# WOODBINE

The horse that we called our clients' attention to in a letter sent out last Monday goes to-day, and will be the medium of one of the biggest betting coups in the history of Woodbine. If you are to the bad on your speculations, this is not only an opportunity for you to get even, but a chance for even the smallest bettor to win a snug sum.

The parties in control have devoted all their time since to the Woodbine in preparing this horse for just this one race, and no loophole has been left for a mistake. They know what their horse is capable of doing, and the relative merits of every other starter, and they consider the race to be merely a gift to their candidate on what he has shown them. The price will be from 10 to 1 to
