

*ANNEX A***GENERAL CONDITIONS GOVERNING THE ESTABLISHMENT  
OF DIRECT RADIOTELEGRAPH CIRCUITS**

(i) The desirability of establishing any direct radio circuit between two countries is a matter involving a judgment on its merits by the Governments of both the countries concerned. It is essential that conditions, particularly economic conditions, and the requirements of the users, at both ends of a proposed circuit should be fully considered in each case.

(ii) The governing conditions for the establishment of direct radio circuits are those of traffic and service, with the expeditious disposal of traffic as the main objective.

(iii) The existence of both radio and cables is essential in the general interest of world telecommunications as a whole. Provision of direct radio circuits should therefore have regard to existing channels of communications.

(iv) It is recognised that in certain cases a circuit might be deemed necessary for political reasons.
