The system of Education includes the English and French Languages, Writing, Arithmetic, Geography, History, Use of the Globes, Astronomy; Lectures on the Practical sciences; with plain and ornamental Needle-Work.

No Deduction made for occasional absence.

IMPORTANT TO SHI PMASTERS AND CREWS. Some twenty years since, I was very seriously injured in one of my hips, by coming in contract with the anchor of the ship of which I was second mate. The bruise was so had that my hip has given me great mouble most of the time since, until a year ago last April, when I heard of Davis' Pain Kille, and immedistely procured a bottle, and by using it according to the directions, was entirely cured in about ten days, and have not experienced the least trouble from my complaint since.

Feeling the importance of having this valuable medicine constantly by me, before starting for Europe in March last, in the ship Louvre, from New York, I purchased two large bottles to take with me. While at Antwerp, one of my crew was attack with a very severe dysentery ; I gave him the Pain Killer, and it cured him in a hurry.
On my passage home, with one hundred and sixty

four passengerr, I administered this valuable remedy to all who were sick, and nonetook it without getting relief. One lady passenger in particular was trou-bled with a bad headache, for which she said there was no cure, having been troubled with it most of the time for years. I told her I had a sure remedy, and gave her the Pain Killer, which to her surprise, did effect the cure she had long sought in vain for. I had as good a medicine chest as over was put on board a ship, but did not open it, there being no necessity for it—the Pain Killer answering all purpose. And I do most sincerely recommend to every shipmaster always to take a good supply of this valuable medicine with him on going to sea, as it is so valuable and convenient to use in case of wounds or bruises, which are liable to and frequently do happen to crews on shipboard.

CHRISTOPHER ALLYN, late Muster of the

Ship Louvre.

DYSPEPSIA.

There is perhaps no disease which destroys the happiness and comfort of individuals, and families to the same extent as Dyspensia or Indigestion. Previously to the discovery of the

OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The power of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as Athma and General Debility is beyond all question.

Its speedy and permanent cures of some of the sevetest and stubborn cases on record is sufficient conurmation of this fact.

OXYGENATED BITTERS IN CANADA.

The Editor of the Montreal Pilot, Sept. 2 1856 eays :-There is no medicine we take so much pleasure in recommending to our friends as Dr. Green's Oxygenated Bilters. Unlike most proprietory medicines, it does not profess to cure "all the ills flesh is beir to," but simply Dyspepsia and its attendent symptoms of derangement of the stomach. It has long been held in favour with our first medical men; some of whom are never backward in awarding merit where it be-Its success in our city has given it a reputa tion surpassed by no other similar preparation. Our attention has been called to this subject by a young man in our office who had been suffering for some weeks severely from indigestion, loss of appetite &c. having been entirely relieved in a few days by the use of the Bitters; there are hundreds who will read this who need such a medicine, and would use it if they had half the confidence in it we have.

None genuine unless signed I. BUTTS on the wrapper. Prepared by S. W. Fowls & Co, Boston, and for

Lymans, Savage & Co., Carter, Kerry & Co.
