### GAVE CORBETT BEATING.

Murphy Had All Better of Six Rounds at Philadelphia.

Philadelphia, Jan. 9.—Tommy Murphy of New York gave Young Corbett a severe beating in a six round bout before the National Athletic Club tonight. From the first to the sixth round Murphy outfought the former champion at all stages. In the second round only the sound of the bell saved Corbett from a knock-out. Murphy simply rained blows on the former "Beaver" fighter, and near the close of the round sent Corbett to the floor with a back in fairly good condition. Murphy kept after him, sending lefts and rights to the face and body. When the gong sounded Corbett was hanging on the ropes in practically a helpless condition.

The one minute rest brought him back in fairly good condition, but Murphy gave him no opportunity to rest and drove Corbett from one side of the ring to the other, landing on his face and body almost at will. Corbett got in an occasional blow to the kidneys and neck, but they lacked force. In the third round Corbett tried the tactics he worked on McGovern so successfully in their two championship fights. He began to hurt Corbett, but Corbett was intended to "rattle" Murphy. The latter simply smiled and drove two rights to the jaw with such force that Corbett fell.

The fourth, fifth and sixth rounds were repetitions of the third. Corbett tried perceptibly in the closing rounds and was simply a mark for the younger and better conditioned fighter. Murphy's condition was perfect, but Corbett's was not. Corbett would have tipped the beam close to 140 pounds. He was slow and wild and outclassed in boxing, hitting and ring generalship.

**Amateur Bout for Grand Rapids.**  
Grand Rapids, Jan. 9.—The amateur council last night held a prize fight as far as it could and the game will flourish once more.

After the death of Mike Ward in his bout with Harry Lewis a couple of months ago, a wave of conformity has been set on foot. Now the original ordinance has been amended so that "spraying" matches can be given for prizes.

Eight rounds is the limit and six-ounce gloves may be used.

This virtually means that the case against Harry Lewis, the boy who defeated the punch and now on \$10,000 ball, will not be pushed. Lewis is now in the west preparing for fights.

**In President Roosevelt's Colors.**  
Memphis, Jan. 9.—Reports reaching Montgomery's colony of owners and trainees in winter quarters to the effect that President Roosevelt might decide at some future date to permit his racing colors to be registered with the New York Jockey Club, to be carried at random times, in that in the past racing here attracted patronage from some of the most prominent American families, have been taken serious enough to cause many an argument here as to the good that such a move by the chief executive might prove for the welfare of the so-called sport of kings.

Those debating the question of propriety of President Roosevelt entering the racing arena refer to the fact that two English deers have been won in the

## "HANGMAN" GEN. PAVLOFF

Assassin Captured After a Long Chase, Killing a Policeman and Wounding a Boy.

St. Petersburg, Jan. 9.—Lieut.-General Vladimir Pavloff, the military procurator or advocate general, generally known since the late parliament as "Hangman" Pavloff, from the epithet constantly applied to him by the Radical deputies, was shot and killed at 10 o'clock this morning, while walking in the garden of the chief military court building near the Moika Canal. The assassin, who apparently was disguised as a workman, was captured after a long chase through crowded city streets, during which he fired about forty shots from two revolvers, which he carried, killing a policeman and accidentally wounding a boy. The crime showed evidence of the same careful preparation which was characteristic of the assassination of General Alexis Ignatieff and Von der Launitz, and was undoubtedly carried out by the same organization, which has sentenced emperor Nicholas and several others to death. The assassin, who wore the uniform of a military clerk attached to the court, obtained an entrance to the garden under the pretext of submitting a report to the military procurator. He approached the procurator, general and within an arm's length drew a rapid fire pistol and fired the whole load, seven shots, into Pavloff's body. Every shot was well aimed, and two of them tore a gaping wound in his breast. The general expired while being carried to his apartments in the same building. From the nature of the wounds it appeared that the steel jacketed bullets were fired in order that they might inflict more serious wounds.

Hastily slipping another "clip" of cartridges into his revolver and drawing a second weapon, the assassin ran across the garden to the carriage entrance, threatened the porter with his pistols and dashed down Clark-street, past the Imperial Opera House, with a crowd of thirty house porters and court attaches in hot pursuit.

A policeman stationed in front of the opera house attempted to seize the assassin, but was shot down by the latter, who also wounded a boy. The terrorist then resumed his flight, firing at the police officers and house porters, who attempted to bar his way. His ammunition became exhausted and he was intercepted and captured when he reached Lantern Lane.

When taken to the police station, General Pavloff's slayer was in high spirits, and answered the officers' questions with laughing jests.

### EVERYTHING IS READY

For Bowlers' Meeting Monday Night at King Edward Hotel.

