and causing serious apprehensions of another eruption. One shock occurred on the 4th of May at Hilo, another on the 27th in Sandwich Islands. Kona, said to be equal to the great shock of 2nd April, and by the latter DATES TO THE 12TH JUNE | extensive damage was caused at Kau. The Legislature is still in session It is a great pity we cannot get a good but drawing to its close, without apshaking up. What a world of good a parently doing much of importance, it first-class shock would do us .- The we except one or two things. By last Hon. John Li has met with a severe accounts it was seriously exercised by accident by a fall from his horse, breaks and angrily discussing the propriety ing his collar bone and otherwise seriof the application of the word hoopiously injuring him. He lay for some limean by the Advertiser to some of its time on the roadside, and was only members; and as the charge was supplemented by others, differing in discovered by his horse returning home without him.-The officers and men their degree of offensiveness, the Assembly deemed them altogether of H. M. S. Reindeer gave a grand enworthy of public notice. The discust tertainment at the theatre in behalf of sion took a wide range, because the the Kau Relief Fund, and realized \$200. They afterwards gave a concert insulting terms were supposed to be aimed at the King and to high offi- on board their ship, which was attendcials of friendly governments. The ed by all the elite, and the officers of meaning of the native word is supe the U.S.S. Mohongo, and which is posed to be something of a cross be- also spoken of as a very successful affair. The press speaks in a very tween our own words "tuft-hunter" and "liekspittle." The Assembly, complimentary way of the charitable we should say, is decidedly in favor of disposition and abilities of our Naval going after the Advertiser with a sharp peoplef requenting the Islands.-Horsestick. A very important movement flesh is wonderfully cheap at present is on foot, with good prospects of in Honolulu. Anything in the shape success, of importing Japanese immi- of a horse with four legs is selling at grants. They are to come out under two bits a piece, and being bagged by specific contracts for three years on the tax collectors at four bits each, trial at \$4 a month, with board and under some new law passed by the medicine found, and a free passage to Assembly for taxing horses. - The only Honolulu and back to Japan it de- foreign arrival up to our de manded, on the expiration of the three Kinau, from this port with fish. The years. One hundred and eighty are Gazette has a complimentary notice to come first, and if their report be of the expected arrival of the Favorite, favorable, any number of men and which sailed hence on her first trip a women are prepared to follow on the few days since. It is said such a vessame terms. The authorities and sel is much needed for the Hilo trade. public anticipate great results from these Japanese immigrants. They Friday, July 17. are spoken of as decile, industrious and accustomed to cultivating sugar, rice, cotton, and the staple products of the Islands. How the world progresses. A few years ago it was unavoidable death for a Japanese to return home after once leaving his country, even if blown out to sea and ship wrecked. Now they voluntarily

THE WRECK OF THE SUWANER.—The Sparrowhawk arrived at three o'clock yesterday morning, having on board 135 officers and men of the unfortunate Suwanee. Lieut. Clarke and 25 men are left in charge of the wreck. The men were all landed in good order, and were found comfortably encamped on shore when the Sparrowhawk arrived at the scene of the disaster. The fore part of the vessel has gone down below water five fathoms, the after part still hangs on the rock. Officers and men speak in the warmest manner of the treatment received from the officers and crew of the Sparrowhawk, since misfortune overtook them. The men have all been transferred to the Pensacola. Four twenty-pounder guns and two howitnia and British Columbia. There is no zers have been landed on shore close by, and the 9 in. guns, of which there are six, have patent every day, that both China been buoyed on the wreck. The property of the officers has been saved, as up to the time of abandoning the vessel the birth deck had not been flooded.

RAILWAYS IN INDIA .- A few years since the English Government guaranteed the interest on \$440,000,000, for the construction of 4600 miles of railroad in India. The system has worked so well that last year several of the companies exceeded the five per cent. of guaranteed interest, and were able to declare surplus dividends. What will be said to this by men who will maintain there is no future to this Colony? Only a few years since the English people guaranteed the interest upon four hundred and forty millions! and most and space by the modern appliances of of that investment is now paying over five steam and telegraph was forcibly per cent. Let them give us one fourth of that sum and we will create a kingdom as valuable as India; which will command the commerce and traffic of the world, and where investments of this sort will pay ten per cent. A few years does much in this age, and our turn is coming. Instead of building up the world let the capital of England be confined only are out of the world whose couns to her own dominions,

decide what should best be done.

The " Moneta."

EDITOR COLONIST,—The report of this case in vesterday's issue is certainly far from being a very correct one, and was evidently given to you by some one interested on the part of the Moneta, and necessarily antagonistic to the Isabel, which, to my mind, is in very sociates. I will not animadvert as to the nature or character of the evidence given in Court, because I consider it would be unfair to do so at the present time. I must say however that the witnesses who testified on the part of the claiment are as respectable and trustworthy in every sense of the word as you reporter's favorites.

Your report gave that portion only which and was in defendant's favor. I must say that ground for a salvage claim, far from it; but as increasing the difficulty there would have
