TEAMER Empress of India, which arrived yesterday morning, brought interesting details regarding Japan's attitude with regard to the forthcoming negotiations. Marquis Ito, who was the plenipotentiary in the negotiations with the late Li Hung Chang at Shimonoseki after the Chino-Japan war of 1894-5, was at first sought as a peace plenipotentiary for Washington with Baron Komura, minister of foreign affairs, but a large section of the Japanese public at once voiced its opin-

for a far less excessive indemnity. Viscount Aoki, in the Asahi, expresses his views with regard to peace proposals as follows:

San Francisco, July 11.—Strangled to death with his own queue, the body of Lin Mook Chuck. a Chinese physical coast province and Vladivostock, it is very unlikely that the hope will be realised, as these territories have not as yet been touched by the Japanes. In my opinion, Vladivostock is not of very great importance to Japan. Even should it remain in Russia's hands as both a naval base and a commercial port, it would be of little practical value so long as Japan were able to close the Straits of Tsushima, Soya and Tsugaru. On the othe rhand, Saghalien must on all taccounts be ceded to Japan, and the money indemnity must not be less than ty 22,000,000,000. I believe that these latter desires are by no means in the nature of Chateaux d'Espagne."

TTAWA, July 11.—Caucuses of the government and opposition parties were held this morning. At the Liberal caucus the prime At the Liberal caucus the prime minister heard very strong representations from his supporters in favor of making the sessional allowance \$2,500, or at least \$2,000, but he held out no promise that it would be granted. He undertook, however, to bring the matter before his colleagues in council. The suggested increase in the salaries of judges was also discussed. It is not likely that the government will bring down the proposals this session. The Conservative caucus, which was presided over by Claude MacDonnell, of Toronto, agreed upon several resolutions which will be moved before the House closes. It was also decided to facilitate the remaining work of the session in the interests of an early prorogation. The opinion is general that parliament will prorogue on the front, and the recruiting of certain ments at Sendai were ascertained in Tahuary.

U. S. GUARDSMEN'S ADIEU.

London, July 11.—The Seventh regiment of the national guard of the state of New York gave a farewell reception tonight to the Queen's Westminster volunteers, against whom they competed recently at Bisley. The affair was one of pleasant informality and cordial goodfellowship was evident throughout. Only a few speeches were made, but in these the best of good wishes were exchanged. The Seventh regiment received a message from King Edward in which His Majesty said it gave him great pleasure to receive the members of the regiment.

A CAREFUL LANDLADY.

Montreal Gazette.

The city of Hamilton has won its case against the local street railway company. The latter undertook to interpret the workingmen's ticket clause of its franchise by defining who and who were not workingmen. It was plainly an attempt to evade a plain obligation. Corporations enjoying public utility franchises have nothing to gain by splitting hairs. If they hope to stem the tide of the municipal ownership idea, it can only be done by deserving public confidence.

St. Petersburg, July 11.—The government is awaiting a report from Admiral Kruger before making representations to the Roumanian government for the return of the mutineers of the Kniaz Petemkine. It was stated at the foreign office yesterday that no official information of the attitude of Roumania toward the mutineers has been received.

A despatch from Theodosia states that during a parade of the Volna regiment a shot was fired from the ranks at the colonel, but missed him. The shot was a signal for an outbreak, which was quelled after an officer and a private had been severely wounded. The trouble evidently was a reflex of the mutiny on the Kniaz Potemkine.