Congratulations are always in order and Secretary Munson of the Canadian Bowlers' Association is being fairly deluged daily with messages from out of town and local members in which he has guided the C.B.A. through the many pitfalls and snares on the road to success. Munson is a man who is so well and favorably known by the boys, has been the guiding spirit in more than one sporting contest, and is eventually led on to success. **Kennel Club News.**  
The executive committee of the Canadian Kennel Club will meet at the Queen's Hotel at 7 o'clock to-night for the purpose of discussion. The agenda for discussion are: The election of a vice-president, the resignation of the secretary, to arrange for a secretary and clerical assistant, to arrange for a public stud book, to instruct the committee on the revision of the constitution and by-laws or to ready to receive their report, to elect new members to the executive committee, to receive the report of the committee on the proposed convention of bowlers to be held next Monday night at the King Edward Hotel. The prize committee's report was received. Other arrangements regarding prizes will be made.

**City Losses.**  
The divisional court has upheld the decision in the suit brought against the city by the Dominion Paving & Construction Co. to recover a bill of over \$400 for extras in connection with the building of St. Lawrence market.

## HAYS S. PUT A HURRY

AGREES TO ADJOURNMENT

Mayor Also Will Bring Some Favorable News From Ottawa for To-Night's Meeting.

Mayor Coatsworth will be able to tell the meeting to be held in the city hall to-night in connection with the railway entrance thru the Beaches that the minister of railways yesterday agreed that the city need not present its case at the hearing on Jan. 18, and also that he believes that one entrance should suit the three roads.

The mayor's secretary yesterday received a telegram from General Manager Hays of the G. T. R. stating that he was not averse to a postponement. Controller Ward, who was acting mayor yesterday, wrote Hon. Mr. Aylesworth asking him to use his influence to have the hearing adjourned.

A. E. Kemp, M.P., has written the mayor saying that while the city should encourage railway enterprise it must oppose the plan, since the lake front to be invaded is not only a desirable spot residentially, but is the only part of the city in the east in which parks would be favorably located on the lake front.

Cecil B. Smith has accepted the offer of the city to prepare the city's case from an engineering standpoint. The Guild of Civic Art, with R. Y. Bell as president, yesterday discussed the railway matter. Every citizen spoke of the lack of continuity in the city council as being mainly responsible for the want of adoption of a general policy for beautification of the city.

Mr. Gregg, the architect, said that Toronto should follow the example of several lake cities of the United States, where large sections of the beaches had been preserved and beautified at considerable expense.

### B. & O. TRAIN HANDS

HELD FOR GRAND JURY

Cornerer's Jury Names Men Responsible for Terracotta Wreck.

Washington, Jan. 9.—The coroner's inquest over the Terracotta wreck of Sunday night, Dec. 30, to-night held for the action of the grand jury Harry H. Hildebrand, engineer of the "dead" train; Frank F. Hoffmeyer, conductor of that train; P. F. Dent, night train dispatcher at Baltimore; Wm. McCauley, division operator of the Baltimore and Ohio Railroad at New York; J. J. Kelly, Jr., trainmaster of the Baltimore and Ohio, and Wm. M. Dutton, the telegraph operator at Silver Spring.

The men held in custody at the time of the wreck were held and were placed under arrest. The coroner's jury named as responsible for the deaths were caused "by impact, due to the act of Operator Wm. Dutton, in allowing an engine signal to be shown in a lesser degree for the deaths."

The jury arraigned the block system of the Baltimore and Ohio as not affording satisfactory protection to the lives and property of its patrons, arraigned the system of wages paid over representatives of the men on the road, and recommended that all block signal stations be kept open 24 hours a day, and that the men on the road, and the operators aside from working the signals and attending to their telegraphic duties.

**Gossip of the Turf.**  
The first day of the Westport ice races resulted: Green race, Art. A. M. Paul, owned by E. Murphy, Westport, 2nd, Maude D., owned by T. Deulin, Perth; 3rd, Volto, owned by W. C. Freshford, Westport, 2.30 class unfinished.

A Lancaster, Mass., despatch says: Col. John E. Thayer today sold Baron Wilkes, 2,18, the great trotting stallion, to E. Knell, Carriage, Mo. The price is not given.

Walter Miller came to grief on Oakland on Tuesday. He rode Boloman, the old-on favorite in the last race, and in order to win resorted to some very rough riding, knocking Manslaughter out of his stride and costing the horse the race. The judge promptly disqualified Boloman and placed him blind, giving the race to Fullett, who finished second. Miller was suspended for a week.

A New Orleans despatch says: An Okok, Chinese sailor, who had saved his money for three years, has just cleaned up \$10,000 and is planning to return to his native land. After collecting his bets he disappeared and was found by a deputy United States marshal, after a search of several days. He was found in a small boat, diving the race to Fullett, who finished second. Miller was suspended for a week.

