THE CRONIN MURDER.

Lake Dillon, of Philadelphia, the representative of Dr. Gronin's eastern friends, testified that Cronin had frequently said to him that he believed that to further his ambition to rule American and Irish politics Sullivan would murder him. Dillon also told of the trial at Buffalo, of the charges against Alexander Sullivan, Michael Boland and Dennis Feeley. These charges were made by John Devoy, and were of misappropriation of Clan-na-Gael funds. Vitness said that when Sullivan learned that Cronin was to be a member of the trial committee he denounced him in unmeasured terms. After the trial it was voted to allow Sullivan to circulate with the finding of the trial committee a protest, which he had prepared, Mr. Dillon read the protest. It was very long. It was dated New York, September 15, 1888. In it Sullivan protested against the presence of Cronin on the committee, on the grounds, first, that Cronin was his personal enemy; second, that he had expressed an opinion in the case third, that he was a perjurer and a scoundrel, unfit to be placed on any jury. In support of his tirst objection, Sallivan appealed to the members of the United Brotherhood in Chicago, from which Dr. Oronin was expelled, in the case where Sullivan conducted the prosecution. There was no question in Chicago of Oronin's hostility, to him, or anyone else who was present at the meeting of the National League committee in 1886, when Dr. Oronin assailed him. Upon this enmity Sullivan claimed it was neccesary for him to enlarge. As to the second objection, Sullivan said Cronin was a member of the executive bedy of the United Brotherheed, who had formulated charges against him, that Cronin had expressed an opinion in the case, and would not be accepted as a juror in any civil case in which Sullivan had anything to do. In support of the third reason, Sullivan went into a long history of Oronio's career, accusing him of being a perjurer, and a British spy, who had taken an cath of allegiance to her Brittannic Majesty, and he had sworn faisely in regard to the election of delegates to the Chlcago district to the convention, that he and sworn falsely in regard to snicide. his American citizenship, his age, and various

Lawyer Trude denies that he said yesterday that Alexander Sullivan operated on the Board of Trade for a number of bucket shop men. He said Sullivan represented only one person. Mr. Trade claims that Egan requested Sullivan to remove the \$100,000 in question from Paris to America, because of the unsettled condition of affairs in France at the time. When the danger was over the whole amount was transferred back to Egan, and Sullivan has Egan's receipt for it.

THE BULES OF THE CLAN-NA-GAEL.

CHICAGO, June 8.—In the Gronin investiga-tion yesterday Luke Dillon said nothing in the Clan-na-Gael constitution interfered with a member's duty as an American citizen except that occasion might arise when he would have to violate the neutrality laws. Gronin and McCahey took no es of the trial committees' proceedings. Cronin refused to turn in his notes. He boasted in Chicago that he would bring them out in the convention of the Clan. Witness advised him not to make such boasts, as he believed they jeopardized the doctor's safety.

the doctor's safety.

John Moss, a member of Camp No. 21 of the Clan-na-Gael, was put upon the witness stand this morning. He refused to give the name of the presiding officer of the camp, and was ordered into custody. Pending the arrival of the sheriff's deputy, witness gave evidence of great mental distress, and finally signified his willingness to testify. He then said the name of the presiding officer of his camp was William H. Joyce.

one would you have done it ?" " No. sir," said witness after a long pause. Peter McGeghan testified that he came to Uhicago last February from Philadelphia. He did net say before leaving that he was going into dangerous business for the executive. He came because he had a row with a young fellow about a girl. Dr. Crenin came up to witness on the street and accused him of being came because he had a row with a young fellow about a girl. CHICAGO, June 10.—In the Cronin inquest to-day, ex.Detective Whalen and several other members of the Clan-na Gael were examined, but nothing was elicted which con-nected them with the murder. The jury and the coroner had a conference during the recess, and the jurors informed the coroner they were satisfied that there had been a complexcy to murder Cronin. An afternoon paper quotes States Attorney Longenecker as saying: "Woodroff has told a straight story to the chief, and it is now certain that he is the man who drove the waggon. Coughlin and P. O. The London Star, Mr. T. P. O'Connor's paper, thus speaks of His Eminence Cardinal Manning's recent visit to the House of Com-mons. Many people in the lobby on the even-ing of May 13 were gratified by a sight which once was common enough there, but which has been unknown for some time past. This was the gaunt but active figure of Uardinal Manning stalking across the tessellated floor. MONTREAL MARKET QUOTATIONS

