FIRST DEFEAT FOR ROYALS.

### BASEBALL MAGNATES AT BUFFALO

cussion-McCaffery Congratulated Buffale, Jan. 6 .- The board of directors the Eastern League of Baseball Clubs met at 2 o'clock this afternoon in a parlor of the Iroquois. The board is composed of John Kreitner, F. C. Chapin, of Rochester: Walter Burnham of Newark, N.J.; Howard C. Griffiths of Jersey City and Harry L. Taylor of Buffalo, president of the league. The meeting is a preliminary discussion with regard to the policy to be pursued by the Eastern League at the meeting of the National Association of Minor Leagues, which is to be held in Chicago Jan. 9.

J. J. McCaffrey was present, and received the double congratulations of the directors of his election as president of the Torontos, and also on the defeat of the reduction by law, tho he stood no chance of losing his Col.

### WEARY DAYS AND SLEEPLESS NIGHTS

Many mer and women toss night after night upon sleepless beds until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, you have heart palpi-tation and sensation of sinking, a feeling tation and sensation of sinking, a feeling you are going to die; or perhaps you wake up from your sleep feeling as though you were about to choke or amother, and rest leaves you for the night. Allow these conditions to continue and you will feel your health declining.

It is the nerves and heart that are not setting appearsh.

#### They can be set right by the use of MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and

Mrs. Ennis Chambers, Massey Station, Ont., writes: "I was troubled with dizziness, weak spells and fluttering of the heart. I was so bad at times I could not lie down in bed at nights but would have to sit up. I doctored for a whole year and got no relief. policy is variously viewed is divided on party lines-th Liberals applauding and the Unionist seeing only disaster therein. It is bediscussed at some length in the ress, but was not a feature at last light's meetings. In fact, Mr. Balfour addressed a stormy meeting of his constituents at Manchester, but did not say, The Edinburgh Scotsman (Conserva-tive) says: Mr. Churchill has not re-moved the impression that the present government is out of sympathy with the colonies. The principles of colonies policy which he lays down, so far as they are sound, are mere commonly concolonies. The principles of colonial policy which he lays down, so tar as they are sound, are mere commonplaces of British imperial rule. While willing to take part in a conference, the government has made up its mind in advance that such a conference must be quite fruitless on the very results the colonies chiefly hope to secure.

The Conservative Express calls it "colonial painter cutting" and "merely repeating the folly which lost the American colonies." It says such a conference will be a "mere debating society," to which the colonies will likely refuse to send representatives.

The Liberal Morning Leader, on the other hand, halls the announcement as "admirable" and holds that preferential tariffs would disrupt the empire.

"At present," it says "there is a very strong opinion in favor of an imperial preference thruout the Dominion, and this feeling and sentiment brought about the despatch of the Canadian contingents to South Africa. Translated into economic terms, if Mr. Chamberlain could get a mandate to negotiate the Canadian government would be compeled by the force of public enthusiasm to offer acceptable terms to Great Britialu. Some members of the Laurier administration are distinctly pro-American. It is well known that the newer corporations helped the Liberal warthes tand are pro-American. Neither the pro-American companies dare set them-selves in opposition to the people, which is still a unit for the preference."

Tariff Reform First

Conan Doyle, Unionist candidate for the Border Burghs of Scotland, in his first speech, placed tariff reform as the main plank of his platform. He said it had been alleged that like his constituents, he was a spinner of yarns, but fortunately his yarns were not affected by foreign tariffs. Heckling is a favorite pastime at political meetings, especially in Scotland. On the home rule issue the form of question now is: "Are you in favor of giving Ireland a government like that in Canada?"

Replying to the Hon. Hugh Ellibtt the candidate said he was nct. otherwise like Canada she could join the United States. That would mean war. The friends of home rule are using the resolution passed by the Canadian parliament to support their contention, Joseph O. In the second half the play was swift and rough, and the Hill team had the best of it, the score showing 4 to 2 in their favor. Of the two teams, the visitors played the two equal to the Hill's. The teams lined up as follows:

Nashville, Tenn. Jan. 6.—Turfmen here are jubliant to-nigh tover the bright prospects for uninterrupted racing in Tennessee, despite the act passed at the last legislature prohibiting betting on horse racing in the state. To-day Judge William Hart of the criminal court of this (Davidson) County declared the act unconstitutional. At the same time he sustained a motion to mush indictments found under it against Wm. Gerst, jr., and Wm. Hayes, charged with violating the statute at Cumberland Park race track. The case is similar to one decided at Shelbyville yesterday, except that the latter originated at an unlicensed track. The Cumberland Park case will bring the real point at issue before the supreme court of the state. Track Betting Legal.

# OwnanOrange Grove at BARTLE

Eastern Cuba.

Oranges yield a profitable return, and an orange grove at maturity in Cuba is valued at \$5,000.00 per acre, which is higher than in Florida on account of the absence of trosts.

For the first few years it is usual and profitable to utilize the ground between rows for the cultivation of sugar cane, bananas, pineapples, patatoes, onions, tomatoes, or other vegetables-thus making fully one-half the land available for these minor cultivations.

The cost of cultivation of the oranges is thus materially reduced.

Lands remote from transportation facilities, however fertile, will prove practically valueless for the raising of oranges, fruits or vegetables (perishable products). Therefore lands should be purchased as near as possible to railway facilities.

It is conceded by rival real estate agents in Cuba that Bartle, Eastern Cuba, is the most prosperous colony in Cuba.

They give as their reason the fact that Bartle is a regular station on the main line of the Cuba Railroad, which passes along the centre of the eastern end of Cuba and has opened up a matchless agricultural region, where the soil is especially well adapted for the raising of oranges. Orange trees are now being planted by the Cuba Railroad along this line.

Land in this productive centre immediately surrounding Bartle offers unlimited possibilities for the settler, and when you consider that the price of land here is much lower than the least productive soil in the most favored portion of Northwestern Canada or Ontario-no man, whether he buys a large or small tract of land, can make a mistake in investing in Cuban Realty Lands at Bartle.

The following letter shows the progress at Bartle and briefly enumerates advantages possessed by very few colonies in Cuba :-
