

APPENDIX.

TO THE GRAND DIVISION, S. OF. T. OF NOVA SCOTIA:

REPORT OF DEPUTATION FROM THIS GRAND DIVISION TO THE GENERAL MEETING AT NEW YORK, ON OCCASION OF THE CELEBRATION OF THE TWENTY-FIRST ANNIVERSARY OF OUR ORDER.

The Representative honoured to attend the General Meeting at New York on the 29th of September last, on behalf of the Grand Division of N. S., begs leave to report that it afforded him very high gratification to be present at a Meeting of our Order upon an occasion of so much interest.

The Session of the National Division in Brooklyn, L. I., on the forenoon of that day, was especially to be remembered as a re-union between some of the oldest members of the Order, representing almost all the Grand Divisions where our Order is in effective operation. Some of the incidents of the early history of the Order presented at that Meeting, and some of the personal experiences of the brethren as then related, will long be cherished in remembrance by those who heard them.

The Mass Meeting held in the evening of the Anniversary in Cooper Institute, N. York, was probably the largest Temperance gathering ever convened in that great city. The speeches were of a high-order, and the impression made on the vast audience in attendance could hardly fail to be highly beneficial. The blow then struck, it is hoped, will be so followed up as to prove the commencement of a revival of the Temperance movement in New York and its vicinity; while there is good reason to believe that the Representatives and brethren from so many different and widely-separated sections of country will return to their several spheres of life to pursue with new vigour their labours in the cause of Total Abstinence.