FLOUR, GRAIN, &c. FLORR.-There is a fair demand for local nurposes, but beyond this the market has been extremely quiet since our last report. Notwith-standing the fact that many mills have been closed down, it is known that there are liberal supplies in the hands of Ontario millers. This as been proved by the number of samples that have recently been sent to parties in the trade here. The Lower Provinces, Quebec and New foundland have not ceased making enquiries, but, at the same time, they do not appear to be ready to buy, at least not in this market. This shows that parties cast have either larger reserves than were anticipated, or else they are supplying their wants direct from mills. There is little or no change in prices in the absence of any outside demand. We therefore repeat

last week's quotations:
Patent, winter, \$5.10 to \$5.50; Patent, spring, \$5.30 to 5.75; Straight roller, \$4.75 to 5.00; Extra, \$4.45 to 4.60; Superfine, \$4.00 to 4.15; Cut down Superfine, \$3.50 to 3.75; City Strong Bakers, \$5.60 to 5.80; Strong Bakers, \$5.10 to 5.80;

String Bakers, 53.70 to 3.00; Strong Bakers, \$5.10 to 5.60; Ontario bags, extra, \$2.10 to 2.25; Superfine bags, \$1.75 to 2.20.

OATMEAL, &c.—Western meal is still being pushed for sale on this market, and prices in consequence are very irregular. We quote bags at \$1.25 to 22 for adjuster, and \$2.10 to \$2.10.

were 30,553 business. There is something latery to admit of much business, although offerings lately have been considerable. A sale of No. 2 has actually taken place at \$1, but this figure is not a fair quotation, as the sale referred to was forced. To-day No. 1 Manitoba hard is offered at \$1.10 and No. 2 at \$1.05, but the best bids are \$1.05 for No. 1 hard and \$1.03 for No. 2.

PORK, LABD, &c.—The market has been somewhat quister during the week, especially for pork, but there has been no material modification of values. In !srd, a fair business transpires at about former quotations. Meats remain

DAIRY PRODUCE.

BUTTER.—Receipts, 1723 packages during the past week ending June 5th, 1889. Dealers now find it difficult to keep their floors clear, and as supplies are beginning to accumulate, prices have a downward tendency. Sales of May creameries are reported at 190 at factories, and dealers are offering to deliver here at 200 without finding buyers. Local buyers are offering to contract at 191c to 20c. New American creamery is being offered here at 151c to 16c in bond, but it appears to be too high, to induce business to any extent. Advices from Newfoundland report the market there in a terrible state of demoralization receivers of old American creamery having had to resort to auction eales in order to dispose of to resort to auction sales in order to dispose of it, as fears were entertained of its keeping quality, after the warm weather set in. Eastern Townships dairy is selling at 17c to 19c, and western at 14c to 16c as to quality. Offerings west of Toronto are quite liberal, and sales have been made there at very low prices. There is no export demand. The receipts of rolls are increasing and large packages are very difficult to sell although offered at low prices, sale being sell, although offered at low prices, sale being reported as 14c to 16c as to quality and packages. OHERSE — Receipts during last week to June 5th were 19,555 boxes. Since our last report was written, the market has undergone a most decided change, the hopes of those shippers who talked 720 to 8c for this week's market, being ruthlessly blasted, a spanking advance of fully 3c per pound upon last week's figures having been established. The buying has been brisk and pretty general with sales of several thousand. boxes of finest goods on this market at 820 to 840, shed steamer Panther, a big wave upset the beat from which the Portia's men were endeatered the chief address.

EGGs.—It appears that quite a number of country packers have got through with their operations and are sending their supplies foroperations and are seeding their supplies for-ward, but notwithstanding the liberal nature of receipts the demand is well sustained, owing no receipts the demand is well sustained, owing no doubt in a great measure to the improved quality of offerings, due to the cooler weather of late. Bales were made to-day at 13c to 13lc, and at those figures the market may be called firm.

BRANK.—Market extremely quiet. We quote \$1.15 to \$1.60 here as to quantity and quality.