## SHORT MILK PRODUCTION BUT GOOD CHEESE OUTPUT

Annual Meeting of Eastern Dairy-men's Association Opens at Ottawa.

Ottawa, Jan. 9.—(Special.)—The 20th annual convention of the Eastern Ontario Dairy-men's Association opened this morning, Dairy Commissioner Riddick presiding. The opening attendance was good and many more came in by evening trains, so that the sessions promise to be encouragingly well attended.

Earl Grey formally opened the convention at a large citizens' meeting this evening. Dan Perbyshire, M.P. of Brockville, who has been president for twenty years, finds much in the progress of 1906 worthy of congratulation to the dairymen of Eastern Ontario. He eulogized the dairy commissioner's work, the inspectors' and instructors' services and was particularly enthusiastic over the advantages of the past year in the matter of the handling and selling of the dairy products, thru the increased storage and transportation facilities.

During the course of the president's address he said: "The shortage in the production of milk in 1906 below the year 1905 was due, no doubt, to the poor pastures, and we feel confident that with all the educational advantages that are in reach of our dairymen, such as this association, the dairy schools, agricultural colleges and cow testing associations, a greater quantity should have been produced."

"We find that we have made about 100,000 more cheese this year than last, yet we find that we are behind in the exports of butter about 18,000 packages, but with the high prices obtained we find that the estimated value of cheese, butter and bacon exported will amount to about \$46,500,000 from the make of 1906, and when you add to this \$45,000,000, the value of three articles of food (including milk) consumed at home, we have a grand total of \$101,000,000, which is \$6,000,000 more than for the year 1905, and as the dairymen become better educated in the work, we expect to see the demand for both foreign and home consumption increase each succeeding year."

**Better Transportation.**  
"Our dairy commissioner for the Dominion has also been of great assistance to the dairy industry in many ways, and his work in the line of better transportation and refrigeration has been much appreciated. He has extended the work a great deal the last year, by placing more ice cars for transporting the dairy products thru-out the Dominion, and for the first time a traveling ice car inspector, the

results being that the goods were delivered in Montreal in better condition than heretofore."

**Individual Tests.**  
Charles F. Whitley of the dairy commissioner's staff at Ottawa delivered an address on the method and importance of keeping an individual test of the dairy cows in the ordinary herds in the country.

He contended that the unprofitable cow would soon be sacrificed to the shambles, if the general farmer would ascertain the quantity of milk, its fat contents, and the cost of feeding of his cows.

Some discussion took place upon this paper, and J. A. Riddick made the assertion that the value of the milk production in Canada alone could be increased by \$50,000,000 if the proper care were exercised in the selection of cows.

G. H. Grisdale, agriculturist of the experimental farm at Ottawa, said that there was much to be done by farmers in introducing records and tests in their dairying.

A resolution was passed, expressing regret at the death of Henry Wade, late registrar of live stock for Ontario.

**Earl Grey Welcomes.**  
At a largely attended meeting of the citizens in the evening, the address of welcome was given by Earl Grey, who complimented the dairymen upon their growing importance to the life of Canada. He urged upon the dairymen the importance of striving for first place in the production of the world, and a maintenance of that supremacy by the force of their excellence.

Addresses were delivered by Hon. Sydney Fisher, Dominion minister of agriculture, Hon. Nelson Mcintosh, minister of agriculture for Ontario, the mayor of Ottawa and others.

To-morrow is Cheesemakers' Day, and addresses will be delivered by G. G. Publow, J. W. Mitchell, Dr. Connell, Prof. Dean, Chief Webster of Washington, Deputy Minister James of Toronto, and Prof. Robertson of St. Anne's.

**HENRY LANGLEY DEAD.**  
Well-Known Architect Passes Away in His 71st Year.

In the death of Henry Langley, architect, last night at the residence of his son, Charles E. Langley, 574 Huron-street, Toronto, loses one of its prominent citizens. He was born in this city November, 1837.

Some of the largest church and commercial buildings in the city were erected under his direct personal supervision, including the Metropolitan Church, which was completed in 1870. Mr. Langley is survived by a widow, two brothers—William, in Australia, and Benjamin of this city—three sons and two daughters. The sons are Prof. E. F. Langley of Dartmouth College, New Hampshire; Charles E. of this city, and Fred W. of Chicago. The daughters are Mrs. W. H. Cox, Englewood and Mrs. (Dr.) Webster of this city.

The late Mr. Langley was a member of the Ontario Society of Architects, and for some time president.

**Lynched for Wife Murderer.**  
Watseco, Ia., Jan. 9.—A crowd of more than 1000 men to-night battered thru the walls of the county jail at Charles City, Iowa, with railroad iron, tore hinges from the doors and took James Cullen out and lynched him for wife murder.
