What The Farmer's Wife Owes to Herself

In the current issue of Farm and Fireside, appears the following :

Sarnia, March 28.— John Harkins, aged 65, a farmer residing on the Lake Shore road, lost his way in the heavy snowstorm which raged through this district on Wednesday night and his body was found in the snow near the council house on the Indian reserve last evening by Detective Acton. The old man's horse and buggy, in which he had lett home to drive to Sarnia, were found tied to the fence of the council house. It was feared at first that Mr. Harkins had been the victim of foul play, but the authorities now believe 'The farmer's wife owes it to her self to have as many labor-saving devices as can possibly be afforded. It is no worse for her husband to hoe corn by hand, when he can get a proper tool for \$5, than it is for her to bend over a rubbing-board when a washing machine can be had for the same amount. Every dollar put into helpful household machinery means many dollars saved in doctor's bills. Such things are not expensive, nor do they need replacing often. For example, a food-chopper costs less than a dollar and will last for years ; yet how many women still waste time and break their backs over an old chopping-bowl. It does not take \$25 to fit up a kitchen with nearly every little helpful device needed, and every farmer's wife should feel it her duty to have all these strength and timesaving articles within her reach.

In the multiplicity of daily tasks, the time for reading and study seems often badly lacking. But it should be found, no matter what else has to Ten minutes with a good book will give food for uplifting thought all day. Drudgery ceases to be such if hurrying steps keep time to a noble sentence. A favorite book—in an oilcloth jacket, if the binding be choice-is perfectly safe in the kitchen cupboard, and many a precious
