

There's a difference--a big difference--between the numerous cod liver and reputed cod liver preparations offered to the profession.

GADUPHOS

does really contain true cod liver extract, actually made from the livers of freshly caught cod. We know because we make it ourselves. This extract represents all the medicinal principles to be found in the best cod liver oil.

Then we combine with this true glycerophosphates.

Could you wish for a more serviceable alternative, reconstructive and nerve tonic?

A sample of Gaduphos is yours for the asking and don't forget that Gaduphos is prepared in the same laboratory as Kasagra by
