TOKIO BARS MRS. M. SANGER

Planned a Tour of Japan to
Lecture on Birth Control.

San Francisco, Feb. 21.—The Japanese Consulate here has announced that instructions had been received from Tokyo to refuse a visa to a passport for Mrs. Margaret Sanger, head of the Birth Control League, who is in San Francisco preparing to start on a tour of the Far East. Lack of the visa will prevent her landing in Japan, it was said.

Mrs. Sanger announced recently that she would make a three-months' tour of Japan at the invitation of a group of Japanese women and would lecture on birth control there. She said that in the last year twenty-five representatives of the Japanese government had visited her to learn her views on birth control. Dr. Kato, head of the Department of Medical Affairs of the Japanese government, according to Mrs. Sanger, visited her in 1921 when studying birth control in the United States, England, Germany and Holland, and told her that his government was convinced it must establish birth control as a national policy or fight a war of aggression in the next generation. She has spoken of the possibility of war between Japan and the United States because of the need of a war to make room for Japan's surplus population.

At the recent birth control congress in the Hotel Plaza, the doctrine of peace through the limitation of population was emphasized, and Mrs. Sanger read a letter expressing that policy from Baroness Keikichi Ishimoto of the Voluntary Motherhood League of Japan.

that Mrs. Sanger was arrested while attempting to hold a mass meeting at the Town Hall. She was released as soon as a magistrate heard her case.

and hearings are now going on before Commissioner of Accounts Hirschfeld on complaints by her adherents that the police violated the law in preventing a peaceful meeting.

Mrs. Sanger has been arrested several times because of her birth control activities. In 1914, when she advocated "the right to be an unmarried mother" in a magazine called "The Woman Rebel," she was arrested by the Federal authorities. The case against her was dropped, but her magazine barred from the mail. She established the first birth control clinic in the United States six years ago in the Brownsville section of Brooklyn, and was arrested on complaint of a woman detective who had impersonated a poor mother. After a trial, Mrs. Sanger was sentenced to thirty days in jail for disseminating birth control literature. She served the sentence in the Queens County Jail.

RECENT WEDDINGS

O'Leary-Duffy.
At St. Joseph's church, at Chipman, on February 6, Rev. W. Moore united in marriage Miss Mary Agnes Duffy to George E. O'Leary of Minto. The bride was attended by her sister, Miss Margaret Duffy, and the groom was supported by the uncle of the bride, Harold Curley. They will reside in Minto.

Huestis-Donnelly.
A pretty wedding took place in St. David's church yesterday afternoon, when Edna V., only daughter of Mr. and Mrs. James H. Donnelly, was united in marriage to Murray Huestis by Rev. J. A. MacKeigan. Mr. and Mrs. Huestis will make their home in St. John.

**A Cheerful Kitchen
Makes Light Work**
MAKE your kitchen bright. What a wonderful difference light, cheerful colors make. That's why a set of Diamond or Pearl Ware kitchen utensils would be ideal for your kitchen. Ask your dealer to show you SMP Diamond or Pearl Ware. You'll like it at first sight.

SMP Diamond or Pearl WARE
"A Face of Porcelain and A Heart of Steel"

It's such bright, cheerful, happy-looking ware—either the Diamond or the Pearl. It always looks clean and new and it's so easy to keep it looking clean and new. No need to bother with steel wool, lye, metal polish or any of those things. Soap and hot water wash every sign of food or fire away. Wipes sweet and clean like china.

Diamond Ware is light blue and white outside, all white inside. Pearl Ware utensils are grey and white. It's a question which is the prettier. Diamond has three coats of enamel. Pearl has two. SMP enamel is very hard and durable, being mixed from a secret and exclusive recipe and fused onto the steel shapes at white heat. But, unless the SMP trade-mark of the Pointed Shield is on each piece, it is neither a true SMP Diamond or a true SMP Pearl.

Note Reduced Prices
There has been a radical reduction in prices this season. A Diamond or Pearl Ware set that sold for \$1.50 last summer can now be bought for 50 cents.

Warmth from Real Fuel-Food
Warmth and strength for the human engine come from a fuel-food that is rich in heat-making elements. You can't "get up steam" from indigestible food. A breakfast or luncheon of
Shredded Wheat
With HOT Milk
supplies warmth and strength in a natural way. You can't warm a poorly nourished body with flannels and overcoats. Shredded Wheat is 100 per cent whole wheat and contains the bran-coat, which promotes peristalsis and thus keeps the bowels healthy and active. A breakfast of Shredded Wheat with hot milk starts the day right. Ready-cooked.
