WHILE you are living peacefully in London, they are "Over There" fighting for Democracy---fighting for you---so that you may go on living peacefully for all time to come.

☞ They are thinking of these peaceful times you are enjoying at home and it goads them on to determination to win, so that you may continue on living peacefully, in your comfortable homes.

☞ Surely you cannot with HONOR and DEMOCRATIC PRINCIPLES, fail to "COME ACROSS" by contributing your money.

☞ On the other hand, THINK---of his dependents---THINK---of his suffering for want of supplies---THINK what you would suffer were you wounded "OVER THERE" and Red Cross supplies were lacking---then HIS home---is it lacking supplies? THINK BIG---GIVE BIG---and heed this, we Will---
