when the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion." me and I soon began to suffer from indi-gestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medi-cine that would accomplish this. At last Dr. Morse's Indian Root Pills were brought to my notice, and they are were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy." upon as the family remedy."

ROMANTIC WOOINGS.

Bir Henry M. Stanley Was Rebuffed When He Sought Miss Tennant. Like an aroma, that haunts and Like an aroma, that haunts and colors the thoughts and feelings of our most tender moods, is the romantic odor that clings around the love-making of some of the world's most notable men and women, lending to it an attractiveness and fascination which neither time nor circumstances can effectually diminish.

Even a man like Sir Henry Stanley, resolute, brusque, and absorbed in his life-work, had one of the most romantic wooings imaginable, and certain

life-work, had one of the most romantic wooings imaginable, and certain it is that if any one had told Miss Dorothy Tennant, when she first met the great explorer, that he would one day lead her to the altar she would have laughed the idea to scorn. Dainty, daring Miss Tennant, whose charm and caustic wit had gained here celebrity in London society, openly expressed her indifference, almost dislike, for the famous traveler. This was discouraging to begin with, but Stanley, nevertheless, set himself to pay narked attention to perhaps, the only girl in his "set" who did not eagerly welcome a little notice from the most-talked-of man of the year. When, later, he proposed to the much-petted young lady he met with a further rebuff.

Sir Henry went on his way back to Africa to relieve Emin Pasha with unmoved mien, but a very sore heart, and to the onlookers the little drama was closed. But they reckoned without their host, and the sequel to the interesting love tale came when Stanley returned triumphant—again successful in his undertaking.

At a ball in Kensington they met

cessful in his undertaking.

At a ball in Kensington they met again. Before the evening had advanced far Stanley and his first and only love were alone together for a moment. "I have not changed, Dorothy," he said, simply. "Really?" she asked, raising her beautiful eyes to his face and according to the said. his face and speaking more softly than was her wont. "I have though." And hen Stanley knew that he had won

ret another victory.

The wooing of that other great tra-reler, Sir Richard Barton, was quick weier, Sir Richard Burton, was quick and very unconventional. One day when Miss Arundel was walking with her sister in Boulogne, she passed a strange man whose dark eyes, as she afterwards confessed, "seemed to hyp-notize her." Turning to her sister she declared, "Some day that man will marry me." The very next day the sisters again met the strange gentle. toes, and I always boiled the potatoes, "New York Sun.

HIS GRACE.

A young lady who taught a class of small boys in the Surriay school desired to impress on them the desired to impress on them the meaning of returning thanks before a meal. Turning to one of the class, whose father was a deacon in the church, she asked him:

"William, what is the first thing your father says when he sits down to the table?"

The tourist-camper does not at all realize the extent of the damage which his unextinguished camp fire may do. Laws against leaving camp fires burning are already on the statute books, but it is quite evident that their oppositions. It was over a dinner-table that Miss Glynne caught her first glimpse of Mr. Gladstone, to whom she was to devote the rife. "Do you see that young man?" a staesman who was sitting next her, said. "Some day he will be Prime Minister of England." No wonder the young girl's interest was aroused; and when, in the winter following, they met again in the layers."

The gracious deed, Glynne caught her first glimpse of Mr. Gladstone, to whom she was to devote the rife. "Do you see that young man?" a staesman who was sitting next her, said. "Some day he will be Prime Minister of England." No wonder the young girl's interest was aroused; and when, in the winter following, they met again; in the layers."

The gracious deed, Glynne caught her first glimpse of Mr. Gladstone, to whom she was to devote the life. "Do you see that young man?" a staesman who was sitting next her, said. "Some day he will be Prime Minister of England." No wonder the young girl's interest was aroused; and when, in the winter following the man provided the prime with the provided that the provided the prime with the provided that the provided that Miss Glynne caught her first glimpse of Mr. Lest soon they whom the dearest.

Be past the need.

The gracious deed, Glynne caught her first glimpse of Mr. Gladstone, to whom she was to devote the life. "Do you see that young man?" a staesman who was sitting next her, said. "Some day he will be prime the prime with the provided that "William, what is the first thing your father says when he sits down to the table?"

"He says, 'Go slow with the butter kids; it's forty cents a pound,' " replied the youngster.

ANCHORED.

A little chap four years of age met with the misfortune to have his hat blown into the river. When he reach—well, he is, at best, made to pay a state of the youngs are and when, in the winter following, they met again in the lovers' land of Italy, what wonder that the wooing proceeded apace, and that the foundation of one of the most beautiful married lives in history was laid?

The love affairs of famous writers have ever provided an interesting and fascinating topic for discussion, and little wonder, when one recollects the romantic wooings of so many of our great literary men. Few more romantic wooings are aroused; and when, in the winter following, they met again in the lovers' land of Italy, what wonder that the wooing proceeded apace, and that the foundation of one of the most beautiful married lives in history was laid?

The love affairs of famous writers have ever provided an interesting and fascinating topic for discussion, and little wonder, when one recollects the romantic wooings are aroused; and when, in the winter following, they met again in the lovers' land of Italy, what wonder that the wooing roceeded apace, and that the foundation of one of the most beautiful married lives in history was laid?

The love affairs of famous writers have ever provided an interesting and facinating topic for discussion, and little wonder, when one recollects the romantic wooings are chronicled in these affairs of the heart than that of the great dramatist and orator, Richment and the statute books, but it is quite evident that their observance rests mainly with the tourist him self. He must be impressed with the doundation of one of the most beautiful married lives in history was laid?

The love affairs of famous writers have ever provided an interesting and facinating topic for discussion, and little wonder, when he are a self ccats, Toppers, Chesterfield

The owner of destroyed property along the line has found it almost impossible under the present laws to get amages from the railway company, so difficult is it to fix the responsibility, and so expensive is the process of litigation. In order to lessen

Committee proposes to lessen the number of fires caused by sparks from locomotives by having the:railways fined for the damage they do, unless they take every possible precaution to prevent such damage. This is obviously a fair recommendation as regards both the railways and the public, and the effort to have it made law is worthy of public support. Every Canadian is deeply interested in the protection of our forests; for each forest fire means that I he and his children will have to pay higher prices for every foot of timber they use. Such a measure, for the preservation of our forests, as I that recommended by the Committee on Forests of the Commission of Conservation should, therefore, commend itself to every public-spirited "Nine Tailors Make a Man."

THE FORMULA OF "FRUIT-A-TIVES"

Is On The Outside Of Every Box For All The World To See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and

Everyone knows that fruit juice is healthful-but perhaps some do not Inderstand why this is true.

Fruit juice consists of about 91% water, 8% of sweet principle, and 1% of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.

The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-tives."

"Fruit-a-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

from their introduction to the public.

"Fruit-a-tives" is nature's stimulant for the liver, bowels, kidneys and skin.

In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.

"Fruit-a-tives" is sold everywhere at 50c. a box, 6 for \$2.50, or trial box, 25c., or will be sent, postpaid, on receipt of price by Fruit-a-tives Limited. Ottawa.

WATCH THE TREES.

That there are so many Tussock caterpillars to be seen just now is a matter of no little concern. In many New England cities they have gained such complete control of the situation as to not only become almost ineradicable, but to destroy many fine trees as well.

The Civic Improvement League is in communication with the civic authorities suggesting immediate action with respect to, the trees in'the parks and:on the public streets, and appeals to the citizens to watch their own trees.-Halifax Recorder
