

This little book purports to be written on the author's own experience. The book gives a short account of the history of massage. The various passive and active movements are fully discussed. Massage of the various parts of the body are taken up, and the diseases for which massage is applicable. The work is an excellent one, and must prove of much service to those who require such a manual. It is well illustrated and neatly got up. We think that doctors might read some works on massage to advantage, and this would be a good one.

MISCELLANEOUS.

DR. HAMILL'S MEDICAL EXCHANGE.

Medical men can not be too often reminded that when they are thinking of selling out their practice, that it should be done quietly, quickly, and with the least publicity possible. It is very detrimental to one's practice to have it locally known that the physician is contemplating removing from their midst. Dr. Hamill who conducts the Canadian Medical Exchange for the purchase and sale of medical practices has certainly systematized his methods to perfection so as to insure a short-cut to the goal desired, and we feel safe in saying that physicians stand a better chance of selling their practices by having their offer on Dr. Hamill's register than by all other methods combined that they could adopt.

THE SUPERIOR QUALITIES OF SANMETTO IN CYSTITIS, PROSTATITIS AND GONORRHEA.

I have used Sanmetto quite extensively in cystitis, prostatitis and gonorrhea, and find it far superior to any proprietary preparation or any prescription I have ever used. It controls admirably those cases of prostatitis where there is excessive desire to urinate frequently but an inability to do so.

THE WINKLY ARTIFICIAL LIMB COMPANY.

The attention of our readers is directed to the advertisement in another page of the above company, which has a very successful record for the superior quality of all its manufactured articles.

ALVARENGA PRIZE OF THE COLLEGE OF PHYSICIANS OF PHILADELPHIA.

The College of Physicians of Philadelphia announces that the next award of the Alvarenga Prize, being the income for one year of the bequest of the late Senor Alvarenga, and amounting to about one hundred and eighty dollars, will be made on July 14th, 1906, provided that
