Our range of coats this year is the largest this store has ever carried, and from the moderate priced coat at \$7 or \$8 right up to the best lines at \$18, \$20 and \$25 we feel sure that we have a showing to be proud of,

Privately, however, the Ministers express regret at the departure of Mr. Chamberlain from the Colonial Office. Several members of parliament with whom the subject was discussed admitted that Mr. Chamberlain's resignation shows that a preferential arrangement with Great Britain is farther off than the generally supposed in this country.

Chariton is credited with being per-sonally of the opinion that there will be another meeting of the commission as soon as possible after the proroga-tion of parliament, and he is known to entertain strong hopes of being able effect of the preferential sentiment in England upon the disposition of Can-ada to treat with the United States

It would seem probable that the effect of the resignation of Mr. Chamberlain and also of Mr. Ritchie would be to bring the Liberals back into power at the next election. This result in all probability might be followed by complications which would make their lications which would make the foreign made goods, especially those from Germany and the United States. The Trades and Labor Council this evening passed a resolution strongly condemning the speech of President Cyrus A. They struck back with this resolution: "In view of the fact that so many of our Canadian manufacturing and other institutions secure their capital from agers, overseers and foremen, and place them over Canadian workmen, and further in view of the affiliation of many Canadian manufacturers, with the Interthis offer: (1) Provide a teacher (William Bailey), for the coming Normal College year; (2) provide the benches and tools for twenty-five pupils; (3) your board to set aside a suitable room and provide all necessary material; (4) the benches and tools to be the property of the Education Department; (5) Mr. Bailey's time to be primarily, and to the full extent residers both the speech of President ENCOURAGEMENT GIVEN.

for a long time before a practical measure is reached, as it seems highly improbable that the British taxpayer will be prepared to stand the preferential duties upon food products that would be necessary to secure at least responsive tariff action on the part of Canada. The situation is decidedly mixed, Mr. Charlton added, and the problem now being worked out is of the deepest interest, not only to Great Britand, but to the entire commercial world."

Notwithstanding Mr. Charlton's unwillingness to discuss the two questions correlatively there can be no doubt that the postponement of imperial preference will give encouragement to those in Canada who chiefly desire improved trade relations with the Unit.

Dyspepsia for Twenty Years BUILDERS AND CONTRACTORS.

"I claim Dodd's Dyspepsia Tablets have been instrumental in taking me from the brink of the grave and restoring me to comparative good health."

That is the statement of Jackson Johnson of Norham, Ont. It is one of the proofs that Dodd's Dyspepsia Tablets will cure Dyspepsia in its worst stage. Your indigestion may not be as bad as that. It may be only starting. But if Dodi's Dyspepsia Tablets will cure the worst stages of this insidious disease, will it not cure yours? and is it not better to cure it now. to wait till it grows worse, as

Mike and Mary McGraw wandered into 125 Teraulay-street, a vacant house, with the intention of making it their home. Altho there were no furnishings they were doing their best to make themselves comfortable when the police on a complaint preferred by Harton Walker put the couple under arrest on a charge of trespass.

The officers of the Teronto Canoe Club are trying to arrange another inter-club mogram of aquatic sports for a week from to-day.

It has to wait till it grows worse, as it slinely will?

Listen to the rest of Mr. Johnson's experience: "My case was one of Chronic Chypepsia, I had been do-toring for it for layers ago. I was taken with Diarrhoea which became continued for about nine mouths, despite all I could do for it. I continued to grow weaker, and was at last length persuaded to try Dodd's Dyspepsia.

The officers of the Teronto Canoe Club and I confidued to use them, till now I am mogram of aquatic sports for a week from to-day.
