

GOOD THINGS COMING TO THEATRES OF ST. JOHN

BUSHMAN AND BAYNE IN "ROMEO AND JULIET"

It is generally the greatest ambition of every real actor and actress to play the role of Romeo or Juliet at least once in their career.

The spirit of the bard is carried out perfectly, and no attempt is made to "improve" upon the original manuscript, and every title in it is taken from the poet's own words.

It is authoritatively stated that the cost of the production exceeded \$250,000, the first picture being taken on May 22, 1916, and the last on August 28, which was thirteen weeks to a day.

SOCIAL CLUBS AND THE LIQUOR LAW

A decision in a Nova Scotia Temperance Act case that has been awaited with intense interest throughout Nova Scotia was rendered by Stipendiary McKenzie of Amherst this week.

It was established at the trial, at which the charge of selling liquor was preferred against the steward, that liquor was kept in the club, and paid for by members who desired it, with coupons issued to them.

It is possible that an appeal will be taken. Of course if the Marshlands Club could dispense liquor in this way under the law there would be an epidemic of similar clubs all over the province.
