v) High Technology Conference

HiTEC, the High Technology Export Conference held each year brings Canadian Industry together with Trade Commissioners from our embassies and consulates around the world. Also included are other Canadian and U.S. government departments and agencies, as well as U.S. prime contractors, that can be of assistance in the pursuit of foreign defence and high technology markets. This has proven to be a very efficient means of alerting industry to overseas opportunities and of keeping our overseas representatives abreast of advances in Canadian industrial capability.
